

Today, when I reached Baba carrying love and remembrance from all of you, as usual, BapDada was smiling, standing at a distance and meeting me through His eyes. Today, it was as though the globe of all the souls of the world was merged in Baba's eyes and through His merciful form and form of the Bestower of Blessings, Baba was giving sakaash to all the souls. Seeing Baba in this form, I also began to feel myself in the same form. After some time, Baba's vision fell on me and so the globe of all the souls disappeared and Baba called me from a distance, "Come, child, come!" I continued to go closer and reached Baba. Together with me, Baba also invoked Dadiji and Dadi Janki. Then Baba put His arms around all three of us and gave all three of us such drishti filled with a lot of love and power that it felt as if the light of the lighthouse was spinning around us. The rays were emerging from Baba's forehead, as from a lighthouse. As soon as Baba's light fell on us, those rays began to emerge from the foreheads of the three of us. Then Baba said: Child, did you see what the task of all of you is, My specially beloved children who maintain the zeal and enthusiasm of becoming equal to the Father, at the present time? Baba is showing you what human souls need today. At present, a lot of facilities are available, but instead of experiencing the happiness and peace that people should from those facilities, now everyone is feeling that they are receiving both happiness and sorrow from these facilities. So now, everyone is feeling that the desires of their heart are not being fulfilled by these facilities. Just as someone's hunger continues to increase, in the same way, the expectations and hopes of the majority of souls is continuing to increase, hoping that they will find someone who can give them an experience of happiness and comfort. It is as though the sound of 'wanting' is emerging from their heart. Baba was giving all three of us drishti and also speaking these elevated versions to us.

After some time, Baba said: Child, what message have you brought today? I replied: Baba, today, I have specially brought a message for Dadiji. Everyone is remembering Dadi. Baba said to Dadi: Are you remembering everyone or is everyone remembering you a lot more? Dadi replied: The remembrance from the heart of all of them is reaching me and I am also remembering them from my heart because Baba, You have especially called me in connection for service at the confluence age, have You not? So, I am even now constantly remembering my confluence-aged friends, companions and service. I said: Baba, in what form is Dadi doing service now? Everyone has a question in their mind wondering what Dadi is doing. Baba said: Dadi's part is very unique. I asked: Baba, You said that Dadi was in the womb, and so what service can she do from the womb? Baba replied: The child has this freedom that she can emerge herself in front of Baba whenever she wants because, as yet, she is not tied in any bondage. The soul is still free and can come and go. Dadi said: Gulzarben, do you know that my time for coming to the subtle region is fixed and my time for service is also fixed. I asked: Dadi, what is your fixed time? Dadi replied: My time is fixed for amrit vela. At amrit vela, Baba emerges me in front of Him; it is as though Baba gives sakaash at amrit vela. Sometimes He goes on a tour of the world. Sometimes He goes to the scientists, sometimes to the Brahmins, and sometimes He tours around the devotees. So, my time at amrit vela is fixed for sometimes touring around with Baba and sometimes going on service according to Baba's directions. I said: Dadi, all of us also sit at amrit vela. Dadi said: All of you sit, but Baba has given me a special blessing that, while sitting here, I can emerge all souls. The tiny souls become emerged in front of me and I give them sakaash, and sometimes, I even go on a tour. Sometimes, Baba is with me and sometimes, Baba sends me. This time is fixed for me. I can do service and also sit with Baba. I cannot stay without Baba. Although I am also in the womb, Baba emerges me in His subtle region at amrit vela and I have that experience. After that, Baba took all three of us to His gaddi. Dadi and Dadi Janki were with Baba and I was sitting opposite them. Baba was lying down in the pose of Vishnu. I said: Baba, we all have one question. At present, Dadi is in the womb, but what service will she do when she takes birth? Baba said: Dadi's service has begun from now. I asked: How has it begun? Baba said: The result (in terms of the situation ) of the whole world you are seeing and everyone understands that scientists have become disheartened that they are not able to do anything. The mahatmas feel inside themselves that they have done so much but what they want to happen is not happening. All human souls feel that there should be

