

Today, I reached the subtle region carrying love and remembrance specially of Dadi Jankiji and all the Brahmin brothers and sisters of all the places in Australia and also those of Asia and New Zealand. What did I see? That even before I arrived, Dadi Janki and our sweet friend Dr. Nirmala were seated on either side of BapDada and holding Baba's hands, were celebrating a meeting with Baba and having a sweet heart-to-heart conversation with Him as they were coming in front of me. Seeing this scene, I smiled and continued to move forward. So, BapDada met Me through the eyes and merged Me in Him and said: Child, both of these two remembered Me a lot and so I called them to the subtle region. I said: Baba, I too have brought news of Australia. BapDada smiled and merged all three of us in Him. Then BapDada said: Child, BapDada remembers Australia too because from the beginning, BapDada has had a lot of hopes in these children. BapDada knows that there are very good children who have had faith from the beginning to now, who have been loving with their heart, and have been co-operative in service and very strong. Yes, in-between, they become incognito, but they are immortal and they have courage. They can do what they want. Look, it is just Australia where they have more than one Retreat Centre.

I said: Dadi Janki was very happy to meet the very firm Brahmins who have been with Baba for over 20 years. Baba said: Child, this is their courage. And their foundation is strong which is why they have had a right to the inheritance of Brahmin life for so long. They have love for BapDada in their heart. Saying this, it was as though Baba merged all the children of Australia in front of Him. In a second, all of them became emerged in front of Baba. BapDada called each one to Him and gave drishti with a lot of love and also gave love from the heart. He gave blessings from His heart. I felt as though BapDada was giving each of the children some blessings through the language of the eyes. What they were, Baba knows and you know! I was very pleased just to witness it. However, it was a very beautiful, loving and powerful scene. Lastly, BapDada gave drishti to Dadi Janki, Dr. Nirmala and everyone else and said: My carefree king Janak and My daughter, Nirmal Ashram and all My children, become double light, equal to the Father, detached observers and constant companions with the Father, and continue to fly and make others fly.

After this, this scene also ended. Then Baba emerged our Dadiji and as soon as Dadiji came, she lied down in Baba's lap like a little child and merged in Him. BapDada too spoke with a lot of love: The child has pain when coughing, do you not? Saying this, BapDada massaged Dadiji's heart with His holy hands as though giving it warmth and was also giving lots of blessings from His heart. Dadiji and BapDada were totally merged in love. After some time, Baba said: It is the child's wonder that she always maintains zeal and enthusiasm of remembrance and service and creates the atmosphere of enthusiasm everywhere that everyone should now quickly receive Baba's message. The enthusiasm of this soul who has become an instrument spreads the wave of remembrance and service in all souls. Each one is making one or another plan according to their capacity. Seeing this, BapDada is happy. Increasing this zeal and enthusiasm is giving all Brahmins power and the fruit of service. BapDada sees that even abroad, child Janak increases everyone's zeal and enthusiasm a lot. BapDada surrenders Himself to both the specially beloved children. According to the present time, the Dadis are increasing the zeal and enthusiasm everywhere and this is making the atmosphere very strong. It is essential for all places to remain busy in remembrance and service because now, the atmosphere of the world is to become even worse. Everything is going to its extreme, and it has go to that extent.

After this, BapDada remembered all Madhuban niwasis, all of Dadiji's arms. Baba gave lots and lots of remembrance for everyone and said: Just as you are moving along tirelessly with enthusiasm in service, in the same way, also become number one in making the atmosphere powerful. These are the pure hopes that BapDada has in Madhuban and all the arms. Saying this, Baba gave lots and lots of love and remembrance to everyone and I came back to the corporeal world.
