

Today, I reached the subtle region carrying love and remembrance specially of Dadi Jankiji and all the Brahmin brothers and sisters of all the places in Australia and also those of Asia and New Zealand. What did I see? That even before I arrived, Dadi Janki and our sweet friend Dr. Nirmala were seated on either side of BapDada and holding Baba's hands, were celebrating a meeting with Baba and having a sweet heart-to-heart conversation with Him as they were coming in front of me. Seeing this scene, I smiled and continued to move forward. So, BapDada met Me through the eyes and merged Me in Him and said: Child, both of these two remembered Me a lot and so I called them to the subtle region. I said: Baba, I too have brought news of Australia. BapDada smiled and merged all three of us in Him. Then BapDada said: Child, BapDada remembers Australia too because from the beginning, BapDada has had a lot of hopes in these children. BapDada knows that there are very good children who have had faith from the beginning to now, who have been loving with their heart, and have been co-operative in service and very strong. Yes, in-between, they become incognito, but they are immortal and they have courage. They can do what they want. Look, it is just Australia where they have more than one Retreat Centre.

I said: Dadi Janki was very happy to meet the very firm Brahmins who have been with Baba for over 20 years. Baba said: Child, this is their courage. And their foundation is strong which is why they have had a right to the inheritance of Brahmin life for so long. They have love for BapDada in their heart. Saying this, it was as though Baba merged all the children of Australia in front of Him. In a second, all of them became emerged in front of Baba. BapDada called each one to Him and gave drishti with a lot of love and also gave love from the heart. He gave blessings from His heart. I felt as though BapDada was giving each of the children some blessings through the language of the eyes. What they were, Baba knows and you know! I was very pleased just to witness it. However, it was a very beautiful, loving and powerful scene. Lastly, BapDada gave drishti to Dadi Janki, Dr. Nirmala and everyone else and said: My carefree king Janak and My daughter, Nirmal Ashram and all My children, become double light, equal to the Father, detached observers and constant companions with the Father, and continue to fly and make others fly.

After this, this scene also ended. Then Baba emerged our Dadiji and as soon as Dadiji came, she lied down in Baba's lap like a little child and merged in Him. BapDada too spoke with a lot of love: The child has pain when coughing, do you not? Saying this, BapDada massaged Dadiji's heart with His holy hands as though giving it warmth and was also giving lots of blessings from His heart. Dadiji and BapDada were totally merged in love. After some time, Baba said: It is the child's wonder that she always maintains zeal and enthusiasm of remembrance and service and creates the atmosphere of enthusiasm everywhere that everyone should now quickly receive Baba's message. The enthusiasm of this soul who has become an instrument spreads the wave of remembrance and service in all souls. Each one is making one or another plan according to their capacity. Seeing this, BapDada is happy. Increasing this zeal and enthusiasm is giving all Brahmins power and the fruit of service. BapDada sees that even abroad, child Janak increases everyone's zeal and enthusiasm a lot. BapDada surrenders Himself to both the specially beloved children. According to the present time, the Dadis are increasing the zeal and enthusiasm everywhere and this is making the atmosphere very strong. It is essential for all places to remain busy in remembrance and service because now, the atmosphere of the world is to become even worse. Everything is going to its extreme, and it has go to that extent.

After this, BapDada remembered all Madhuban niwasis, all of Dadiji's arms. Baba gave lots and lots of remembrance for everyone and said: Just as you are moving along tirelessly with enthusiasm in service, in the same way, also become number one in making the atmosphere powerful. These are the pure hopes that BapDada has in Madhuban and all the arms. Saying this, Baba gave lots and lots of love and remembrance to everyone and I came back to the corporeal world.

*** Om Shanti ***

***Dadiji's sweet letter of remembrance to all the instrument teachers
and all brothers and sisters, the decoration of the Brahmin clan.***

To the Bestower of Fortune for All, to the extremely beloved royal beloved children of supremely loving Avyakt BapDada, to those who have a right to God's love, to the instrument teachers, brothers and sisters and the decoration of the Brahmin clan, please accept sweet love-filled remembrance from your unlimited home, Madhuban.

Now, the beautiful days of the royal beloved children have come again of experiencing God's love and affection in the corporeal form. Only we confluence-aged multimillion times fortunate souls receive the great fortune of being personally taken beyond with His drishti and having our aprons filled with blessings. Look, in the first meeting, nearly 1500 double-foreign brothers and sisters from 77 countries came running to their beloved home of Madhuban and our beloved Baba, the Comforter of Hearts, became present in the gathering of the children on 17th November and made all the children swing in the swing of spiritual love. The whole of Om Shanti Bhawan was full and BapDada's drishti filled with blessings made all the children full of all powers. In the elevated versions that Baba spoke, He decorated all the children for the whole year. Baba said: Children, the royalty and personality of purity of you Brahmin children are higher than that of all souls. Even if someone is a religious soul, a political leader or an actor, no one in the whole world has the personality that you have. Reminding us of such elevated self-respect, beloved Baba gave everyone the blessing of being a jewel of contentment and gave everyone this thought: Children, throughout the year, remain content for the whole year and also make everyone content. All of you will hear the sweet elevated versions anyway.

Now, it is the season for all of you to come. This time, everyone has full freedom to come to Madhuban. All Baba's strong children who are full of dharna should definitely come to Madhuban once in the season and fill their aprons with blessings, and by meeting your unlimited family, fill yourselves with all experiences. Tell me, all of you are also waiting for these moments, are you not? Now, according to the drama, there is a lot of water and the new place is also ready. So, definitely, according to your turn, I am sure all of you will take this golden chance. If the teachers continue to inform us of all the brothers and sisters who will be coming here with such zeal and enthusiasm, then all arrangements can be made for them.

Achcha. Look, the lovely festival of Diwali, our lovely memorial, still brings about so much enthusiasm in everyone. In Madhuban everyone celebrates this festival with a lot of enthusiasm throughout the whole week. This year, Baba's double-foreign children are also here with us to celebrate Diwali. Dadi Gulzar and Dadi Janki are also here in Madhuban. So, everyone celebrates this alokik birthday of the yagyamata, yagyapita and yagyachildren with a lot of pomp and splendour. Before the 17th, everyone celebrated Diwali with BapDada with a lot of enthusiasm. We cut a cake, lighted candles and are now celebrating Diwali every day at one or another of Baba's places. These are the lovely festivities of the confluence age that remind us of the new world to come.

Achcha. I am sure everyone's health is ok. With blessings of sweet Baba and all of you, my health is also ok. Karankaravanhar Baba Himself does unlimited service and inspires me to do. Achcha.

***Lots of love filled remembrance and special greetings for Diwali,
the memorial of the new age, and for the New Year,***

BK Prakashmani

Be a jewel of contentment, always remain content and make everyone content.

1. BapDada wants throughout this year, whenever you children meet anyone, you give them the co-operation of contentment. You remain content yourself and make others content. The self-respect for this season is to be a jewel of contentment. Therefore, always remain stable on the seat of self-respect of always remaining content and making others content.
2. At the present time, there is a lot of tension and distress, and because of this, discontentment is increasing. At such a time, all of you jewels of contentment with the light of your contentment should also make others content. First of all, remain content with your self, then remain content with service and then with your relationships, for only then will you be called a jewel of contentment.
3. BapDada tells you children to be constant servers. However, if you are disturbed by something called service and you are also disturbing others, it is better not to do that type of service, because the special virtue of service is contentment. Where there isn't contentment either with yourself or with those in connection with you, then that service will not enable you or others to receive the fruit. Rather than that, it is better to first of all make yourself into a jewel of contentment and then do service. Otherwise, the subtle burden increases and that burden becomes an obstacle to the flying stage.
4. Any service that makes you discontent is not service. Service means something that gives you nourishing fruit. If there is discontentment in service, then leave that service, but never let go of your contentment. Always remain beyond any limited desires and always remain full and you will become equal.
5. To remain constantly free from obstacles, to be a constant destroyer of obstacles, always to remain content and to make others content: this is the certificate that servers always have to continue to receive. To claim this certificate means to be seated on the heart-throne. Have the aim of always remaining content and making others content.
6. Any soul who has the experience of all attainments would always be content. The sign of being happy would always be visible on their face. When servers are content with themselves and service, there is automatically zeal and enthusiasm for service and co-operation. Then you don't have to say anything or have it said by anyone else, because contentment easily brings about zeal and enthusiasm. The special aim of servers should be to remain content and make others content.
7. The more you experience yourself to be full of all attainments, the more content you will remain. If there is the slightest feeling of anything lacking, then that lack will make you discontent. Although this is not your kingdom and you therefore have to make a little effort, problems here have become like a game. When you have courage, you receive co-operation at the right time. Therefore, together with your contentment, give all souls the co-operation of contentment through your elevated stage.
8. The One who is making everyone act is making everything happen through you: You are just an instrument carrying out the task. To maintain this awareness is the speciality of a server. By doing this, you will always remain content in service and in your own efforts, and those for whom you become instruments will also have contentment. Always to remain content and keep others content is a speciality.
9. Brahmins means those who are sensible. They always remain content with themselves and also keep others happy. If you become discontent because others make you that, then you cannot experience the

happiness of the confluence-aged Brahmin life. To become the form of a Shakti and take yourself away from the atmosphere of others means to keep yourself safe. This is the method to attain this aim.

