

**Essence:** Sweet children, only this one Baba tells you the truth. Therefore, only listen to Baba not to human beings. A soul who only listens to this one Baba becomes enlightened.

**Question:** What are the main signs of the souls who belong to your deity clan?

**Answer:** They find this knowledge very beautiful and sweet. They renounce the dictates of human beings and follow the instructions of God. Their intellect understands that it is only by following *shrimat* that they can become elevated; that it is now the auspicious confluence age in which they can become the most elevated human beings.

Om shanti. Sweetest spiritual children, be soul conscious! Shed the consciousness of the body and consider yourself to be a soul. You know that there is only one God. Brahma cannot be God. You understand the story of Brahma's eighty-four births. This is his final birth. I only enter this one who has taken the complete eighty-four births. I tell him: You do not know of your eighty-four births. I tell you about them. At first you were a deity and you now have to make effort to become that again. Rebirth begins from your first birth. Baba says: What I tell you now is *right*, whereas everything you heard previously was *wrong*. I am called the *Truth*. I am the One who speaks the truth, the One who creates the religion of truth. It is said that one who knows the truth keeps dancing. You dance in happiness with the truth. This dance is of knowledge but scriptures tell of Krishna playing the flute and dancing etc. He is the master of the land of truth. Who created him? Who created the land of truth? That was the land of truth and this is the land of falsehood. When Bharat was the kingdom of Lakshmi and Narayan it was the land of truth. No other land existed at that time. People don't know where heaven is. When someone dies, they say that he has gone to reside in heaven. Baba explains: You are dangling upside-down. You have been put in bondage to Maya. Baba now turns you the right way up. You know that God is the One who gives the devotees the fruit of their devotion. At this time, they are all busy in their devotion. All the scriptures etc., belong to the path of devotion. To sing devotional songs etc. is all part of the path of bhakti. There are no devotional songs on this path of gyan. You understand that you now have to go beyond sound; you have to return home. Baba says: Hey, sweet children you don't even need to say "Oh God!" out loud. That too belongs to the path of bhakti. The path of bhakti lasts until the end of the iron age. This is now the auspicious confluence age when Baba comes and gives you this knowledge to make you into elevated human beings. Therefore, follow God's directions alone. All that God says is *right*. Baba Himself enters a human body and tells you how sensible you used to be and how senseless you have now become! You were in the *golden age* and you have now ended up in the *iron age*. Those who belong here will appreciate this knowledge very much. Those who belong here will find this knowledge very sweet. This one used to study the Gita. When he found Baba he renounced everything. He had adopted many gurus. Baba said: All those gurus belong to the path of devotion. Only I and I alone am the Guru of the path of knowledge. When a soul listens to knowledge from Me, he can be called enlightened. All the rest are devotees. *Shrimat* is the most elevated instruction. All others instruction comes from humans. These instructions come from God. Those are the instructions of Ravan whereas these are the instructions of God. God speaks: You are greatly fortunate, your birth now is as valuable as a diamond. When a ring of nine jewels is made, the diamond is set in the middle. At the beginning of a rosary there is a flower (the tassel) and then there is a dual-bead. There are also the names of Adam and Eve but you say: "Mama and Baba." Adi Dev and Adi Devi exist at the confluence age. The confluence age is the most elevated age; it is the time when your kingdom is created. Children, you have come here to become sixteen celestial degrees complete. Baba comes to change the old world and make it new. No one except you children knows the *duration* of this world drama. They speak of hundreds of thousands of years. All the things that they say are false. It has been said that Maya is false and this body is also false. Truth only exists in the new world. This is the land of falsehood. It is Baba's task alone to change the land of falsehood into the land of truth. Baba says: Forget everything you have studied on the path of devotion - this is your unlimited disinterest of the whole world, whereas they simply renounce their home and business and go into the forests. This too is fixed in the *drama*. The question of why they leave their home does not arise. It is predestined in the part they play. Children, Baba explains that these things happen. Those of other religions cannot come to heaven. The *dynasty* of Buddha and the

