

BapDada speaking to the servers:

To get the opportunity of doing yagya-service is also a great sign of fortune. It doesn't matter if you haven't given lectures or given the course to someone, but you receive marks through service. Through this you pass. Every subject has its marks. Don't think that you are left behind if you haven't given lectures or speeches. Service also carries its marks. BapDada always gives importance to the servers. He keeps them first. The servers can always claim fruit in the future, and the present, through service, because there is happiness in service. Do mothers know how to dance with the mind? O.K. Don't do anything else. Just continue dancing the dance of happiness, and automatically a great deal of service will be done. Achha.

A King is One who has Authority over the Kingdom of the Self

Today BapDada has come especially to meet His double-foreigner children. Double foreigners are those who constantly experience their sweet home: their own land. There is always this awareness of being a resident of the sweet original home and of coming into a foreign land: a foreign kingdom, in order to establish self sovereignty. The soul plays its part with the support of matter, in an incognito form. The kingdom of happiness is the spiritual kingdom for the self. All of you are originally from the original sweet home but have come to play your part in someone else's land. This is the land of matter. Swadesh (your own home) is the place for the souls and now, this land of matter is influenced by Maya, so this is the kingdom of Maya. This is why it has become a foreign land. This same world will become the land of comfort, a server land when you become the conquerors of Maya. By

conquering matter you can establish the kingdom of happiness, which will be a completely pure and Golden Aged world. Do you remember this very clearly? It is just a matter of changing your costume in a second. How long will it take to leave the old costume and take a new one? It is just a matter of changing the costume and an angel becomes a deity. It doesn't take long to change a costume. Though you will come via the sweet home, at the end, you will still have the consciousness of becoming a deity from an angel. Are you aware of your divine form, divine body and divine life of the world of deities? That is the world of satopradhan matter, completely pure matter. Do you remember? Are you able to emerge the sanskars of the divine kingdom that have been enacted so many times? Unless you, the would be deities, emerge your divine sanskars the divine golden world cannot emerge here in practical form. Through your emerged sanskars the divine world will appear on this earth. Are you able to emerge this sanskar naturally or do you still feel it is far away? Your divine deity form is invoking you, the divine souls. Are you able to visualise your divine form, your divine body? When will you adopt that? You're not attached to your old body, are you? When will you adopt that? You're not attached to your old body, are you? You are not wearing an old tight costume? Old costume, old body. If it is still tight, if there are still many bondages, it means it is a tight costume, which you are not able to renounce in a second. To be free from bondage means to wear a loose dress. A loose dress means to be free from all bondages. You don't have any bondages, have you? Are you ever ready? Don't count the years ahead, just think that it is going to happen now.

Baba knows about the time and how much service is to be done. Are you contented with service that you do? Okay, for a moment leave the service of the world and first just see the service of the self. Are you contented with the state of the self? Are you contented within your own free kingdom? Are you able to run your kingdom accurately and skillfully? Are your workers and your ministers

under your control or is there an influence somewhere? Do your ministers and secretary sometimes deceive you? Is your kingdom, your court running alright? Do you check or do your workers sometimes become secret companions of Maya? In the Kingdom of self sovereignty do you, the kings, have accurate ruling and controlling power? Or is it that you order pure elevated thoughts and wasteful weak thoughts begin to come instead? You order the quality of tolerance and weakness of disturbance comes instead? Are all powers and virtues under the control of you, the self sovereigns? These powers and virtues are companions of your kingdom, so are they under your control? When the kings give an order, in a second all the workers come and say, 'Yes sir'; they are obedient'. Do you have such controlling and ruling power? Are you ever ready in this? You won't be deceived by your own weaknesses, defects or bondages, will you? Today BapDada is asking for the news of the self sovereigns, the authorities. Baba is seeing you as kings. Kings are sitting here. You are not subjects. Subjects are those who are under the influence of something and kings have authority, so who are you? All of you are kings. Are you Raja Yogis or Praja Yogis; royal yogis or subject yogis? This is the gathering of the court of kings isn't it? In the Golden Age you will forget this court, you won't even recognise each other or that you were the same ones from the Confluence Age. Now you are the knowers of the three aspects of time, you are able to view everything. So the present royal court is more elevated than the royal court of the Golden Age. Such a royal court takes place only at the Confluence Age. So is your kingdom running all right? Is everything accurate? Is it okay? But you haven't spoken with a loud voice saying 'yes, okay'. BapDada loves His royal gathering.