10. Those who do service from their heart also stay in remembrance. They have to make less effort and yet they experience contentment to a greater extent. Those who don't have remembrance with love in their heart, who simply remember Baba on the basis of knowledge and do service with their head have to make greater effort and they have less contentment. Even if they do have success, there will be little contentment in their heart. They would always keep thinking: It is better if this happens, but still, but still... They will continue to say this, whereas those who do everything from their heart will constantly keep singing songs of contentment.
11. Contentment is a sign of satisfaction. If you are a dissatisfied soul, whether in terms of hunger of the body, or hunger of the mind, then, no matter how much you receive, you will always remain dissatisfied. Royal souls always remain full with even a little. Where there is fullness, there is contentment.
12. The special blessing of the confluence age is contentment. The seed of this contentment is of all attainments. The seed of discontentment is a lack of physical or subtle attainment. The praise of you Brahmins is: Nothing is lacking in the treasure-store of you Brahmins or in the life of you Brahmins. So then, why is there discontentment? Since the treasure-store of the Bestower of Blessings is overflowing, and there is such great attainment, why is there discontentment?
13. Those who are jewels of contentment are always content in their mind, in their heart, with everyone, with the Father and with the drama. Waves of happiness would always be visible through their mind and their body. If adverse situations come, if a soul who has to settle his karmic accounts with them comes in front of them to oppose them, if the suffering of karma through their body comes in front of them, such a soul who is free from limited desires because of contentment, would always be visible as a sparkling star of happiness.
14. Contented souls would always experience everyone to be altruistic and innocent (free from blame). They would never blame anyone for anything; they wouldn't blame the Bestower of Fortune, or the drama or any person, or the karmic account of their body, thinking: My body is like that anyway. They would always have an altruistic and innocent attitude and vision.
15. The speciality of the confluence age is contentment. This is the special attainment of Brahmin life. If there isn't contentment and happiness, there is no benefit in being a Brahmin. Therefore, remain content and make everyone content. There is real happiness and real service in this.

Essence: Sweet children, you are gurus, children of the Satguru who gives everyone the mantra of liberation-in-life. You can never tell lies about God.

Question: What is the method to receive liberation-in-life in a *second* and what is the memorial of that?

Answer: In order to receive liberation-in-life in a *second*, whilst living at home with your family become as pure as a lotus. Simply promise to remain pure in this final birth and you will receive liberation-in-life. The example of King Janak is remembered because of this. Whilst living at home with his family, he received liberation-in-life in a *second* on the basis of making a promise.

Song: This time is passing by...

Om shanti. The Father comes to give everyone liberation-in-life in a *second*. There is the praise that the Bestower of Salvation, the Bestower of Liberation-in-Life for All is One. Why do they speak of liberation-in-life in a *second*, like in the example of King Janak? His name was Janak, but later, that same one became Anu Janak (one who once again becomes Janak in the future). For Janak, it is said that he received liberation-in-life in a *second*. However, liberation-in-life would be said to be in the golden and silver ages. Gurus whisper a mantra in your ear; that is also called the mantra that disciplines your mind. All of them give mantras, but you receive the great mantra, the mantra for liberation-in-life. Who gives you this mantra? Brahma Kumars and Kumaris. Where did they receive this mantra from? From that Satguru. The most elevated One is only the one Father. Then you children become the most elevated. There they have the most elevated gurus. You are also gurus, the children of the Satguru. Even those who relate the Gita are called gurus. It is numberwise. You too are gurus who speak the truth. You never tell lies about God. First of all tell them about purity: Promise the Father that you will never indulge in vice. Not to tell lies is *common*. Many people continue to tell lies, but here it is not like that. Here it is a question of purity. Whilst living at home with your family you promise the Father that you will remain as pure as a lotus in this final birth. Therefore, here it is a question of remaining pure. They say that this is a very high destination, that it is not possible. You say: Wah, why is it not possible? It is remembered: To live like a lotus. This example is also written in the scriptures. Surely the Father would have given you such teachings. There are the versions of God and the versions of Brahmins. God doesn't speak to everyone. It is only the Brahmin children who listen to Him. You have to explain this to everyone. The main thing is purity. You have to become as pure as a lotus, like King Janak. That same Janak then became Anu Janak, just as Radhe becomes Anu Radhe (she becomes Radhe in the future). Someone who is called Narayan would become Anu Narayan in the future. This is *accurate*. You have to explain to whoever comes here: You have heard about liberation-in-life in a *second*. It is possible to claim a high status whilst living at home with your family. We are speaking from experience, not just telling lies. God speaks: Explain the main thing that God is the Father of everyone. He is also definitely the Bestower of Liberation-in-Life. This is the family path. Sannyasis belong to the path of isolation. They can never teach Raja Yoga. They leave their home and family and run away. They cannot give this knowledge. This is Raja Yoga. Whilst living at home with the family, you have to remain as pure as a lotus. In the golden age, Bharat was the pure family path and it used to be a *viceless* world. Both men and women are needed for a kingdom. So, you have to explain that you are experienced: Whilst living at home with the family, we are able to stay as pure as a lotus. We know that we will become pure and become the masters of the pure world through the Father. There was the pure family path and now there is the impure family path. This world is corrupt whereas that was the elevated world. Ravan makes you corrupt and Rama makes you elevated. The kingdom of Ravan continues for half the cycle. The path of devotion exists in the corrupt world. They continue to make donations and perform charity because there is corruption. They believe that by making more donations and performing charity, they will find God. They worship God. They say: Come and make us elevated. Bharat was elevated; it isn't that now. Those who are corrupt then become elevated. No one knows the story of the new creation of Bharat. This can be explained very well using the pictures. You have to make such pictures. There should be the exhibition picture set at every *centre*. Baba gives you *directions*. So if you write saying that you

don't have those pictures, Baba will give *directions*: Make them and send them to everyone so that everyone has the exhibition set. These pictures are full of meaning. First of all, it should enter your intellect that you are children of the Father. God is the One who creates heaven. Ravan is the creator of hell. Make an image of the Ravan with ten heads in the picture of the cycle and show the four-armed image on the globe of heaven. You can also write: This is the kingdom of Rama, this is the kingdom of Ravan. At this time, Ravan is omnipresent. There, we won't be able to say that Rama is omnipresent. It is remembered: Souls remained separated from the Supreme Soul for a long time and the beautiful meeting took place when you found the Satguru in the form of an agent. Therefore, He would definitely come. No one knows this account. It is the souls of the deities that become separated first. This is the *knowledge* that you have to explain to everyone. There is the Father of souls. O soul, tell me the *occupation* of your Father, the Supreme Father, the Supreme Soul. Do you not know it? There cannot be a child who doesn't know the *occupation* of his father. The Father sits here and explains: You don't know your own births. I explain them to you. Those who are the first deities take this many births. So, just calculate how many births those of other religions would take. You have to prove to them that at the *maximum* there are this many births. The tree continues to grow. First of all, there are the deities and they are the ones who are said to have 84 births. This is the *knowledge* of Bharat. Who gave the *knowledge* of ancient Bharat? They would not believe that Krishna gave it. God Himself gave it. *God, the Father, is knowledge-full*. Neither Brahma nor Krishna can be called *knowledge-full*. The praise of Krishna is separate. This is very *clear knowledge* and has to be understood. The God of everyone is the one incorporeal Supreme Father, the Supreme Soul. He is the Creator whereas Krishna is the creation. God, the Highest on High God is One. He cannot be called omnipresent. In Bharat, the *President* is the highest, and then the rest are numberwise. Everyone would be told their *occupation*. It isn't that all of them are the same. You have to prove that each and every soul has received an imperishable *part*. Discuss this amongst yourselves and make *service plans*. However, those whose *line* is not *clear*, who have vices or are trapped in someone's name and form, will not be able to do this work. A very *clear line* is required for this. The *result* will be announced at the end. Now all are numberwise. People say: God Vyas wrote the scriptures. Vyas cannot be God. In fact, there are only four religious scriptures. The religious scripture of Bharat is just the one Gita, the mother and father of all scriptures. Only through that do you receive an inheritance. You receive an inheritance from the Father through the mother. The Father of the Mother Gita is the Creator. So, the Father gives the ancient *knowledge* of easy Raja Yoga through the Gita. The Gita is the scripture of the land of Bharat. Then those of Islam have their own religious scripture, the Buddhists have their own religious scripture and the Christians have their own religious scripture. The Gita is the mother and father of all, and all the rest of the scriptures are its children. They emerged later. To which religion do all the Vedas and Upanishads etc. belong? You should know who spoke them and which religion emerged from them. There is no religion. First of all, prove that the Gita has been falsified. Instead of the Father's name, they have mentioned the name of the child. The life-story of each is different. The Father says: Renounce all bodily religions and constantly remember Me alone. God speaks to souls: Become bodiless and remember Me. Only the Bodiless Father can say this. Sannyasis cannot say this. These are words from the Gita. He speaks to those of all religions: May you be bodiless. The play is now coming to an end. Everyone receives the mantra: Renounce your body and all bodily relations and constantly remember Me alone and you will come to Me. After liberation, there is definitely liberation-in-life. The status you receive is liberation-in-life *via* liberation. Whoever comes here *passes* through the sato, rajo and tamo stages. The explanation is so good. However, children hear through one ear and let it out through the other. Otherwise, it is very easy. You can have exhibitions in many places. So, also have it printed in the newspapers. You can spend some money on this; let everyone hear about it. You definitely have to print it in the newspapers. You children should have a lot of intoxication. However, there is very little *time* remaining. Ask the gopes and gopis about the feeling of supersensuous joy. It is remembered: These are the gopes and gopis of Gopi Vallabh. Gopes and gopis neither exist in the golden age nor in the iron age. There, there are the goddesses Lakshmi and Radhe. Gopes and gopis exist now; they are the grandsons and granddaughters of Gopi Vallabh. Surely there must

also be the Grandfather. The grandfather, Baba and Mama, are the new creation at the confluence age. The Father says: I come at the confluence of every cycle to create the new world. From devilish children you have become Godly children and you will then become deity children. Then you will become warrior children, then merchant and shudra children in your 84 births. Expansion also continues to take place at the same time. The tree also has to become *complete*. Annihilation doesn't take place at all. Bharat is the imperishable land. Bharat has to be praised a lot. Bharat is the most elevated land of all lands. It is never destroyed. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Night class: 16/04/68

