

Today, carrying the love and remembrance of all the Kumars from everywhere, I reached Baba. And just as Baba always does, standing at a distance, meeting with the eyes and welcoming me, in the same way, Baba met me with the eyes today and while giving drishti was welcoming me. Today, I was not alone. I had gone carrying the love and remembrance of all of you, and so all of you were with me too. As I reached Baba, Baba said: Child, what news have you brought? I replied: Today, I have brought love and remembrance from all the Kumars everywhere. So Baba said while smiling: Child, the Kumars group means the group of Mahavirs because Kumars have double power, one is physical strength and second, they also have God's power. So, today, you have brought love and remembrance of my Mahavir children. I too smiled. After that Baba said: Look child, Baba has lots and lots and lots of hopes in the Kumars. I continued to listen.

Baba then said: Today, Kumars (youth) everywhere are a problem to the world because of ignorance. However, My children are those who solve problems. This is why Baba also has a lot of love for the Kumars. I said: Baba, Dadiji has a lot of love for the Kumars. Dadiji is very pleased on seeing the Kumars. Baba then asked: So what response are the Kumars giving? I replied: Baba, they too are very pleased. This is what I have seen, but whatever is inside them, the Kumars know that. Then Baba said that He wants each of His Kumars to go back from this bhatthi with such transformation that their face has changed. I asked: Baba, how will their faces change? Baba replied: Baba has the hope in each Kumar that their face, eyes and features change and they become the form of an exhibition. Anyone who sees them and looks at their eyes and face should experience the personality of purity. For instance, it is not written on the forehead of the child from a royal family that he is from a royal family, but his face, his eyes, his way of walking and interacting proves that he belongs to a royal family, to a grand family. In this way, Baba has the hope that it is experienced through each one's eyes that this one is a Kumar with the personality of real purity. Everyone should receive vibrations of purity. You must have seen that from the faces of great souls you experience that they are truly great souls. They have one or another speciality. But My children are greater than those great souls. This is why Baba's hopes are that the personality of purity should be experienced through each one's eyes. There should be the sparkle of such a spiritual smile on each one's lips that any soul, no matter what their sanskars are, or however peaceless they may be, with your smile of God's love, you make others happy from experiencing sorrow. Even if it is just for one moment, make them experience the sparkle of happiness. Baba said: Just as you are attracted towards pictures in an exhibition, in the same way, the face of each of My Kumars should become a living exhibition so that anyone who sees you becomes happy and repeatedly has the desire to see you, because by seeing you, they are transformed. So when all of you return to your centres and come into connection with others, they should feel that truly, there is the experience of the personality of purity in your eyes, that they can see the sparkle of happiness in your smile.

Baba then asked: Child, have the Kumars brought about such transformation in the bhatthi? So what response should I give? I just continued to smile. Baba then said: Achcha, Dadi should ask everyone the result. After that Baba said: Baba loves and is proud of one thing about the Kumars. What is that? All the Kumars who have come have kept courage. Even though you are effort-makers, you have kept courage and belonged to Baba. You have at least had the courage to renounce all the things of the world – the company of the world, the attractions of the world. This is why each Kumar has this blessing from Baba: When you children have courage, you always have the special help from BapDada with you. Simply use this blessing and experience it in a practical way.

After that, Baba said: Dadi offers a lot of special hospitality to the Kumars. She is feeding them everything and entertaining them. I said: Baba, she has even the thought of giving them the best gifts. Baba, whatever hopes and requests the Kumars have made, Dadiji is fulfilling them. Baba said: Dadi is giving them lots of gifts. Today, Baba is also giving all of these Kumars four special gifts:

1) BapDada's heart-throne 2) The flying carpet (Udan Khatola). With the flying carpet of the mind you can reach the subtle region, the supreme abode or Madhuban whenever you want. 3) A crown. The crown is of the responsibility of world benefit. However, in order to adopt this crown, you have to become double light and only then will this crown fit, otherwise it will continue to fall off. In the same way, for the flying carpet, you need controlling power and ruling power for the mind, and for the heart-throne you need a clean heart and an honest heart. 4) The rosary of success. Baba said: Success is the garland around the neck of My children. Baba is giving these four gifts to all the Kumars. Look after these gifts very carefully, and by using the right method, you can attain success.

Saying this, Baba made Dadiji and Dadi Janki emerge in the subtle region. Baba said: These two are not separate from each other, and this is why Baba emerges both of them. I just continued to watch as a detached observer. Baba said: These are My extremely loving, detached jewels of BapDada's forehead, equal to the Father. Just as a sparkling jewel on the forehead is very shiny and bright, in the same way, these two Dadis become the jewels of Baba's forehead and are giving light to the world. They are making it sparkle and with their method, the world has to sparkle. Saying this, Baba also met Me and then I came back to the corporeal world. Achcha.
