

love is greater. Why should he feel special love for the double foreigners? Brahma Baba says : the foreign children were invoked for a very long time. So many years in advance, children were being invoked. It is because of those signals, that you came to Baba from foreign lands. If someone is invoked over a long period of time, and as a result of all that anticipation a child comes, then there is special love. So Brahma Baba invoked all of you in corporeal form with special love, to make you the heirs. Do you understand? You have been hearing how you were remembered for so many years before you took birth. You were in the spiritual womb when Sakar Baba was here, but you were born later in corporeal form when he had become awayakt and so, Brahma Baba has special love for you, increased even further by his knowledge of your future fortune.

With Dadi Janki : Just as all the double foreigners are happy seeing Baba, so too they are happy to see you because you are the children who are the instruments who show visibly the sustenance you have taken from the Father, in His corporeal form; and because you have become the embodiment of His teachings, you are able to teach others. This is why everyone has special love for you. When souls see Dadi and Didi, the instruments responsible, and when they see their specialities, they say, "We see Shiv Baba in you." This is the special experience that you are able to give of the Father's sustenance. When they see Didi and Dadi, what is it that they see ? It is just as if Baba has taken corporal support and is Himself giving something, this is the experience through that meeting. This is the sustenance given by special souls : the kind in which you yourself disappear and only Baba is visible. This is so because for such instruments, every thought and every word, is always, "Baba. Baba." And so for others also there is only one word that is heard and that is "Baba". Isn't it true ?

Today Didi is being remembered also. She has become the incognito Ganges. They always show one incognito river as part of the merging of three rivers and now Didi is merged in Dadi. In

subtle form she is also sharing her feelings because she is not a soul tied in bondage of karma anymore, but she has gone to play the part of forming a relationship just for service. Souls that are caught in the bondage of karma carry out their actions in one particular place alone, but karmateet souls are able to play the part of service instantly in all directions at once, because they are karmateet. This is why Didi is also with all of you. It isn't difficult for a karmateet soul to play a double part and the speed of such service is also very fast. The soul can go wherever it chooses within a second. Special souls always continue to play their own special part. This is why it seems that she has gone away like the wind, but it was as if the eternal imperishable programme had been fixed. This is also a unique part. From the very beginning Didi played a part of unique trance and so in the end also there was the transfer to a unique form of trance.

Achha! To all the thirsty children from this land and foreign lands, the long lost and now found children of each kalpa; to those who constantly remain lost and merged in Baba's love; to such souls, BapDada's love, remembrance and namaste.

25th December, 1983

The most important days are the days of Confluence Age

TODAY, the greatest Father has come to congratulate the greatest children for an important day. Congratualtions are being given for Christmas to the children who are sweeter than kishmish (raisins).

The most important days are the days of the Confluence Age. The bad days have finished and the days of happiness, the days of maintaining enthusiasm, the festival days, are the days of the Confluence Age. On this important day, the Father of the Kalpa

Tree tells you the story of the Kalpa Tree. It is in these important days of the Confluence that the foundation of the Kalpa Tree, the elevated, sparkling Brahmin souls decorate the entire tree with their sparkle. The lucky stars, the lovely stars, make the whole tree most beautiful. The decorations of the tree are you, the sparkling living stars. In the tree the sparkling angels, who are white and light, also sparkle on the tree. The memorial has been the decoration of the Christmas Tree. It is the memorial of this time, this day.

The most important days of the Confluence Age, the days of enthusiasm, have been remembered as the festival days and the night has been transformed into the day; the darkness is changed into light. The Brahmin family meets together at this important time of the Confluence and eats together with great love, the Brahma bhojan and the food for the soul. So the memorial of all that is that the whole family meets together, eats and drinks and celebrates together. Out of the entire kalpa it is the Confluence Age which is the day, the time, for celebrating with the greatest pleasure and happiness. At the Confluence Age, celebrate and let your heart experience as much happiness as you choose. The intoxication of the nectar of knowledge will let you experience the stage of being lost in love. It is this spiritual intoxication that you experience especially on special days.