No one apart from you Brahmin children, knows when it is the confluence age. There is a lot of praise of the confluence age of the cycle. The Father comes and teaches you Raja Yoga. Before the golden age, surely the confluence age has to come. There are human beings here; some are the lowest and some are the highest. People sing praise in front of them (deities): You are the most elevated human beings and we are the lowest. They themselves say: I am like this and like that. No one apart from you Brahmins knows this most auspicious confluence age. How can we *advertise* it so that people can know about it? God Himself comes at the confluence age and teaches us Raja Yoga. You know that you are studying Raja Yoga. Now, what *yukti* should we create so that people know about it? However, this will happen gradually. There is still time now. A lot of time has gone by, and a short time remains. We say this so that people make effort quickly. Actually, knowledge is received in a *second* through which you receive liberation-in-life in a *second* at that time. However, you have the sins of half the cycle on your head, and they will not be cut away in a *second*. That takes *time*. People think: There is still time; why should we go to the Brahma Kumaris now? They take things wrongly from the *literature*. If it is not in their fortune, they take it wrongly. You understand that this is the age to become the most elevated human beings. There is the praise of becoming like a diamond. Then that decreases: the *golden age*, then the *silver age*. This confluence age is the *diamond age*. Satyug is the *golden age*. You know that this confluence age is even better than heaven; this birth is like a diamond. There is praise of the land of immortality. It then continues to decrease. So you can also write: The most auspicious confluence age is a *diamond*, satyug is *gold*, and treta (silver age) is *silver*. You can explain that it is only at the confluence age that you become deities from human beings. They make a rosary of 8 jewels and place a *diamond* in the middle. There is the *show* of the confluence age. The confluence age is like a diamond. There is the value of a diamond at the confluence age. You are taught yoga etc. and this is called *spiritual* yoga. However, only the *Father* is *spiritual*. Only at the confluence age do you find the spiritual *Father* and receive spiritual *knowledge*. How would human beings who have so much arrogance accept this that quickly? This is explained to poor people. So you also have to write: The confluence age is the *diamond* age and its duration is this much. Satyug is the *golden age* and this is its duration. In the scriptures they have shown a swastika. So when you children remember this, you will have so much happiness. *Students* do have happiness, do they not? *Student life is the best life*. This is your *source of income*. This is the school for changing from human beings into deities. The deities were the masters of the world. You now know this. So there should be limitless happiness. This is why there is the praise: If you want to know about supersensuous joy, ask the gopes and gopis of Gopi Vallabh. The *Teacher* teaches you till the end and so you should remember Him till the end. God is teaching you and then God will take you back with Him. People call out: *Liberator, Guide*. Liberate us from sorrow. There is no sorrow in the golden age. They say: There should be peace in the world. Ask them: When was there peace previously? What age was that? No one knows about that. The kingdom of Rama is the golden age and the kingdom of Ravan is the iron age. You know this, do you not? Children should relate their experiences. What things of the heart can I share? I have found the unlimited Father who gives the unlimited sovereignty, and so what other experience can I share? There isn't anything else at all! There is

no other happiness like this. No one should ever sulk with anyone and just stay at home. That would be like sulking with your fortune. If you sulk with your study, what will you learn? The Father has to teach you through Brahma. So you should not sulk with one another. That is Maya. There are obstacles created by devils in the sacrificial fire. Achcha.

To the sweetest spiritual children, love, remembrance and good night from spiritual Bap and Dada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Don't simply listen to whatever the Father tells you through one ear and let it out through the other. Have the intoxication of knowledge and experience supersensuous joy.
2. Tell everyone this great mantra in order to give them the right to liberation and liberation-in-life in a *second*: "Renounce your body and all bodily relations and remember the one Father".

Blessing: May you be an image of contentment and with the *certificate* of contentment claim the throne of the future fortune of the kingdom.

The *slogan*, "I have to remain content and make everyone content", should always be written on the *board* of your forehead. Those who have this *certificate* will claim the *certificate* of the future fortune of the kingdom. Therefore, bring this *slogan* into your awareness every day at amrit vela. Just as you write a *slogan* on the *board*, in the same way, let this *slogan* be imprinted on the *board* of your forehead and everyone will become an image of contentment. Those who are content are always happy.

Slogan: Only those whose interaction with others is with love and contentment become images of success.

* * * O M S H A N T I * * *

Essence: Sweet children, your spiritual yoga is for becoming *ever-pure* because you have yoga with the Ocean of Purity in order to establish the pure world.

Question: Which faith should children who have firm faith in the intellect have first of all? What are the signs of that faith?

Answer: First and foremost you need to have the firm faith that you are children of the one Father and that you receive the deity sovereignty from Him. When you have this faith, it will instantly enter your intellect that the devotion you have been performing has now ended and that you have now found God Himself. Only children who have firm faith in the intellect become heirs.

Song: Oh Traveller of the faraway land...

Om shanti. The Father sits here and explains that all are travellers of the faraway land. All souls are residents of the supreme abode which is far far away. This is also mentioned in the scriptures. Souls reside far away where the light of the sun or the moon doesn't exist. There isn't a *drama* in the incorporeal world or the subtle region. There is the *drama* of the corporeal world which is called the human world. There isn't a cycle of 84 births in the incorporeal world or in the subtle region. The cycle is shown in the human world. What is the human world and what are human beings made of? A human being is made of a soul and a body. A puppet (body) is created of the five elements and a soul enters that and plays his *part*. So all are residents of the far-away land. However, you do have faith. Human beings don't have faith. The Father has explained: You call Me the Resident of the far-away land, but the residence of all of you souls is the same. Those who play a *part* in other plays all have their own home. They come from there to perform their *part*. Here, you children understand that you are all children of the one Father and that you are all residents of the one home, the supreme abode. That is the great element of brahm and this is the element of the sky. You play a *part* here. There is also night and day and this is why there are the sun and moon. There is no day or night in the incorporeal world. The sun and moon are not deities. They are lights for the stage. The sun gives light during the day and there is moonlight at night. Now, all human beings want to go to the land of liberation. You know that God resides up above. When people remember God and say, "Oh Supreme Father, Supreme Soul!", their intellect goes up above. You souls understand but there is ignorance everywhere. You know that you are not residents of this place. That One is our Father. They say: "*Oh, God, the Father*" with their mouth, and then they say, "All are the *Father, God* is omnipresent". It has been explained to you children that not all are the *Father*. All souls are *brothers* of one another. They continue to fight and quarrel amongst themselves because of not knowing this. You souls are *brothers* and have become children of the Father. Those who have faith in the intellect are numberwise. In the worldly relationship you always have the faith that you are going to receive your inheritance from your father. Here, Maya repeatedly turns your face away from the Father. You belong to the Almighty Authority Father and so Maya too, as an almighty authority, fights with you. This is the war of gaining victory over the five vices. The war is very well-known, but there is nothing like the Kauravas and Pandavas that they have shown in the scriptures. This war with Ravan is very fierce. We souls want to stay in remembrance of the Father and become complete and pure. There is no other way apart from yoga. All the others who learn yoga do not do that for observing *purity*. All of that is physical yoga for a temporary period whereas this is spiritual yoga for becoming *ever-pure*. By having yoga with the Ocean of Purity, we become pure. The Father says: Your sins of many births are burnt with this fire of yoga. Your intellect also says that this world is impure. Ask anyone if this is the golden age or the iron age. No one would call this the golden age. The golden age is in the new world. That is called the *golden age* and this is called the *iron age*. The old world is called the iron age and the new world is called the golden age. You cannot say that it is now the golden age as well as the iron age; no. A resident of hell means a resident of hell. The old world is called the impure world and the new world is called the pure world. This explanation is for human beings. Animals would not say: Oh Purifier, come! Ask anyone and he would say that this is hell. Bharat was the new world, heaven, and Bharat is now the old world, hell. Continue to emphasise Bharat. All others come in the middle period. We don't have any connection with them. Our religion which has disappeared is separate. You have now become those who have faith in the intellect. You know that you are the children

of the one Father. You receive self-sovereignty from the Father. First of all, you need to have this firm faith. You listen to knowledge and that is fine; subjects are created. However, you also have to have the faith that you are children of the unlimited Father. You understand that you were performing devotion in order to meet God. That devotion has now come to an end. God Himself has now come and met us. We receive the sun-dynasty status of self-sovereignty from Him. We claim such a high status. Wealthy people adopt a child, and they only adopt one child, whereas here, the unlimited Father wants innumerable children. He says: Those who become My children will receive the inheritance of heaven. Those who don't belong to Me cannot claim an inheritance. They don't even follow shrimat. Those who have faith say: Baba, You have come once again and we shall now never let go of Your hand. The Father explains to the children. Children then explain to others that they have become the children of the parlokik Father. We are following His shrimat. The Supreme Father, the Supreme Soul, is teaching us. So many have become BKs and they definitely have faith and so why should we not become that too? You should write: I now belong to You, and send it to Baba. The Father would say: I am not far away. I am sitting here. I am present here. I am sitting here in a *practical* way. It is said of the *President*, that he is present on this earth; it doesn't mean that the *President* is omnipresent. In the same way, the Supreme Father, the Soul, who is called the Remover of Sorrow and the Bestower of Happiness cannot be omnipresent. Since not a single person remains unhappy in the absence of the Father (in heaven) how can human beings be so unhappy in His presence? The Father creates a nest for you children. Just as birds create a nest for their little ones, so the Father too creates a nest for you children. He has the nest made through you. The nest of heaven is being made for you to stay in. The Father says: If you follow My directions, you will rule in heaven. If you have firm faith, you will catch hold of this tightly. It isn't that you just have to sit here. You mustn't leave your home and family. Those people leave their home and family. They consider their guru to be their God. They don't die alive. You have to die alive and then live in the golden age. You are claiming your unlimited inheritance from the Father. You have faith that the unlimited Father is teaching you and giving you an inheritance for 21 births, and so you should follow His directions. When you become the Father's child, He gives *directions*. First of all, sit in a bhatthi for a week. You will continue to receive *knowledge* every day. Not everyone understands to the same extent. Each one receives according to his or her efforts and fortune. Everything depends on your efforts and fortune. You can tell what is in your fortune and what status you will claim. After belonging to the Father, you still have to live at home with your family. Achcha, if you don't have a household, then become a stick for the blind. You definitely have to go to relate the story of the true Narayan. Look, daughter Prem has gone on service. Those who invited her held a campaign and introduced her to many others and they were quite impressed. However, the Father says: Not a single one of them has the faith in the intellect that it is the unlimited Father who is teaching all of you and that it is from Him that you receive an inheritance for 21 births. They do become impressed, but they don't have the faith that it is truly the Father, the Ocean of Knowledge who is teaching you. Yes, they say that this is very good, but as soon as they go outside, everything ends. Hardly anyone makes this effort. Although they have spiritual gatherings amongst themselves, those who gather together don't have that faith in the intellect. They are called *half-castes*. There is faith and doubt. One minute they say that the Father is teaching them, and the next minute they ask: How is this possible? Yes, it is good to become pure, but it is very difficult to remain pure. First of all, there has to be faith and they should write with that happiness inside them. Those who are free from bondage never write such letters as the gopikas who are in bondage. Baba writes: You haven't made even one person have faith in the intellect. Yes, you have created ordinary subjects but you haven't created heirs. Not a single person has become one with faith in the intellect. Only those who have faith in the intellect become heirs. Although some do have faith in the intellect, they don't take knowledge and so they go to that dynasty and become maids and servants. As you progress further, you will receive *accurate* visions. You will also know which *number* maids and servants you will become. Then, there will be great repentance. "I did not follow shrimat and this is why I have reached this condition. Nevertheless, in every situation it would be said to be the *drama*. This one has this *part* in the *drama* for cycle after cycle. You will definitely have visions. The *result* has to be announced at the end. Then it

