

8th April, 2004

Dear Sisters and Brothers,

Om shanti. The scenes of drama are always changing. Dadiji is recovering from her angioplasty with Baba's blessings and the good wishes of all of us. Dadi Gulzar and Sister Mohini of Madhuban have been with Dadiji, however they shortly are leaving for Ujain for very important service at the Kumbh Mela. This has meant a slight change in the programme for Dadi Janki's return to London. Instead of returning on Thursday 8th April as previously scheduled, Dadi will now arrive one week later, on Wednesday 14th April. Baba teaches us to be always ever ready.

Enclosed is also a short message that BapDada gave at the close of the Teachers Meeting and regarding Dadiji's health.

*With love and regards,
In Baba's yaad,*

Sister Jayanti

Beloved Avyakt BapDada's message via Dadi Gulzar

Madhuban

Today I went to BapDada and gave love and remembrances from everyone. BapDada smiled sweetly and said: Children have made very good plans. You have made them from your heart. Now, claim blessings by keeping balance of the self and service. BapDada is always pleased with you children because He knows: These are My long-lost and now-found direct children and the hero actors in the whole cycle. These children are God's companions and this is why you have lots and lots of love from BapDada's heart. Now, BapDada wants that My children quickly become equal to Me and make souls of the world happy and enable them to receive the Father's inheritance. This has to happen. It has already happened.

After this, I gave Baba news of Dadiji's health. Baba said: There will always be these complications because this is the final old body. But Dadiji has the blessings of the Father and all of you. After saying this, Baba gave everyone remembrance and said: You constantly have the fortune of happiness. Remain happy and continue to give everyone the co-operation of happiness. Om shanti.
