Beloved Avyakt BapDada's divine message for Sister Dawn of Australia
(Gulzar Dadi)

Today, I went to BapDada. From a distance BapDada was smiling and giving love from His heart. I became merged in that love as I came in front of Him. Baba said: Child, what news have you brought today? I said: Baba, today I have especially brought love and remembrance from the brothers and sisters of Australia. Baba smiled very significantly and said: BapDada has special love for the children of Australia because the speciality of the children from Australia is that they have the most number of retreat centres. Blue Mountain has been made so beautiful now. It is the serviceable children with courage who have become instruments for so much service. BapDada remembers in His heart all the special instrument children.

Then I related to Baba news of Sister Dawn from Australia. BapDada was listening to me, but as He was listening to me, although He was looking at me, He was also looking somewhere else. For some time, I too continued to look at Baba and then Baba said: BapDada celebrates a meeting through drishti with the child every day and the child also takes very lovely drishti and becomes merged. From the beginning, the child has had deep love for Baba. This was an account of the past birth that was settled. But the child just remembered "sweet Baba, my Baba, Shiv Baba" and she had become unconscious after a very short time. But even while she was conscious, only the words "Baba, Baba", continued to emerge from her lips. She was a very patient and introverted child. She was also loved by the whole Brahmin family and this is why her future is also very good. She will remain very happy and in comfort there too.

However, according to the atmosphere of the time, children should not remain so innocent. The innocence of the child became the cause, but till the last moment, she was merged in love. BapDada continues to give drishti to the child. Give all Australia residents special greetings and blessings. Om Shanti.