would be said to be destiny. This was in my fortune. The *result* of your study will be announced. This is a very high *school*. The One who is teaching is only the One. There is only the one study and only the one examination. The *Teacher* knows what the *students* are like. Everyone continues to *gallop*. As you progress further, you will come to know a great deal. You will repeatedly go into trance just as you used to in the beginning. You continue to understand and the Father continues to explain. You make mistakes by not following *shrimat*. By moving along in that way, you develop that habit. You may ask: Shiv Baba, am I following Your *shrimat*? Baba would tell you: You are not following and this is why your fortune is seen to be as it is. It is understood that you have bad omens at the moment. However, when you make more progress, they will be removed. Some fall into a slight intoxication of lust. Bharat was pure and elevated and it is now corrupt. There is praise of those elevated deities. The Father says: This is the devilish community. I have come to establish the deity community. This deity religion is the highest of all. The Father alone is the Purifier. However, people don't understand anything. All of those who come to establish a religion are definitely pure. In every situation, there are the good and the bad. There are those with less fortune and those with a good fortune. This kingdom of Ravan is now to end. This city of Ravan has to be set on fire. You, Rama's army, are sitting here. Those who belong to this religion will continue to understand. You understand numberwise. Some are shot with just one arrow like King Janak and they *surrender*. They never make excuses. Excuses don't work here. However, there are also many storms of Maya. She makes you forget your own clan, and that you are the children of God. Therefore, you children have to become very sweet. There mustn't be the slightest intoxication of lust. Lust is the greatest enemy. This is the most important examination. Baba says: Children, live together and remain pure and demonstrate this. The Father knows the stage of the children. Those who have faith in the intellect give their news to the Father: Baba, I remember You and I am also doing service. Only when they write their *service* news do I have faith in them. It is only when they give the proof of *service* that Baba feels that there is great hope in them. Then it should also be understood that Baba is alone and that there are many of us children. Don't think that Baba has to *respond* to you every day. No. The Father is the Lord of the Poor. Poor ones are given donations. This land of Bharat is poor. From being wealthy Bharat has become poor. No one knows this. This Bharat is the imperishable land where God incarnates. Bharat was the Golden Sparrow, that is, it was the treasure-store of all happiness, and we are all making effort to go to that land of happiness. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Don't make excuses but continue to follow the Father's *shrimat*. Give the proof of *service*.
2. Don't forget that you are the children of God and that your clan is the highest of all. Have faith in the intellect and also inspire others to have faith.

Blessing: May you constantly have the fortune of happiness and, with the divine sustenance of blessings, experience an easy and elevated life.

At the confluence age, BapDada sustains all you children with three relationships. In the relationship of the Father, He sustains you with the awareness of the inheritance. In the relationship of the Teacher, He sustains you with the study. And as the Satguru, He sustains you with the experience of blessings. You are receiving all of this sustenance at the same time. With this divine sustenance, you should continue to experience an easy and elevated life. Only when your words of "labour" and "difficulty" end, can it be said that you have the fortune of happiness.

Slogan: Together with the Father, to be loving to all souls is the true feeling of good wishes.

*** OM SHANTI ***

Essence: Sweet children, you have to serve through your royal behaviour and make your intellect *refined* by following shrimat. You also have to give *regard* to the mothers.

Question: Which task is only the one Father's and not that of any human being?

Answer: To establish *peace* in the whole world is the Father's task. No matter how many peace *conferences* etc. people have, there cannot be *peace*. When the Father, the Ocean of Peace, makes you children promise to remain pure, *peace* is established. Only in the pure world is there peace. When you children explain this aspect very tactfully and with great pomp will the Father's name be glorified.

Song: I am a small child and You are the Almighty Authority...

Om shanti. This song is sung on the path of devotion, for on the one side there is the influence of devotion and on the other side there is the influence of knowledge. There is the difference of day and night between devotion and knowledge. What is the difference? This is very easy. Devotion is the night and knowledge is the day. In devotion, there is sorrow. When devotees become unhappy they call out to God. Then God has to come to remove the sorrow of those who are unhappy. So, you ask the Father: Is there a mistake in the *drama*? The Father says: Yes, the big mistake is that you forget Me. Who makes you forget? Maya, Ravan. The Father sits here and explains: Children, this play is predestined. Heaven and hell exist in Bharat alone. It is only in Bharat, that when someone dies, people say that he has become a resident of Paradise. They don't know when heaven or Paradise exists. When it is heaven, human beings surely take rebirth in heaven. It is now hell and so, until heaven is established, they would surely take rebirth in hell. People don't know these things. One is the Godly community, that is, the community of Rama, and the other is the community of Ravan. In the golden and silver ages, there is the community of Rama. They don't have any sorrow. They live in the cottage that is free from sorrow. Then, after half the cycle, the kingdom of Ravan begins. The Father is now once again establishing the original eternal deity religion. That is the most elevated religion. All are religions. They are holding a *conference* of the religions. Those of all the innumerable religions come to Bharat and hold *conferences*. However, what *conferences* would the people of Bharat who don't believe in religion have? In fact, the ancient religion of Bharat is the original eternal deity religion. There is no such thing as the Hindu religion. The highest of all is the deity religion. The law says that those of the most elevated religion should be made to sit on the gaddi. Who should be made to sit in front? Sometimes, they even quarrel over this (the seat). There was once a fight over this at the Kumbh mela. One group said they should go first and the other said they should go first. They quarreled over this. You children should now explain at this *conference* which religion is the highest-on-high. They don't know that. The Father tells you that the original eternal religion was the deity religion which disappeared and they therefore began to call themselves Hindus. Those who live in China would not say that their religion is Chinese. They make whosoever they regard as the most eminent person the principal one and make him sit on the gaddi.. According to the law, not that many can come to the *conference*. Only *religious heads* are invited. Many then say things that are incorrect. There is no one to give them advice. You are the ones who belong to the highest-on-high deity religion. You are now establishing the deity religion. Only you can say that the *head* of Bharat's main religion, which is the mother and father of all religions, should be made the main person for this *conference*. He should be the one seated on the throne (chair). All the rest are below him. So the intellects of the main children should work on this. God sits and explains to Arjuna. This one is Sanjay. Arjuna is a charioteer. The Father is the One riding in the chariot, but people think that He changed His form, entered the body of Krishna and gave knowledge. However, it was not like that. There is now also Prajapita. This can be explained very clearly using the picture of the Trimurti. You definitely need the image of Shiv Baba above the Trimurti. That is the creation of the subtle region. Children understand that Vishnu is the sustainer. Prajapita Brahma is the one who establishes. Therefore, his picture is also needed. This is something to be understood. It enters your intellect that there is definitely Prajapita Brahma. Vishnu is also needed. The one through whom He establishes will also be the one through whom He sustains. He carries out establishment through Brahma. Together with Brahma there is also Saraswati and many children. In fact, this one is also becoming pure