The total age of Confluence is Brahma Muhurat (the auspicious time of the beginning) and from the time of nectar, as soon as your eyes open, at a time of your elevated birth, what do you receive? How many gifts do you receive? As soon as your eyes open, you see your old Baba. You are seeing white, white Baba and within the white, you see the red. Who did you see? You saw the Father, the Creator of Peace. How many gifts did He give you? So many gifts that you are sustained with those gifts through many, many births. You will not need to buy anything. The most important gift of all, even more valuable than diamonds is the bracelet of love. He gave you the bracelet of Godly magic, and through this, whatever you

seek, wherever you seek it, you simply have to invoke the thought and you experience the attainment. There is nothing which is unavailable within the treasure store of Brahmins. As soon as you opened your eyes all the children received this gift. Everyone has received this, have they not? Or has anyone missed out? This is the importance of the great day. The memorial of the first Brahmin souls continues even today in the signs of the last religion because you, the elevated Brahmin souls, are the foundation of the entire tree. You are the grandfathers and the great grandfathers of all souls. All the branches belong to you. You, the Brahmins, are the most important of all, the foundation of the tree. This is why souls of every religion continue to celebrate the customs and systems of the Confluence Age in some way or another, in memory of you souls. You are the souls worthy of worship, who have been this since the beginning of time. Even more so than the Supreme Soul, you are the ones who are worshipped in double form and so, having the awareness of yourselves as being most important the most elevated, celebrate the days of happiness.

How few are the days of celebration? Relative to the whole kalpa it is just one day so celebrate it intensely. Dance with happiness. Eat Brahma bhojan and sing songs of happiness. Do you have any other concern? What will the carefree emperors do all day? Just celebrate with pleasure. Let the mind celebrate with happiness.

Achha! Today in particular to all double foreign children in all directions, special greetings and congratulations for celebrating the most important day, the day of pleasure and happiness. BapDada has come to give a gift for this special meeting. Now there are just a few of you, and even so you have to sit at such a distance. When there has been further expansion then it will only be possible to have a glimpse, a vision, and then there will not be a chance for meeting. There will only be a chance to have a glimpse. The vision will have changed into a darshan (just a glimpse). At the end it will only be possible to receive drishti and so, in bhakti this word has

been transformed into darshan (a vision). What is the double intoxication that the double foreigners especially experience? There is a song, "We have crossed the highest walls, the widest oceans and we have come to You." There are the walls of this world and the different lands here and so you have crossed the highest walls of the different lands, the walls of religion, the walls of knowledge, the walls of beliefs, the walls of customs and systems. You have crossed all these and you have come here.

The people of Bharat experience this meeting and the people of Bharat also claim their inheritance but they found Baba within their own land and so they did not have to cross such high walls. They only had to cross the wall of bhakti. But the double foreign children have had to cross high walls of many varieties and this is why there is double intoxication. You have crossed many varieties of curtains created by the world and so, to the children who have crossed all these walls, double love and remembrances. Effort is being made but Baba's love has made you forget the labour.

Achha! To such elevated souls worthy of worship, to the most important children who give everyone light and might, to those who with spiritual intoxication always live in the world of pleasure and happiness, to those who have the awareness of each day as a festival day and celebrate it in that way, to those who received the unlimited Godly gifts, to the sparkling elevated stars that decorate the entire Kalpa tree, BapDada's love, remembrance and namaste.

To London Groups

Do all of you have the awareness of being the long-lost and now found children? How great has been the love and the search with which Baba has found you and made you part of the bouquet. Coming into the bouquet, all of you have become spiritual roses. The eternal spiritual roses are those that give eternal fragrance. Do you experience yourself to be this? Each one has this intoxication. "I am loved by Baba." Each one says, "Baba loves me more than

