

**Avyakt BapDada's divine message for the
Regional Co-Ordinator's Meeting in London - Gulzar Dadi)**

Today, when I reached BapDada, I saw from a distance that BapDada was standing ahead of me in a very loving form. From a distance, He was saying: Come, My child who is the light of the eyes, My child who is seated on the heart-throne, and giving sweet drishti. I just became merged in that divine drishti and moved forward come personally in front of Baba. Merging me in His arms, Baba said: What news have you brought today? I replied: Today, a meeting is taking place in London of the RCOs, your specially beloved children abroad who are instruments for service. They are making many plans and having lots of exchange for service. Dadi Jankiji has also sent lots of love and remembrance. Everyone has given lots of love and remembrance. As soon as Baba heard this, He smiled very sweetly and it felt as though BapDada reached the children in London and is merging each one in His eyes. After some time, Baba said: The Father surrenders Himself to His special children who are instruments for service, that each child is merged in the love of the Father so deeply and, in order to reveal the Father, is engaged in service with their heart in each and every corner. The Father is also proud: Why would you not have that zeal and enthusiasm since you are the invaluable jewels of the unlimited Father, of God, the Father. The Father sees each one of His diamonds every morning at amrit vela and merges each one of you in His drishti.

Then I told Baba that a very good exchange is taking place about Media service nowadays. Baba said: Child, The service of the Media is a very good method of easily doing unlimited service and of giving the message. All the children have a lot of enthusiasm and each one of you is doing service with your different facilities and methods. Some are writing books of their experiences and experiences of their attainment. Some are doing very good things through the video, audio cassettes and songs. You are also clarifying knowledge. You are making effort with love, but because people have a gross intellect, an intellect filled with body consciousness, their intellect is drawn to those souls, that so-and-so wrote very well, that that BK has made something very good, that the sisters have done something very good. However, their intellect is not so much drawn to the fact that the source is the one God. They are simply saying that you are also doing very good work, but it doesn't enter their intellect that this is the only One. Make such plans and find methods that through every means, their connection and relationship is forged with God, that they claim a right to the inheritance and they receive some attainment and power. Whatever you have done so far, a very good message has reached them. The Father is congratulating you, giving you love and saying, "Wah, My children, wah!" Now, think about this and set up a committee in this land and abroad so that you are able to look at the facility of every type of Media with that aim. Whether it is books, articles in the newspapers, drama-dialogues, Video films, let there be less expense, less time and less effort. Then, there will be greater glory in service easily because all the children everywhere in this land and abroad have that enthusiasm. It is good and it will be good.

After this, BapDada gave remembrances to Dadi Jankiji and all those who have come for the meeting. Baba said: All are My Rai-Bahadur (advisor) serviceable, knowledge-full children. BapDada is giving congratulations knowing the speciality of each one: Wah My invaluable spiritual God's diamonds who are even more valuable than the Kohinoor diamonds, wah! Give everyone blessings, love and remembrances from the heart, from the Father, the Comforter of Hearts.

After that, BapDada remembered all the double-foreign children and said: Give lots and lots of love and remembrance of the True Father, the True Teacher and the Satguru to all the children who have a clean and honest heart, and so therefore, whose desires are fulfilled. The children of Bharat are fortunate for calling the Father to Bharat anyway. Baba gave lots and lots of love to our sweetest Dadiji, and circling His hand of blessings over her head, giving lots and lots of love and remembrance, Baba sent me back to the corporeal world. Om shanti.