peace, but in practice peacelessness is increasing. So, from Dadi's service the influence of the transformation taking place is that everyone is realising that some extra power is required, and day by day their attention is being drawn to the fact that, apart from the three authorities, another authority is required; their attention is being drawn to this. They also feel that some power should come to them so that they can transform nature. Now, nature is going to an extreme, but is unable to bring about transformation. So now the feeling "something else is required, something else is required" is increasing everywhere in the world. So, with this subtle service, it is as though Dadi is bringing time close. I said: Baba, what will happen when Dadi takes birth? Baba shared a very good secret. Dadi was just smiling. It was as though Dadi was saying: Baba, You are very clever... Baba said: The place where she will take birth, her father is a very good devotee. He is also wealthy, but he is not a minister or a senior person in the military. However, his speciality is that everyone gives him regard, just like an adviser, and they feel that the advice he gives is very good. All the important people have friendship with Dadi's father. He is not in an important post (position), but he is everyone's friend. He has such a harmonious nature. Everyone likes what he says, feeling that what he is saying is good and correct. He already has such sanskars. Though Dadi will take birth, on the basis of knowledge, she has touching and catching power, she has spiritual power and her father's sanskars are also like that. Because of his harmonious nature, he is well-known, and because of this, from childhood, Dadi will work with her father. Within a year and a half to two years, Dadi will continue to reveal her form. All the important people will accept the advice from Dadi and her father. Even though they may be far away, they will become well-known as though their advice is number one. Dadi will serve in this way. I said: Baba, what is the part of the other souls in the advance party? Is this the part of Dadi alone or does anyone else also have such a part? Baba said: I will continue to reveal this later. However, all those of the advance party souls are close to one another in their hearts, through one connection or another, in terms of friendship or a distant relationship. From time to time, without the introduction to Brahma Kumars and Kumaris, they come close on one occasion or another. Whenever the advance party souls who have some relationship meet one another at a function, they have the feeling as though they are very close to one another. They have such love as though they are brothers and sisters. They have such a feeling. It is as though they are very close to one another in their thoughts and ideas. Now, when Dadi goes, she will meet them too. Baba said: The advance party souls have a small meeting in which they have a committee of eight. That committee is sometimes emerged in the subtle region. I empower them and give them directions about how they can do service through their connections.

Then I said: Dadi, Baba has told us everything from His side, but what do you think? Dadi said: I don't feel that I have gone from Madhuban. I continue to come to Madhuban every day. I meet everyone in Madhuban every day. I said: Dadi, you are not there in the sakar form though, are you? Dadi said: Baba has now sent me on service. At all the centres, they feel that Dadi has not gone; everyone feels that Dadi is with them. I then said: Dadi, do you have any desires for us? Dadi said: My desire is what Baba wants, that each of His children shows their sparkle, that through their eyes and forehead it is visible that it is not that child, but Baba Himself is merged in them. Others should have a feeling of Baba from their forehead and their eyes. From their actions and words others should feel that whatever are Baba's words are the words of the children, that the awareness that Baba has is the awareness of the children. So, my one desire is that you all reveal Baba through your actions, face and behaviour. Now, everyone should step away from wasting their time in useless matters, wasteful thoughts and wasteful actions. I now want only "Baba, Baba" to be visible from each one's behaviour and actions. Others should receive the vibrations that the One teaching you is merged in you. All of you are the stars of Baba's hopes. All of you are my arms of Madhuban. From everyone, I want Baba to be practically visible. This is my desire and I am waiting for just this, for that day to come when it emerges from everyone's lips that God has come. From each one's behaviour and face it should be proved that God has come and that they have to claim their inheritance from God.

Then Dadi said: Everyone's remembrance reaches me. I hear everyone's sound and also give a response. All of us together will open the gates of our home with Baba. We will send everyone to the land of liberation. We will also go to the land of liberation and then rule the kingdom with Baba. All of us are

Baba's companions and one another's companions. We will remain together from birth. Then Baba said: Give everyone a blessing from Me: Become a Bestower of Wisdom and a Bestower. Whoever you meet throughout the day, whether you meet your companions or anyone else, definitely give them one gift or another. Every day of the confluence age is a festival for us. It is filled with enthusiasm, and so all your companions who come into connection with you should go away with some vibrations. From your smiling face and your eyes, they should take away Baba's vibrations with them; they should take some of your virtues. Anyone who comes into connection with you should not go away empty; they should definitely take back something with them. When you practise this, you will become like the Father very quickly. Then Baba remembered all the Dadis, Munniben and Mohiniben and everyone else. Dadi said: I also feel that those who have lived with me and who have served me so much would be remembering me at every moment. Everyone has served me with a lot of love. So all the server companions, all those who have been in connection with me, give them lots and lots of remembrance on my behalf. Baba said: Tell everyone that Baba has given them love and remembrance personally by their name and speciality. Om shanti.
