

**Special bhog offering for Dadiji and divine message from the subtle region – Dadi Gulzar)**

(For two minutes, Dadiji came into the gathering of Diamond Hall in the body of Dadi Gulzar, gave loving drishti to everyone and went back.)

Today, together with remembering Baba, all of us have also been remembering our beloved Dadiji. Just as I arrived in the subtle region today, in place of Baba I saw Dadi in front of me. It was as though Dadi was welcoming me. I began to smile. Dadi said: Previously, I used to hear about all of you going to the subtle region and meeting Baba, but now I also meet Baba many times. This is why I am welcoming you today. Saying this, Dadi took my hand in her hand and took me to Baba. Baba was in front of us, smiling, celebrating a meeting with us through the drishti and then merged us in His arms. Baba said: Child, today, you have brought special remembrance for Dadi, have you not? This is why Dadi met you first. Then Baba asked me: What news have you brought? I replied: At all the centres everywhere, everyone is experiencing very beautifully the wave of 18<sup>th</sup> January, the Day of Remembrance. Everyone everywhere is engaged in tapasya and their own effort for the self. Dadi said: Baba, now everyone wants transformation to take place very quickly and that all of us, both those of the advance party and those from the party of those who have the advance stage become transformed and open the gates to the land of liberation with you. Baba looked at me and smiled and said: This is Dadi's pure desire too, but what do you think? Do you think that before opening the gates to the land of liberation all the direct Brahmin children in this life of the confluence age have become free from all the weaknesses, reasons, problems etc? Because it is by experiencing liberation-in-life here that all of you will then become those who have adopted the body that is liberated-in-life. So, I was smiling. I replied: Baba, today, I will ask the gathering how many have become liberated. Dadi said: You tell Baba how many have become free. I replied: You also tour around everywhere; you are free while in the womb, are you not? Dadi said: No, you tell Baba. I replied: Baba, everyone has the enthusiasm: I have to become this. I have to become this. Time is now close. However, there is still a but... Dadi asked: Till when will there still be a but? I just remained quiet. Baba said: Baba has already told you: Now, just the power of determination is lacking. The carelessness that comes every now and again is "we are moving along, it will happen, it has to happen." However, it has to happen quickly. This wave of intense effort is there; it comes, but it doesn't stay all the time. Baba said: Children make a firm, determined promise in their mind, but sometimes there is carelessness in the promise. Now, revelation will only take place when you make a firm, determined promise.

Then I asked: Dadi, you are still in the womb now, so how do you meet Baba? Baba then said: At amrit vela, I emerge the child and she also goes around everywhere at amrit vela. And she also sees it in the alokik TV that Baba has here in the subtle region. Just as Baba sees on His TV, by switching it on, that all the centres of the world are visible on the TV in one second. Dadi sees this and I also see it. Then Dadi said: When I see it I feel that even now there is still carelessness and a lack of determination. Baba said: Just look at the result. How can Baba open the gates? Baba loves the children and Baba is not going to go anywhere without the children. He will go with the children; this is Baba's promise. In this way, Baba was having a heart-to-heart conversation with Dadi and myself.

Then Baba said: Child, today, Dadi was asking Baba: Baba, give me my certificate. I have come to You for Your task, according to Your instructions. From the beginning, whatever task You have given me, I have always said, "Ji Ha" I have never said no. Dadi then looked at me and asked me: It is like that, is it not? What do you think? I said: Dadi, you have never said, "Na ji" (no) and this is why you have claimed a number ahead. Dadi said: From childhood, I have never ever said no to any task. I used to feel very bad to say no. We friends used to give regard to the ideas of one another. Baba said: This nature of

the child, of listening to the young and old with regard and giving them co-operation is her speciality and this is why she has been an obedient child to Baba and the family. Baba gave the child a certificate: You have been obedient to Baba and this is why you have been an obedient child to Baba and also the family. Baba gave the child the certificate: Firstly, you have been obedient to Baba and, secondly, you have always been co-operative with the family, young and old. Sometimes, there are situations where you can't give co-operation, but have to give teachings. However, if co-operation had to be given through someone, Dadi's speciality was that she has always been co-operative. This is why Baba gave Dadi the title: The service companion who is full of bhavna of forgiveness. Baba said: Today, Baba has given the child this certificate. So, all of us also have to claim this certificate. The question of forgiveness arises later, but first of all it is necessary to become an embodiment of the feeling of forgiveness and become a companion who has love. Some children say: Why should we forgive when that is wrong anyway? However, if you give that one judgement by first being an embodiment of forgiveness then that one receives half the happiness in just that.

Then Dadi had chit-chat with Baba. Dadi said: Baba, should I tell you one thing? Today, I was very amused. Baba said: Child, what were you amused about? Dadi said: I felt that in bhakti, when they say that Krishna took birth in the jail of the womb, perhaps it is because we of the advance party take birth through the jail of the womb, and they have made a memorial of that in bhakti. Although it is not a jail of the womb for me, and I am comfortably sleeping behind the curtain, and there is no feeling of anything dirty or any punishment. However, it would still be called the jail of the womb. Baba smiled and said: Child, you, the soul, are going to become a deity, are you not? Although you don't have a deity body now, but you are that soul. This is why the devotees have created such a memorial. Dadi was having a chit-chat in this way. Baba said: Child, was this what you were churning about today?

I said: Dadi, bhog is being offered to you in the gathering. Dadi said: I also have a lot of love for the service companions. All are my service companions; all are my brothers and sisters. I am also very happy seeing all of them, even the new Baba's children who have come are also my brothers and sisters who have come to their home, Madhuban. Whoever has come today, Dadi specially remembered all of them. I said: Dadi, everyone is remembering you a lot. Dadi said: Of course they will remember me, but... I said: But what? Dadi said: I am your service companion and Baba is your Companion and is with you. I am not with you; I am just your service companion. Do you remember Baba used to say a word in Sindhi? Child, do not forget and do not remember. Baba is your Companion and is with you and therefore, whenever you remember me, then first remember Baba. Do not remember me alone. Then Baba said: Even now, Dadi will emerge in front of me at amrit vela and whatever service news there is I will tell Dadi and also listen to her when I emerge her at amrit vela.

Then Dadi said: I have given everyone my remembrance. Now take remembrance from Baba too for everyone. Baba gave love and remembrance and said: I want to see each child of Mine becoming double-crowned. One is to wear the crown of self-sovereignty and the other is to have a right to the crown of the kingdom of the world. All the children should be seen as such double kings. This is what Baba wants and this blessing that Baba is giving is: The king children who have a right to the double kingdom. Baba gave love and remembrance in this way. Then Dadi said: Give my friends, my companions, my long-lost and now-found beloved brothers, my long-lost and now-found double-foreign brothers and sisters my love and remembrance. It is with the service from abroad that Baba's title of being a World Benefactor has become well-known. This is why give double foreigners double, triple, four times as much, however many times as much love and remembrance. Bringing such love and remembrance for everyone, I came back to the corporeal world. Om shanti.