from impure. So, the *head* of the *conference* should be Jagadamba, the *head* of the original eternal deity religion, because there is a lot of regard for the mothers. A very big mela takes place for Jagadamba. She is the daughter of Jagadpita. The original eternal deity religion is now being established. The Gita *episode* is being *repeated*. That is the same Mahabharat War in front of us. The Father also says: I come every cycle at the confluence age of the cycle to make the corrupt world elevated. Jagadamba has been remembered as the *Goddess of Knowledge*. Together with her, there are also the Ganges of knowledge. You can ask them: Where did you receive this *knowledge* from? *Knowledge-full God, the Father*, is only One. How is He able to give you *knowledge*? He definitely has to take a body. So He speaks through the lotus mouth of Brahma. These mothers will sit there and explain. At the *conference*, they should know what the greatest religion is. No one believes that we belong to the original eternal deity religion. The Father says: When this religion has disappeared, I come and establish it once again. The deity religion doesn't exist now. The other three religions are continuing to grow. So, surely the deity religion has to be established once again. Then none of those religions will remain. The Father comes to establish the original eternal deity religion. Only you daughters can tell them how *peace* is established. The Supreme Father, the Supreme Soul, is the Ocean of Peace. So, surely He would establish *peace*. He is the Ocean of Knowledge and the Ocean of Happiness. People sing: Oh Purifier, come! Come and make Bharat into the pure kingdom of Rama. He alone will make it *peaceful*. This is the task of the Father alone. You claim an elevated status by following His directions. The Father says: Those who belong to Me and study Raja Yoga and make a promise for purity, saying: Baba, I will become pure and claim an inheritance for 21 births, will become the masters. They will become pure from impure. Lakshmi and Narayan are pure beings, the most elevated of all. The pure world is now being established once again. You are holding a *conference* for *peace*, but human beings will not bring about *peace*. That is the task of the Father, the Ocean of Peace. Eminent people attend *conferences*. Many become delegates and so they have to be advised. *Father shows son*. The grandchildren of Shiv Baba and the children of Brahma are *goddesses of knowledge*. *God* gave them *knowledge*. Human beings study the *knowledge* of the scriptures. If you explain with such pomp, they will enjoy themselves a great deal. You definitely have to create a strategy. On the one side is their *conference* and on the other side is your *conference* with a lot of pomp. The pictures too are very *clear* and people will understand very quickly from them. Their *occupation* is different and that One's *occupation* is different. It isn't that all are the same. No. The *part* of all the religions is different. They get together and carry on working for peace. They say: *Religion is might*. However, who is the one who has the most power? He is the One who comes and establishes the foremost deity religion. Only you children know this. Day by day you children continue to receive *points*. You should also have the *power* to explain them. A yogi would have very good *power*. Baba says: I only love gyani souls. This doesn't mean that He doesn't love yogi souls. Those who are gyani would surely also be yogi. You have yoga with the Supreme Father, the Supreme Soul. Without yoga there cannot be dharna. Those who don't have yoga don't have dharna either because they have a lot of body consciousness. The Father explains: You have to change your devilish intellect into a divine intellect. It is God, the Father, who makes those with a stone intellect into those with a divine intellect. Ravan comes and makes you into those with a stone intellect. Their name is the devilish community. They say in front of the deity idols: I have no virtues. I am a lustful cheat. You mothers can explain very well. You have to have that much enthusiasm to share knowledge. You have to explain such things in the big gatherings. Mama is the *Goddess of Knowledge*. Brahma is never called the *God of Knowledge*. Saraswati's name is remembered. Whatever someone's name is, that name is kept. The name of the mothers has to be glorified. Some brothers have a lot of body consciousness. They think: Are we Brahma Kumars not *gods of knowledge*? Oh, but Brahma himself does not call himself the *god of knowledge*. The mothers have to be given a lot of *regard*. It is these mothers who will change your lives. They are the ones who change human beings into deities. There are mothers and also kumaris. No one understands the significance of half-kumari. Although they are married, they are Brahma Kumaris. These things are so *wonderful*! Those who are to claim their inheritance from the Father do understand this, but what would those who don't have it in their fortune understand? Status is definitely numberwise. There, some will be maids and servants and

others will be subjects. Subjects are also needed. The human world will continue to grow and so subjects will also continue to grow. Those who consider themselves to be the main ones should remain ready for when such *conferences* take place. Those who don't have knowledge are like young ones. They don't have that much of an intellect (wisdom). Although they may be older physically, they don't have that much of an intellect; they are still young. The intellect of some is very good. Everything depends on the intellect. Even young ones go ahead. Some explain very sweetly. They speak in a very *royal* manner. It would be understood that that one is a *refined* child. One is still revealed through one's behaviour. The behaviour of you children should be very *royal*. You shouldn't perform any *unroyal* task. Those who defame the name cannot claim a high status. When some of you defame Shiv Baba's name, the Father also has a right to explain to you. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Night class:

You children now understand that you are living beings sitting personally in front of the Supreme Father, the Supreme Soul. This is called the auspicious meeting. It is remembered: "God Vishnu is the one who brings auspicious omens". There are now the auspicious omens of the meeting. God gives you the inheritance of the Vishnu clan. This is why He is called Lord Vishnu, the one who brings auspicious omens. The meeting, when the Father meets you living human beings, is very beautiful. You also understand that you have now become the children of God in order to claim your inheritance from God. You children know that after the inheritance you receive from God, you receive an inheritance from the deities, that is, you take rebirth in heaven. Therefore, the mercury of happiness of you children should remain high. There is no one as happy or as fortunate as you children. There cannot be anyone in the world as fortunate as the Brahmin clan. The Vishnu clan is the *second number*. That is the lap of the deities. You now have God's lap. This is higher. The Dilwala Temple is the temple of God's lap. Similarly, there is also the Amba Temple. That temple doesn't give as much of a vision of the confluence age. The Dilwala Temple gives a vision of the confluence age. Other human beings cannot have as much understanding as you children have. Even the deities don't have the understanding that you Brahmins have. You are the confluence-aged Brahmins. Those people sing praise of the Brahmins of the confluence age. It is said: Brahmins then become deities. Salutations to such Brahmins. It is only Brahmins who do the *service* of changing hell into heaven. Baba says namaste to such children (Brahmins). Achcha. *Good night*.

Essence for dharna:

1. In order to be loved by God, become gyani and yogi. Don't be body conscious.
2. Have the enthusiasm to speak knowledge. *Show* (reveal) the Father through your behaviour. Speak very sweetly.

Blessing: May you become fortunate and an instrument for service by transforming the suffering of karma into karma yoga.

The karmic account of the body should never be experienced as an obstacle on the path of attainment or in your efforts. Never let your body stop you from doing service. Even at a time of suffering of karma a fortunate soul becomes an instrument for one type of service or another. Whether the suffering of karma is big or small, don't expand its story, because to speak about it means to waste your time and energy. A yogi life means to transform the suffering of karma into karma yoga: this is the sign of being fortunate.

Slogan: Let there be mercy and good wishes in your vision and then any look of arrogance or insult will end.

*** OM SHANTI ***

Essence: Sweet children, don't hide anything from the eternal *Surgeon*. If you are disobedient about anything, ask for forgiveness. Otherwise, the burden will continue to increase and you will become one who defames the name.

Question: What is the basis of a true income? Why are there obstacles to self-progress?

Answer: The basis of a true income is the study. If you don't study well, you won't be able to earn a true income. Only when your company is not right are there obstacles to your progress. It is said: Good company takes you across and bad company drowns you. If you have bad company, you do not study and will fail. It is company that makes you take one another into the depths of hell. This is why you children have to be very cautious about the company you keep.

Song: You are the Ocean of Love...

Om shanti. Children sing praise of the unlimited Father. This praise is of the path of devotion. You worthy children now sing praise to the *Father* personally. You understand that the unlimited Father has come and is giving us knowledge and making us into the masters of heaven because He alone is the Ocean of Knowledge. *God* has *knowledge*. It is called *Godly knowledge*. The Supreme Father, the Supreme Soul, is the One who gives *knowledge*. To whom? To the children. Your Mama is given the name "*Goddess of Knowledge*", and since Jagadamba is the *Goddess of Knowledge*, so her children should also have the same *knowledge*. *God* gives *knowledge* to Saraswati, the *Goddess of Knowledge*. However, through whom does He give it? These are matters to be understood very well. The world doesn't know who Jagadamba is. You children know that there is only one Jagadamba. They have given many names. People don't know that Saraswati is a mouth-born creation of Prajapita Brahma. It is *God, the Father*, who gives her *knowledge*. *God, the Father*, gives *knowledge* of how the world cycle turns. The Father gave *knowledge* to you children. How did Saraswati receive it? Surely, since she is a mouth-born creation of Prajapita Brahma, the Supreme Father, the Supreme Soul, who is the Ocean of Knowledge, must have given knowledge to Saraswati through his mouth. He must have given that same knowledge to others too. *God, the Father*, is teaching you and so surely, the children of *God, the Father*, are *master gods*. This is why she is given the title "*Goddess of Knowledge*". You children know that you and your Mama are now receiving *knowledge* from the Ocean of Knowledge who is also called the God of the Gita. God is One. No deity or human being can be God. Since she is the *Goddess of Knowledge*, which *knowledge* does she have? That of Raja Yoga. It is with this *knowledge* of easy Raja Yoga that Saraswati, the *Goddess of Knowledge*, becomes Lakshmi, the *Goddess of Wealth*. Since there is praise of the *Goddess of Knowledge*, there is also praise of you children. All are the children of Prajapita. They wouldn't be called the children of Mama. They are the children born through the lotus-mouth of Brahma. All of you Godly children have faith. *God, the Father*, says: I only become present in front of the children. They are the only ones who know Me. So, Jagadamba is the *Goddess of Knowledge*. This is the knowledge of easy Raja Yoga, not of the scriptures. *God* gave her this *knowledge* and she was called a *Goddess*. Jagadamba is the mother. Then, in her next birth, she becomes Lakshmi, the *Goddess of Wealth* to whom people beg for something. Therefore, this proves that Jagadamba receives the inheritance of Raja Yoga from the Father. She is called the *Goddess of Knowledge*. *Knowledge is a source of income*. This is the true income that you earn through the true Father. You are now earning a true income numberwise according to the effort you make. If you don't study, you cannot earn a true income. If you don't keep good company, you will neither be able to study nor will you make progress. Good company takes you across and bad company drowns you. If you have bad company and don't study, you will fail and continue to sit at the back. The *Teacher* knows the reason for this, but the Father doesn't know it. Yes, the *Father* would definitely understand that you haven't studied enough and that you keep bad company due to which you fail. For instance, if they love each other and neither is studying, they would take one another into the extreme depths of hell. The Father understands that they are not studying and so they should be separated. Without studying, human beings are said to be senseless. If they are studying, they are said to be sensible. If you don't follow God's directions, it would be said that you are a step-child. However, they don't understand the meaning of this. You know that those