Okay, check your court every day in case any worker becomes careless. If they become careless, will you leave them alone? haven't you heard the inspiring story about the beginning of the Yagya. If the little children were mischievous then what did you do?

What punishment did you give them? To stop their food or tie them with a rope is an ordinary thing. You used to give them the punishment of sitting in solitude for a few hours because little children find it difficult to sit still. To give them the punishment to sit still for 4-5 hours is a big punishment. This used to be royal punishment for them, here also, if any sense organ causes mischief then immediately make it sit in the furnace of introspection. Don't allow it to become extroverted, to come out. Give this punishment. If it wants to come out, send it back again into introspection. Little children also behave just like this. If you ask little children to sit still and they don't, then you have to make them sit again. In this way the sense organs will form the habit to become introspective from extroverted, just like you help form the habits of little children by asking them to sit and remember. They are not able to sit with crossed legs so if you make them sit with crossed legs they become fidgety and then you have to ask them again to sit with crossed legs. In the same way make your sense organs sit in the furnace of the practice of introspection and tie them with the string of firm determination, firm thought. You don't have to tie with any other rope but tie with the string of firm determination and make them sit in the furnace of the practice of introspection. Punish yourself in this way. If somebody else punishes you, you may react, 'Why has this one said this?' If someone says, 'Your workers are not working properly, punish them'; you may say, 'Why is this person saying this?' However, if you give punishment to your own sense organs, you won't mind. You will be able to reform them forever. Understand? How are your kings? Is your court alright? You are great kings, not ordinary small kings. Achha. Today Brahma Baba was especially seeing double foreigners and having a spiritual conversation, that will be related at another time.

Achha. To the conquerors of Maya; conquerors of matter; heir, royal, authority souls; those who use the treasure of virtue and

power in their work of self sovereignty: those who make all these virtues their companions with great love. Those who are always free from bondages; ever ready souls: love, remembrance and namaste from BapDada to such contented souls.

Australian Group

Aren't you the souls who always keep the balance of constant remembrance and service and receive blessings from BapDada and all other souls. This is the speciality of Brahmin life. to receive blessings and keep the balance. Those who always receive blessings continue to progress with their constant effort. Blessings also work like a lift in Brahmin life. Through this you will be able to experience your flying stage. BapDada has special love for Australian niwasis. Why? The reason is that they always create enthusiasm and encouragement in others. This speciality is loved by Baba because through this they are able to make many souls heirs. So BapDada loves His special children who follow Father. as they have had enthusiasm since the very beginning. The land of Australia has been given this blessing. One becomes instrumental for many specialities but along with that Maya has got more love for them as well. Those who are loved by Baba are also loved by Maya. Many good children. maybe only for a short while, have now become Maya's: they have become attracted by Maya. temporarily. You are not going to be trapped in any circle. in any influence of Maya. BapDada is still remembering many good children who are trapped. What happens? Because of not understanding completely or because of misunderstanding they get confused and they go into why and what. This is why the door for Maya opens. Now you are aware of how Maya comes. So do not go into why and what, don't be confused so that Maya does not get a chance to come. Always keep a double lock. Remembrance and service is the double lock. Don't keep just a single lock. If there is just remembrance and no service then it is a single lock. There should be the balance of both and then it is a double lock. You are

being filmed on BapDada's TV. Then BapDada will show your photo in this. Achha. Anyway, they are good in quantity, courage and in faith as well. Okay. You are loved by Baba, this is why Baba told you a method to be free from Maya.

5th March, 1984

You are master suns of Peace.

The Father, the Ocean of Peace, has come to see His children the incarnations of peace. The most essential thing that is needed in this world is peace, and you children are the children of the Donor of Peace. No matter how hard people may try to experience peace through perishable wealth and temporary means of comfort, they cannot experience true, imperishable peace. In this world today, they may have the means of comfort, they may have wealth, but they are always beggars. They are constantly begging for peace; peace which lasts forever. You children become the embodiments of peace, master bestowers of peace and you bestow peace from your treasure store to them. Quench their thirst, fulfill their desires! Seeing His children peaceless, Baba has mercy on them, He feels pity for them.