dynasty of Christ do not go to heaven. Their *dynasties* start later on. First of all there is the *deity dynasty*, then Abraham, Buddha and Christ come and establish their religions. Baba comes at the most auspicious confluence age and establishes the *deity dynasty*. Each soul first has to enter a womb and become a baby, and then grow older. Shiv Baba neither grows old from a baby nor does He take birth through a womb. The Buddha soul doesn't enter a womb. The Buddhist religion didn't exist initially. He must have entered the body of a soul from here. It would have definitely been afterwards that he entered a womb. Only one soul established the Buddhist religion, then the others followed him as that religion started to grow. Then, when they numbered hundreds of thousands, their kingdom began. There used to be the kingdom of Buddhists. Baba explains: They all come later on. They shouldn't be called gurus. There is only the one Guru. They come and establish their own religion and then descend the ladder. Baba takes everyone up. Then each one comes down from the land of liberation. You come down from a life of liberation, and they come down from the land of liberation and so why should they be praised? Knowledge has all disappeared by that time. Baba gives you the knowledge to attain liberation and salvation. Baba doesn't enter a womb, He comes and sits in this one. He doesn't have another name. Others souls have a name for the body. This one is the Supreme Soul. He is the Ocean of Knowledge. This knowledge is first received by the souls of the original eternal deity religion because they have to receive the fruit of their devotion. You are the ones who begin the path of devotion, so I give you the fruit first. All others play a part in the *by-plots*. They do not take eighty-four births. Baba says: Children, now become soul conscious! There, they understand that when they shed one body, they take another. There is no question of experiencing pain or sorrow. There is no question of vice there. The vices exist in the kingdom of Ravan, whereas that is the viceless world. Even when you explain this to people, they don't accept it. Those who do accept it claim a status as they did in the previous cycle. Those who do not accept it do not claim a status. In the golden age there is purity, peace and happiness. All desires are fulfilled for 21 births. There are no desires in the golden age. There is an abundance of grains etc. Bombay didn't exist before. Deities do not live by salty water. Deities resided on land close to sweet waters. There were very few people. Each person has a huge amount of land. It has been said that Sudama gave two handfuls of rice and received a palace in return. People make donations and do charity in the name of God. Is God a beggar? God is the Bestower! They think that God will give them a great deal in return in their next birth. You give two handfuls and receive a great deal in the new world. You spend money and open *centres* etc. so that everyone can receive these teachings. You use your wealth now, and then you receive your kingdom. Baba says: I only give My own introduction. No one else has My introduction. Nor do I enter any other body. I only come once when it is the time for Me to transform the impure world. I am the Purifier. I come at My *accurate* time to play My *part* at the confluence age. No one knows the exact time when Shiv Baba entered this one. The day, hour and *minute* of the birth of Krishna are recorded but no one can calculate the *minute* of this One's birth. This Brahma also didn't know. It was only when He starting to give knowledge that he found out. There was a magnetic pull. This one has rust on the soul. You children experienced being pulled when the Supreme Father, the Supreme Soul, entered me and you ran here. You didn't worry about anything. Baba says: I am completely pure. You souls have become rusty. How can that now be removed? Each soul has his own role to play in the *drama*. This is a very deep matter. The soul is so tiny! It can only be seen with divine vision. Baba comes and gives you the third eye of knowledge. You understand that Baba teaches you souls only. The knowledge of the path of devotion is like a pinch of salt in a sackful of flour. For instance, when they say, "God speaks" that's *right*, but when they say that Krishna is God, that's *wrong*! The word "Manmanabhav" is right but they don't understand the real meaning of it. The words "Remember Me alone" are *right*. This is now the age of the Gita. God only comes at this time and enters this chariot but they have shown Krishna sitting in a horse-drawn chariot. There is such a contrast between this chariot of God and a horse-drawn chariot! They don't understand anything. This body is the home of the unlimited Father. Children, Baba gives all you souls *health, wealth and happiness* for twenty-one births. It is predestined in this original, eternal *drama*. You cannot say when this drama begins. The cycle constantly continues to turn. No one else knows about this confluence age. Baba tells you that this is a *drama* of five thousand years. For hal

the cycle there is the sun and moon dynasties and then for the other half, that is, for two thousand five hundred years there are the other religions. You know that the golden age is a *viceless world*. You receive the kingdom of the world through your power of yoga. The Christian people themselves believe that someone is inspiring them to invent those things for destruction. They say that so many *bombs* have been manufactured that the world can be destroyed ten times over! Baba says: I have come to create *heaven*. It is they who will bring about destruction. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