who don't study will remain impure. They will fail and then run away. The Father says: Oh Ravan, you even swallow My children! You are so powerful! Children then begin to follow the dictates of *Satan*. They don't follow shrimat. You should promise yourself: I will follow Baba's directions at every step. Those who are not following shrimat are said to be those with devilish directions. Baba then understands: Such ones will not be able to claim a high status. If you are unable to explain to someone, it would be said that you are influenced by Ravan. You're not having yoga in order for your intellect to become pure. There also has to be the intellect's yoga. The behaviour of God's children should be very *royal*. There cannot be a king who is clever from birth. This is why Baba says: You have to conquer Ravan's five vices by following shrimat. Baba would say of those who don't follow shrimat: They are following devilish dictates. Some would be following shrimat 5% and others would be following it 10%. There is the account. So, Jagadamba is only one. Jagadamba is Saraswati, a mouth-born creation. This is her full name. Saraswati has been shown with a sitar. She is the *Goddess of Knowledge*, and there would surely also be her children. They too should have their sitar. Look, Saraswati is sitting in the picture of the tree. She is studying Raja Yoga and then she becomes Lakshmi, the *Goddess of Wealth*. *Health, wealth and happiness* are all included in that. No one apart from the Supreme Father, the Supreme Soul, can give that to you. He is *Heavenly God, the Father*. Look, Mama is now doing service. For instance, if someone gives an invitation to Mama, they should first of all know Mama's *occupation*. First of all, they have to have the knowledge of who she is. The world doesn't know this. They say: Krishna was insulted, but that was not possible. It is *impossible*. It is Shiv Baba who takes the most insults and then the *second number* is Brahma. Krishna and Brahma, but no one can insult Krishna. People don't know that Saraswati, the *Goddess of Knowledge*, becomes Radhe in the future. It is after her marriage that she becomes Lakshmi, the *Goddess of Wealth*. *Health, wealth and happiness* are all included. You should have great intoxication in explaining. You have to explain who Mama is. She is Saraswati, the mouth-born daughter of Brahma. The people of Bharat don't know anything at all. They don't have any *knowledge*. There is a lot of blind faith. There are a lot of people of Bharat who have *blind faith*. They don't even know whom they are worshipping. Christians know about their Christ. The Sikhs know that Guru Nanak established the Sikh religion. They know their religious founder. It is just the Hindus, the people of Bharat who don't know this. They continue to worship with blind faith because they don't know anything about their *occupation*. Because they have lengthened the duration of the cycle, they don't understand anything. Those of Islam and the Buddhists come later. There would definitely be those deities prior to them. They would be here for this length of time. If all the other religions take half the cycle, then the one religion also has to be shown as half the cycle. You cannot say that it is hundreds of thousands of years long. Go to the Jagadamba Temple and explain: Who gave this *knowledge* to this *Goddess of Knowledge*? It wouldn't be said that Krishna gave *knowledge* to Jagadamba. However, only those who *practise* this well will be able to explain. Some have a lot of body consciousness. They continue to remember one friend or relative or another. The Father says: If you remember others, you forget to remember Me. You even sing: We will break away from everyone else and connect ourselves to the One. That One is now sitting here. Baba, I belong to You and I will follow Your directions. I will not perform any such actions that would defame Your name. Many children perform such actions that they defame Baba's name. Until they understand this, they will continue to throw insults. The name has also been glorified. Oh God, Your divine activities are remembered! However, you children can understand that no one else understands this. The Father says: Children, I am doing altruistic service. I also uplift those who defame Me. I make Bharat into the Golden Sparrow. I am *number One* in uplifting you. However, people call Me omnipresent and insult me a great deal. I give you children *knowledge*. So there are many obstacles to this sacrificial fire of knowledge from the devilish community. Baba explains that all the rubbish falls here because of the children who are unable to understand this properly. They have Me defamed. Some children do very good *service*, and others even do *disservice*. On the one side some carry out *construction* and on the other, others also carry out *destruction* because they don't have knowledge. The sun and moon dynasty kingdoms are being established. You have to explain to those who don't understand fully. There is mercy for them. After belonging to the Father, if someone doesn't claim

his inheritance, of what use is he? You have found the Father and so you should make full effort and follow shrimat to claim your inheritance. Don't perform any actions that would defame the Father's name. The Father knows that lust and anger are great enemies. They continue to catch hold of you by your nose and ears. That will happen, but you have to go beyond it. Some become trapped in name and form. Not all children are the same. The Father still cautions you: Remain careful. If you perform any wrong actions and have Me defamed, your status will be destroyed. Maya also becomes powerful with the powerful ones and fights with them. While you are remembering the Father, storms of Maya take you somewhere else. Some children don't tell the truth and they don't seek advice. You mustn't hide anything from the eternal *Surgeon*. If you don't tell Him, you become even more dirty. Don't think that Baba is Janijananhar (One who knows the secrets within) and that He knows everything. No. You have to tell Shiv Baba about your disobedience. Shiv Baba, I made this mistake and I now wish to ask for forgiveness. If you don't ask for forgiveness, you will continue to make mistakes. That is, you will continue to increase the burden of sin on your head. The Father explains: Don't destroy your status for cycle after cycle. If you don't create a high status now, that will be your condition for cycle after cycle. This is *knowledge*. Baba knows that the kingdom is being established as it was in the previous cycle. BapDada can understand a lot more. This one is still the specially beloved child. The praise of mothers has to be increased. The mothers are kept ahead. Baba explains to the brothers: Bring them (the mothers) to the front. The brothers too can do a lot of *service*. Explain using the pictures: This is God, the Highest on High. Then there is the Trimurti, Brahma, Vishnu and Shankar. Amongst them, who is the highest? Whose name is mentioned? All would say: It is Prajapita Brahma through whom we receive an inheritance. Shankar or Vishnu would not be called father. You don't receive an inheritance from them. That one is called Prajapita Brahma. What inheritance do you receive from him? Brahma is Shiv Baba's child. Shiv Baba is the Ocean of Knowledge, the One who establishes *heaven*. Therefore, you surely receive teachings for *heaven*. These directions are for Raja Yoga. The Father is giving you shrimat through Brahma. This is for becoming deities. Brahma Kumari, then becomes Shri Lakshmi, *Goddess of Wealth*. Those are Brahmins and the others are deities. All are souls in the incorporeal world. Baba explains to the children a great deal, but only those who are to understand will understand. Human beings become followers of *sannyasis* and gurus with *blind faith*. They don't even know what they will receive from them. A teacher at least knows that you will receive a status. However, they don't know what attainment they will receive from those whose *followers* they become. That is *blind faith*. Anyway, they are not *followers*!. Neither do they make you become like them, nor do you become like them. They don't know at all what the *aim* or *objective* is. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Always remain safe from the influence of bad company. Study this true study and accumulate a *stock* of the true income.
2. Promise yourself that you will follow Baba's shrimat at every step.

Blessing: Whilst coming into contact and relationship with all souls, may you always remain beyond all questions and remain happy.

Whilst coming into contact with all souls, never let such questions arise in your heart as: Why is this one doing this or saying this? This should not be like this, it should be like that. Those who remain beyond these questions are the ones who remain happy. However, those who go into a *queue* of those questions create a creation and then also have to sustain that. They also have to give their time and *energy* to that. Therefore, have *birth control* of that wasteful creation.

Slogan: Merge the Father, the point-form, in your eyes and then no one else can merge in your eyes.

*** OM SHANTI ***

Essence: Sweet children, from time to time, come to the Ocean of Knowledge. Fill yourself with the goods of the jewels of knowledge and then go out and *deliver* them. Churn the ocean of knowledge and occupy yourself in service.

Question: Which effort is the best of all and which children does the Father love?

Answer: To create the life of someone is the best effort of all. You children should occupy yourselves in this effort. If you ever make a mistake, do a lot of *service* as a return for that. Otherwise, that mistake will continue to make your conscience bite you. The Father loves gyani and yogi children very much.

Song: The rain of knowledge is for those who are with the Beloved...

Om shanti. You children can understand that there definitely is a difference between listening to the murli personally, hearing it on *tape* and reading it. It says in the song: The rain of knowledge is for those who are with the Beloved. The rain is for everyone, but those who are with the Father can also benefit a lot by understanding the *expressions* on the Father's face and knowing His various *directions*. However, it is not that anyone can just sit here. You have to fill yourself with the goods and then go and do *service*. Then return and fill yourself with the goods again. People go to buy goods in order to sell them. They sell them and then return to buy more. These too are the goods of the jewels of knowledge. You come back to get more goods. There are such senseless ones who don't do a *delivery*, they just stay holding onto the old goods, they don't want to get more new goods. People themselves go on pilgrimages. The pilgrimage place would not come to them because those images are non-living. Only you children understand these things. People don't understand anything. Big gurus such as Shri Shri Mahamandleshwar etc. take their followers on pilgrimages. So many people go to the Triveni. They consider it to be charity to go to the rivers and make donations there. Here, there is no question of bhakti. Here, you have to come to the Father. Therefore, you children have to understand and then explain to others. You also have to explain to people at exhibitions. You children know that not everyone goes around the cycle of 84 births. A very good method is needed to explain this. It is this cycle that people become confused about. No one even knows about the tree. They also show the cycle in the scriptures. They show the duration of the kalpa from the cycle. There is confusion in the cycle. We go around the full cycle. We take 84 births. However, those of Islam and the Buddhists come later. How we *pass* through the stages of sato, rajo and tamo is shown in the picture of the cycle. How can we show the same about all the rest, those of Islam and the Buddhists etc, that come? They too go through the stages of sato, rajo and tamo. We also show our variety-image form. We go around the whole cycle from the golden age to the iron age. The top-knot is of Brahmins, then the face represents the golden age, the arms represent the silver age, the stomach represents the copper age and the legs are shown to be *last*. We can show our variety-form image, but how can we show this for the other religions? When they start, they too are satopradhan, and then they go through the stages of sato, rajo and tamo. This proves that no one has ever gone to nirvana. They have to go around this cycle. Each one has to go through the stages of sato, rajo and tamo. Abraham, Buddha and Christ etc. were human beings. Baba has many thoughts about this at night. He loses the drowsiness of sleep in these thoughts. He loses his sleep in these. Very good methods are needed to explain these. Their variety-form image has to be created. Their feet should also be shown at the end and then this should be explained in writing. You children have to explain that, when Christ comes, he too has to *pass* through the stages of sato, rajo and tamo. He doesn't come in the golden age. He has to come later. They would ask: Would Christ not come in heaven? This play is predestined. You know that there were other religions before Christ and that they have to *repeat*. The Sikhs who follow Guru Nanak would say: Can we not go to the land of truth? The secret of the *drama* has to be explained. First of all, you have to give the Father's introduction: How do you receive an inheritance from the Father in a *second*? It is remembered: You receive liberation-in-life in a *second*. Look, Baba has so many thoughts. It is Baba's *part* to churn the ocean of knowledge. The words "*God-Fatherly birthright – now or never*" have been written. You also have to write the words "Liberation-in-life". If the writing is *clear*, it will be easy to explain. You received the inheritance of liberation-in-life. Kings, queens and subjects are all in liberation-in-life. So the writing has to clarify this. It can also be explained without the