They are trying to reach with the power of science. They are inventing so many things. They are able to make the day look like night and night look like to day, but they are not able to achieve peace, or to become stable in the religion of the self. The harder they try to get peace, the more they become peaceless. They do achieve short-lived peace, but the final result is peacelessness. Eternal peace is the Godly birthright for all souls, but they are working so hard in order to claim their birthright. It is a matter of one second to achieve this, but because of their not having complete introduction, they are stumbling around, are crying, and are perplexed. You should now give the vision of brotherhood to such stumbling souls.

to those who are looking for peace. The world will change through the vision of brotherhood.

You souls, the incarnations of peace, do you constantly stay in the state of peace? Do you experience the religion of the self in a second? Are you able to stabilise yourselves in that state of mind? **Have you said goodbye to peacelessness? Or, are you going to do that now?** Those who haven't said goodbye, or celebrated the farewell ceremony here, do you want to say goodbye now? Shall we fix the date? Those who want to do this ceremony, raise their hands, so that peacelessness never comes, even in their dreams. Become peaceful, even in your dreams. You are the Bestowers of Peace, the embodiments of peace. Your religion is peace. What is your task? To bestow peace, to donate peace. Your devotees are still worshipping you, even now, and what are they asking for? They ask for peace. Whom do they worship? You, or the Father? You are the deities of peace, the souls who are great donors and bestowers of peace. Now become the master suns of knowledge and spread the rays of peace. Do you have this intoxication? That, along with the Sun of Knowledge Father, you are also master suns, spreading rays of peace. Are you able to introduce others to their religion of the soul in a second, and stabilise them in the state of peace, making them the embodiments of peace?

You can do this through the attitude of your mind. Which attitude? That these are also my brothers; soul brothers. Let them also claim the inheritance from the Father. With this pure attitude of mind, with these good feelings, you can give the experience to many souls. The reason is that pure good wishes are fruitful. Your elevated good feelings, good wishes, are altruistic. Good wishes are filled with mercy, and benevolence, so such good wishes must bear fruit. It is definite that if the seed is powerful, it must bear fruit. Just water the seed of elevated good wishes with the water of constant remembrance, and then there is obvious powerful fruit. It

must bear fruit. there cannot be any doubt. The question cannot arise as to whether it will bear fruit or not. By using the water of powerful remembrance, that is, with pure good wishes, you will experience immediate world peace. Together with the Father, you children also become instruments for fulfilling the desires of peace for all souls, and all their desires will be fulfilled.

As of now the sound of peacelessness is spreading all around; peacelessness is experienced through the mind, wealth, and through other people. There is the experience of peacelessness from all sides. Though they have the means for full comfort, instead of the experience of peace, there is peacelessness. The souls of the present time are influenced by one or another kind of fear. As they eat, walk around, work, or experience short-lived pleasure, they are filled with fear. They don't know what will happen tomorrow. There is a seat of fear, and even the leaders are seated on this seat of fear, so what must be the condition of the subjects? The greater the leader, the more body-guards he has. Why? Because there is fear. So, when there is the throne of fear, then short-lived happiness cannot be enjoyed either. Can it be peaceful, or full of peacelessness? Baba has made you children the incarnations of peace, in the form of instruments, to give the experience of peace and happiness to such fearful souls.

With the power of silence, without spending anything, you can reach so far. You can go beyond this world. You can easily reach your sweet home. Do you have to work hard for it? You can become the conquerors of Maya and matter with the power of peace. Which power? The power of soul; 'atmic power'. Now there is going to be the meeting of two powers: Atomic power and atmic power (soul power). By using atmic power, through a satopradhan intellect (pure, divine intellect) atomic power will also be used for the world of happiness. Through the meeting of these two powers, the world of happiness will emerge on this earth, because in the kingdom of heaven, in the kingdom of peace, both powers exist. Thus, soul power works through a satopradhan intellect.