### Essence for dharna:

1. Have unlimited disinterest in the world and forget everything you heard and studied whilst on the path of devotion. Listen to the one Father and make yourself elevated by following His shrimat.
2. Baba is rustless and completely pure. Remove your rust and become pure just like Him. The *part* every actor plays in the *drama* is *accurate*. Make progress by understanding the deep significance of this.

### Avyakt BapDada personally meeting a group of Kumaris:

Do you constantly remain aware of all your attainments in this Brahmin life of yours? If you made a list of all your attainments, how long would it be? In essence, you would say that you lack no attainment in this Brahmin life. Is this what you experience? Have you attained everything you wanted to attain for all time? Do you kumaris remain intoxicated? Do you constantly remain intoxicated, or is it only sometimes? Does your mood sometimes go off? You no longer cry out loud but do you do so silently? How long has it been since you last cried? Have you not cried since you became a Brahma Kumari? Do you no longer cry now? Do you not still cry in your mind? Because of being delicate, Kumaris find it easy to cry. Are you those in the flying stage or the climbing stage in your efforts? Are all of you in the flying stage? It is good. You are not those who sometimes go up and sometimes come down are you? You must constantly remain flying because time is short and the destination is high. Unless you remain in the flying stage it will be difficult to reach your destination. Therefore, constantly remain flying. The way to remain flying is to remain constantly aware of your attainments. Keep your list of attainments emerged not merged. Don't just say that you know, but make them emerge and realise what you have received! What you used to be and what you have become! What you were yesterday and what you are today! By remaining happy with realisations of all your attainments you will never come down from your stage of happiness. Put aside coming down, you must never even fluctuate but must remain stable. Something that is completely full never shakes. Something that is empty will shake. Anything that is unsteady has to be made completely full on all four sides. When it is filled equally all around it won't shake. If even a corner is empty, it would shake. If it is allowed to shake, it may break. Similarly, by becoming completely full you can remain steady and free from shaking. Therefore, are you completely filled with all attainments? Do you have the intoxication that you are the children of the Bestower? You are not the children of an ordinary father. So, is it not right that those who are children of the Bestower should be master bestowers? Are you souls completely full of all attainments? No attainment is even slightly lacking. Is there anything you haven't attained? Is there something you still want? Do you want name? Do you want some kind of service? Do you want a little chance to do something? Do you want praise? Do you want to be kept in front? There is no kind of this attainment lacking is there? If anyone of you have this, then tell Me. Do you think you should be given a nice house? Should you be given a car? Do you think that if you have a car you can do service very well? However many facilities you have, your intellect will accordingly be pulled. Wherever you are, always remain happy and content with the things you have. It is those who stay content with the little they have

who experience all attainments. Contentment is your greatest treasure. Those who have contentment have everything. If those who have everything are not content, then even though they have everything, they have nothing. Discontented souls are always influenced by their desires. Once one desire is fulfilled ten more desires will emerge. This is why you must become innocent of even the knowledge of limited desires. Constantly sing this song "I have attained everything that I wanted to attain". Achcha, all of you are jewels of contentment are you not?

**Blessing:** May you be greatly fortunate and remain constantly happy knowing the horoscope of your Brahmin life. Brahmin life is a new life. At the beginning of the cycle you are deities. At the end of the cycle you become Brahma Kumars and Kumaris. The three aspects of time in the horoscope of Brahmins are all good. Whatever happened was good, whatever is happening is better and whatever is to happen will be the best of all. The horoscope of Brahmin life is *guaranteed* to always be the best of all. Remain constantly happy by understanding that the Bestower of Fortune Himself has drawn your elevated line of fortune and made you belong to Him.

**Slogan:** Someone whose beloved is God is constantly singing deep in the heart the unlimited song of "I belong to Baba and Baba belongs to me".