pictures. You can explain simply with signals. This is Baba and this is the inheritance. Those who are yogyukt would be able to explain well. Everything depends on yoga. Your intellect becomes pure through yoga and only then can dharna take place. A soul-conscious stage is needed for this. You have to forget everything. You also have to forget your body. That's all. We now have to return home. This world is going to end. It is easy for this Baba because this is his business. His intellect is engaged in this throughout the whole day. All right, but those who live at home with their family have to perform actions. Whilst performing physical actions, you forget those other things. You forget to have remembrance of Baba. Baba tells you his own experience. I remember Baba: Baba is feeding this chariot, and then I forget. Therefore, Baba thinks: Since even I forget, how much difficulty must all of these helpless children be having? How would they increase their *chart*? It is difficult for those on the family path. They have to make effort. Baba explains to everyone. Those who are making effort can write their *result* and send it to Baba. Baba knows that this is really *difficult*. Baba says: Make effort at night. All your tiredness will be removed if you remain yogyukt and continue to churn the ocean of knowledge. Baba tells you his experience. Sometimes, my intellect is diverted to other things, and then my head becomes heated. Then, I remove my intellect from those storms and occupy myself in churning the ocean of knowledge, and then my head becomes light. Many types of storms of Maya come. By occupying your intellect in this, all of that tiredness will be removed, and the intellect becomes *refreshed*. When you occupy yourself in Baba's *service*, you receive the butter of yoga and knowledge. This Baba is telling you his experience. The Father would tell the children: This and that will happen. Storms of Maya will come. At that time, you should occupy your intellect in these things. You should look at a picture and begin to think about that and the storms of Maya will fly away. Baba knows that Maya is such that she doesn't allow you to stay in remembrance. There are few who stay in remembrance the whole time. Many talk big. If you stay in remembrance of Baba, your intellect can remain *clear*. There is no other butter like staying in remembrance. When there is a lot of physical burden, your remembrance reduces. Look, the Pope came to Bombay. He was praised so much, as though everyone's God had come. He has power, does he not? The people of Bharat don't even know their own religion. They continue to say that their religion is Hinduism. However, Hinduism is not a religion. No one knows where it came from or when it was established. You should have enthusiasm for knowledge. Shiv Shaktis should jump with enthusiasm for knowledge. Those people have shown the Shaktis riding a lion. All of that refers to knowledge. At the end, when you have become powerful, you will also explain to the sages and holy men. When you have that much knowledge in your intellect, you can then have that enthusiasm. In the city of Chakrata, if a *teacher* teaches farmers, they won't study because they only like to farm. In the same way, if you give this knowledge to the people of today, they say: We don't like it. We want to study the scriptures. However, God says very clearly: No one has attained Me by doing penance, tapasya, making donations, performing charity or even by studying scriptures. They don't know the *drama*. They don't understand that they are *actors* of the drama and that they have taken a costume to play their *part*. This is a forest of thorns. They continue to prick one another, continue to loot and kill one another. Although they look like human beings, their character is like that of monkeys. The Father sits here and explains to you children. If a new person were to hear this, he would become heated. You children do not get heated. The Father says: I only explain to My children. A mother and father can say anything to their children. If a father were to slap his child, no one could do anything. It is a parent's duty to reform the children. However, there isn't that *law* here. Whatever actions others see me perform, they will do the same. So, Baba told you about what he churned. This one is the first *number*, he has to take 84 births, and so how could all the other *heads*, the religious founders, have gone to nirvana? They definitely have to go through the sato, rajo and tamo stages. The first *number* are Lakshmi and Narayan who are the masters of the world. They too have to take 84 births. In the human world, together with the *highest new man*, there also has to be the *new woman*. How could there be creation without *women*? In the golden age, the *new man* and woman are Narayan and Lakshmi. They become *new* from *old*. They are the ones who play an *all-round part*. All the rest also go from sato to tamo, they become *old* and then they become *new* from *old*. Similarly, Christ first came *new*, and then he went away *old*, and then he will again come *new* at his own

time. These matters have to be understood. Very good yoga is needed for this. You also have to be fully *surrendered*; only then can you claim a right to an inheritance. When you are *surrendered*, Baba will be able to give you *directions*: Do this and that. For some who are *surrendered*, Baba tells them to stay with their family, so that they can know about their intellect. Demonstrate by taking knowledge whilst living at home; demonstrate this by *passing*. You mustn't get involved with the household. It is good to remain celibate. Baba asks about each one's accounts. You have taken sustenance from Mama and Baba and so you also have to settle that debt and then you will receive power. Otherwise, the Father would say: I made so much effort and gave you sustenance and you then left Me. Each one's pulse has to be felt, for only then can *directions* be given. For instance, if this one makes a mistake, the Father would free him from that mistake and put it right. This one also continues to follow shrimat at every step. Whenever there is a loss, it is understood that that is in the drama. Then that should not happen again in the future. Any mistakes would make your conscience bite. If you have made any mistakes, then in return for that you have to occupy yourself in *service* a great deal. You have to make a lot of effort. To create someone's life is effort. Baba says: I love the gyani and yogi children the most. If you stay in yoga whilst preparing food and serving it, there can be a lot of progress. This is Shiv Baba's bhandara. So Shiv Baba's children would definitely be yogyukt. Gradually your stage will become elevated. It definitely takes *time*. Everyone's karmic bondages are their own. There is no burden on kumaris. Yes, there is a burden on kumars. When sons have grown up they become a burden to their mother and father. The father explained to you so much, he sustained you so much and so you have to look after them. You have to settle the account so that their heart becomes happy too. Worthy children place everything in front of their father when they return from their travels. You have to settle the debt, do you not? These matters have to be understood. Only those who are to claim a high status will continue to leap like a lion. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Prepare food while staying in yoga. Eat and feed others while staying in yoga.
2. Churn very well the things Baba has explained to you, remain yogyukt and explain them to others.

Blessing: May you be full of all attainments and experience the Lord to be present when you say "Yes, my Lord", according to shrimat.
Those who say, "Yes, my Lord! Yes, my Lord!" in every situation according to shrimat find the Father to be present in front of them. When the Lord is present, nothing is lacking and you will be constantly full. Then the star of fortune of the attainment of the Bestower and the Bestower of Fortune will begin to sparkle on your forehead.

Slogan: When you have a right to God's inheritance there cannot be any dependency.

*** OM SHANTI ***

The confluence age is the age of festivity and Brahmin life is a life of enthusiasm.

Today, the *holiest* and *highest* Father has come to celebrate Holi with His *holy* and *happy* swans. The Trimurti Father has come to tell you about the divine secret of the three types of Holi. The confluence age is anyway the *holy* age. The confluence age is the age of festivity. Every day, every moment, of you elevated souls is a festival filled with enthusiasm. People without knowledge celebrate festivals in order to put enthusiasm into themselves. However, for you elevated souls, this Brahmin life is a life of enthusiasm. It is a life filled with zeal and happiness. This is why the confluence age itself is the age of festivity. A Godly life is a life that is always filled with zeal and enthusiasm. You are passing your elevated life constantly dancing in happiness, drinking the nourishing nectar of knowledge, singing songs of happiness and love from the heart. Souls without knowledge celebrate for one day and they experience temporary enthusiasm and they then become as they were before. You become *holy* whilst celebrating the festivals and you also make others *holy*. Those people simply celebrate, whereas you celebrate and you become. People celebrate three types of Holi. One is the Holi of burning. The second is the Holi of colouring others. The third is the Holi of celebrating an auspicious meeting. These three celebrations of Holi have spiritual meanings but those people continue to celebrate it in a literal, physical way. At this confluence age, when you great souls belong to the Father, that is, when you become *holy*, what do you do first? First of all, you burn all your old sanskars and nature in the fire of yoga. Only after that are you able to be coloured with the colour of the Father's company through remembrance. You too first celebrate the Holi of burning, and you then become coloured with the colour of God's company, that is, you become equal to the Father. The Father is the Ocean of Knowledge, and so the children too become embodiments of knowledge by being coloured with His company. So the Father's virtues become your virtues and the Father's powers become your treasures; they become your *property*. So, the colour of the Company becomes so imperishable that it becomes imperishable for birth after birth. And when you are coloured by the Company, when you have celebrated this Holi of the spiritual colour, then the elevated meeting of the soul with the Supreme Soul, of the Father and the children, constantly continues to take place. People without knowledge then begin to celebrate the memorial of this spiritual Holi of yours. They celebrate the different memorials of your *practical* life filled with enthusiasm and become happy for a temporary period. They remember whatever specialties you attained at every step of your elevated life and they continue to celebrate with pleasure for a short while. You become pleased when you see and hear about this memorial, do you not, of how that is a memorial of your specialties? You burnt Maya and they make a Holika and burn that. They have made up such entertaining stories that when you hear them, you are amused at how they have taken your situations. They celebrate the festival of Holi as a memorial of your different attainments. Now you remain constantly happy. They celebrate Holi with a lot of happiness as a memorial of your attainment of happiness. They forget all sorrow at that time, whereas you have forgotten sorrow for all time. They celebrate the memorial of your attainment of happiness.