anyone else." Just as no-one is more loved than Baba, in the same way, children also say, "Baba loves me," and Baba has special love for each one according to each one's speciality. Even though it is numberwise, yet still there is special love for each one. Only Baba and you know the value of the children, no-one else is able to know. Others think that you people are ordinary but you are the ones who are the lucky few out of multi-millions. You are the ones that Baba has made belong to Himself and, as soon as you belong to Baba, there is all attainment. Baba has given each one of you the key to all treasures. Baba has not kept that key with Himself. There are so many keys that everyone has been given this one and this is a key which is a master key so that you can use it for whichever treasure it is you choose, and you are able to claim that treasure. You do not need to labour. London is the place of the Kingdom and so those who live at the place of the Kingdom are the ones who are themselves those who have claimed the self sovereignty. Is there this intoxication? You are the ones who create subjects not those who are the subjects. All of you are moving forward in service because there is benefit experienced. The soul cannot stay without service. If there is less service, there is less attainment and so a soul who has experienced attainment cannot stay without service. Just see, even though you people left this land and went away into foreign lands, Baba came searching for you even in foreign lands to make you belong to Himself. No matter how you ran away, still Baba caught hold of you. Achha!

To Australian Group

All are Mahavirs. "The Mahavirs" means those who bid farewell to Maya for all time. Have you celebrated such a ceremony? BapDada constantly sees Australia as the place for courageous ones. The residents of Australia are the ones who bid farewell to Maya for all time because, when Baba is with you, then, in Baba's presence, Maya cannot come. If you are always with Baba

then Maya has been bid farewell. The ones who say farewell are the ones who remain the constant jewels of contentment. Content with the self and content with service, content in all connections, content in all things. So the jewels of contentment are also the ones who constantly sit on the heart throne. The one who is always seated on the throne is the one who has constant happiness and intoxication. BapDada is seeing the contented jewels, the Mahavirs, the group that has conquered Maya. All of you seem to be such experienced souls. You are also servers. Just as London has a special part within the field of service, so too, Australia has a special part. BapDada constantly sees the residents of Australia as being ever-ready in service, ones who constantly move forward in service, and Baba gives a certificate for this. All of you are still awake (3.30 am.) and there must also be a vigil taking place for all of you somewhere or another. Your bhagats stay awake for you and so, if you stay awake, what is so great about that? Everything begins with Sangam. Whatever it is you do with gyan they do with bhakti but even the foundation of bhakti is laid at the Confluence. For them it is the feeling and here it is gyan. All of you are going on service. You are returning home. "To go" means to give the proof of service and bring those souls here. Don't return empty handed. A bouquet should be presented to Baba. Bring the bouquet or, at least a flower button. The question should be added to the form, "How many were prepared within this one year?" and, if someone returns empty handed, then they shouldn't be given the certificate for next time. Prepare at least one within a year and bring them here with yourself. Achha!

Om Shanti

27th December, 1983

There is great difference between the Beggar souls and the Heir souls.

TODAY, the World Creator Father has reached the spiritual congregation of His children at His meeting place, after taking a round of the whole world. What must He have seen on taking a round of the world? He saw that all souls, the children of the Bestower were in the form of beggars. He noticed that all were begging because they lacked something or another. Some were royal beggars and some were ordinary beggars. He could hear the words—give this, give that, either from their mouths or their minds. Some were begging for wealth, others were begging for health and still others were begging for one or the other relationship and still others were begging for limited happiness. Some were even begging for sleep. some were begging for liberation, some begging for a vision and some were even begging for death. Some were begging for more followers. In this way they were begging in different forms either from Father or from great souls or from Deity souls or even from human souls. They were saying give this, give that. After seeing the world full of beggars BapDada reached the congregation of those who are heirs to self rule.

There is such a great contrast between the heir souls and the beggar souls. the beggars have turned into the children of the Creator, that is they have become the Masters or the Heirs. The heir souls do not beg, give this, give that, even in their thoughts. The language of the heirs is "All this is our right" and the language of the beggars is "Give it."

Haven't you become such heir souls? The Bestower Father has given the rights to all the imperishable achievements Himself, without your asking. The only thing you did was to have the determined thought—My Baba, and in return for that one word that you spoke, the Father said that the world of all treasures is