Also, at the time of celebrating, young and old all become very light and celebrate Holi in a light-hearted manner. On that day everyone's *mood* also remains very light. So this is a memorial of your becoming *double light*. When you become coloured in the colour of God's company, you become *double light*, do you not? So there is a memorial of this speciality. In addition, young and old, no matter what relationship they have, they all have the nature of being equal. Even if it is a little grandson, he will colour his grandfather. They forget all consciousness of age and relationships. They have the feeling of equality. This is also the memorial of your being especially equal, that is, the stage of brotherhood, not the drishti of any other relationship; it is a memorial of your equal stage of brotherhood. Also, on this day, they fill water pistols with water of various colours and colour one another. This too is a memorial of your service at this time. How much do you colour any soul with the spray of your drishti and make them embodiments of love, embodiments of bliss, happiness, peace and powers? You colour them in such a way that the colour remains permanently. It doesn't have to be washed out. You don't have to make any effort. Instead, every soul

wishes to be constantly coloured with this colour. So, all of you have a spray-bottle of spiritual drishti of spiritual colours, do you not? You play Holi, do you not? This spiritual Holi is a memorial of the lives of all of you. You have celebrated such an auspicious meeting with BapDada that by celebrating the meeting, you become equal to the Father. You celebrated such an auspicious meeting that you became *combined*. No one can separate you.

This day is also the day of forgetting all things of the past. You forget the past 63 births, do you not? You put a full stop to the past. This is why the meaning of Holi is also said to be: Past is past! No matter how strong the enmity between some may be, that is forgotten and it is then considered to be the day of celebrating a meeting. You too forgot the enemy of the soul, the devilish sanskars and devilish nature and celebrated a meeting with God, did you not? Old sanskars should not enter your awareness even in your thoughts. This too is celebrating the memorial of your speciality of forgetting. So, did you hear how many specialities you have? They have made separate memorials of your every virtue, every speciality and every action. So, how great would be the souls whose every action becomes a memorial and whose remembrance makes others happy? Do you understand who you are? You are *holy* anyway, but you are also so special.

Even though you *double* foreigners may not know about the memorials of your greatness, people of the world are remembering the importance of your remembrance and are celebrating that. Do you understand what Holi is? All of you are coloured by the Company anyway. You are coloured with the colour of love to such an extent that you are unable to see anything except the Father. You continue to eat, drink, walk, sing and dance lost in love. You are coloured with a fast colour, are you not? Or is the colour weak? Which colour are you coloured with: fast or non-fast? Have you made the past the past? Things of the past should not be remembered even by mistake. You say: What can I do, I just remembered it? It comes by mistake. A new birth, new things, new sanskars, a new world. Even this world of Brahmins is a new world. The language of Brahmins is also new. The language of the soul is new, is it not? What do they say and what do you say? All the things about God are also new. So, the language is new, the systems and customs are new, connections and relationships are new, everything has become new. Everything old has ended. The new has begun. You sing new songs, not old ones. “What? Why?” are old songs. Aha! Wah! Oho! – these are new songs. So which songs do you sing? You don’t sing songs of distress, do you? There are many in the world to cry out in distress, not you. So you celebrated the eternal Holi, that is, you let the past be the past and became completely pure. You are coloured with the colour of the Father’s company. So you have celebrated Holi, have you not?

The Father and you are always together. And you will always remain together at the confluence age. You cannot become separate. You have such zeal and enthusiasm in your heart, do you not, that there is just you and Baba? Or is there a third person behind the curtains? It isn’t that sometimes a mouse emerges or sometimes a cat emerges, is it? Everything else has finished, has it not? Now that you have found the Father, you have found everything. There is nothing else remaining. No other relationships remain, no other treasures or powers or virtues or knowledge or attainment remain. So what more do you need? This is called celebrating Holi. Do you understand?

You people remain in so much pleasure. You are carefree emperors, emperors without even a shell, emperors of the land that is free from sorrow. No one else can stay in such pleasure. Whether it is the wealthiest person in the world, the most famous person in the world, a great scholar, one who has studied the Vedas, an intense devotee, a foremost scientist or anyone of any *occupation*, he cannot have a life of such pleasure where there is no labour. There is nothing but love. There is no worry. You have pure and positive thoughts and you are a well-wisher. Tour around the whole cycle and see if you can find anyone else with a life of such pleasure. Then, if you do, bring that one here! This is why you sing the song: In Madhuban, in the Father’s world there is nothing but pleasure. When you eat, there is pleasure, when you

sleep, there is pleasure. There is no need to go to sleep with a sleeping pill. Go to sleep with the Father and you won't need to take a pill. It is when you sleep alone that you say that there is *high blood pressure* or pain. It is then that you have to take a pill. Let Baba be with you. Simply say: Baba, I am now going to sleep with You. This is the pill. Such a time will come, like at the beginning, when medicines wouldn't work. You do remember that, do you not? In the beginning, there was no medicine for such a long time. Yes, you would eat a little bit of the cream at the top of the milk or butter. You never used to take medicine. So you were made to *practise* that at the beginning, were you not? Your bodies were old. At the end, those days of the beginning will *repeat*. Everyone will also continue to have unique visions. Many have the desire: Let me have a vision just once! Those who remain strong till the very end will have visions. There will be the same bhakti of a gathering. Then service will end. Now, because of service, you have dispersed here and there. Then, all the rivers will merge with the Ocean. However, the time will be delicate. Even though you will have all facilities, they will not work. This is why the *line* of the intellect has to be so *clear* that it can be *touched* as to what you need to do at that time. If you delay for even a *second*, you will be lost. What would the *result* be if those people delayed pressing the *button* for even a *second*? In the same way here too, if your receiving a *touching* is delayed by even a *second*, it would be difficult for you to reach here. Those people also remain sitting there paying so much *attention*. Similarly here, this is a *touching* of the intellect. In the beginning, many people while sitting at home, heard a sound calling them: "Come, go there! Now come here!" They instantly left and came. In the same way, at the end too, the Father's sound will reach you. Just as all the children were called in a corporeal way, in the same way, he will invoke all the children in the subtle form "Come, come!" That's all! Come and go with Him. This is why, your intellect should always be *clear*. If your *attention* is drawn anywhere else, you will *miss* the Father's call and His invocation of you. All of this has to happen.

You *teachers* are thinking that you will reach here anyway. It is also possible that the Father will give you directions where you are, that there may be a special task there. You may have to give power to others. You may have to take someone with you. This too could happen, but it should be according to the Father's *directions*, not through your own dictates, nor through your attachment. You should not remember: Oh my *centre*! I should take such-and-such a student with me. This one is special, he is a helper! It should not be like that either. If you wait for anyone, you will be left behind. You are ready to such an extent, are you not? This is called being *ever-ready*. Everything should always be packed. You should not have to think about packing at that time I should do this, I should do that. You remember how, in the *sakar* days, the *bags* and *baggage* of the *serviceable* children would always be ready. It would be five *minutes* before the *train* was to arrive and they would receive a *direction*: You have to go now. So their *bags* and *baggage* would remain ready. The *train* that they had to board would have arrived at the previous station and they would leave for their station then. You experienced that, did you not? Here too, the *bags* and *baggage* of the stage of your mind should be ready. The Father calls you and the children become present. This is called being *ever-ready*. Achcha.

To those who are always coloured with the colour of the Company, to those who let the past be the past and make their present and future elevated, to those who constantly celebrate a meeting with God, to those who perform every action whilst staying in remembrance, that is, those who make their every action a memorial, to those who constantly sing and dance in happiness and celebrate in pleasure at the confluence age, to the children who are equal to the Father and who *catch* His every thought, to those who always keep their intellect elevated and clear, to such *holy* and *happy* swans, BapDada's love, remembrance and namaste.

Responding to the letters from all the children, BapDada gave greetings for Holi:

BapDada received all the letters and messages of all the children of this land and abroad filled with love, zeal and enthusiasm and in some cases, their promises for their efforts. BapDada is reminding all you *holy* swans of the special slogan "As is the Father, so am I" which is in your awareness, in the form of a blessing.

Whenever you perform any action or have any thought, first of all *check*: Is this thought the Father's thought? Whatever are the Father's actions are my actions. *Check* in a *second* and then put it into practice. Then you will be a constantly powerful soul equal to the Father and experience success. Success is your birthright. You will experience such easy attainment. I myself am a star of success and so success cannot be separated from me. The beads of the garland of success should always be threaded around your neck, that is, you will continue to experience success in every action. Today, in this gathering of Holi, BapDada is personally seeing all of you *holy* swans and celebrating Holi with you. He is seeing everyone with love and taking the *variety* of fragrances of everyone's speciality. The fragrance of each one's speciality is so sweet. Whilst seeing every soul with his specialty, the Father sings this song: Wah, My easy yogi child! Wah, My multimillion times fortunate child! So all of you should accept love and remembrance personally by your speciality and name and always remain under the canopy of BapDada's protection and not be afraid of Maya. It is a small thing, it is not anything big. Don't make a small thing big. Make the big thing a small thing. If you remain up above, a big thing will become very small. If you remain down below, even small things will appear to be big. This is why you have BapDada's company and His hand. Therefore, don't be afraid. Fly a lot. With the flying stage, go beyond everything in a *second*. The Father's company keeps you constantly *safe*. And it will keep you safe. Achcha. BapDada is giving all of you greetings for Holi by calling each one of you a long-lost-and-now-found, specially beloved child. Achcha. (Then all the children celebrated Holi with BapDada and also had a picnic.)

Blessing: May you be a mahavir and with the powers of knowledge and yoga *pass* through every adverse situation in a *second*.

A mahavir is one who is a constant *light* and *might* house. Knowledge is *light* and yoga is *might*. Those who are full of both these powers are able to overcome every situation in a *second*. If you develop the sanskar of not *passing* on time, then even in the *final* paper, that sanskar will not allow you to *pass fully*. Those who *pass fully* on time are called those who *pass with honours*. Even Dharamraj *honours* such ones.

Slogan: Burn the seed of vices with the power of yoga and you won't be deceived at any time.
