

**Essence:** Sweet children, this is now the most beneficial, auspicious confluence age. It is during this period of time that the old world is transformed and made new. You must not forget that this is the confluence age.

**Question:** Children, what instructions does Baba give you with love in order to make all of you - young and old - similar to Himself?

**Answer:** Sweet children, you must now no longer make mistakes. You have come here to change from an ordinary human into Narayan. Therefore, imbibe the divine virtues. Don't make anyone unhappy. When you make a mistake you make others unhappy. Children, Baba never makes you unhappy. He gives you children the *direction*: Children, remember Me alone! Become a yogi and your sins will be destroyed and you will become very sweet.

Om shanti. Children, when you consider yourselves to be souls and have yoga with the Supreme Father, the Supreme Soul, you are called yogis. Such souls are true yogis. Baba is the *Truth*, so your intellect has yoga with the *Truth*. All that He speaks is the truth. You are yogis and they are bhogis who indulge in sensual pleasure. There are various types of bhogis, and there are also many types of yogis. Your yoga is only of one type. Their renunciation is different from your renunciation. You are the yogis of the most auspicious confluence age. No one knows about this yoga or can tell whether someone is a pure yogi or an impure bhogi. Children do not know this either. Baba refers to everyone as children because Baba knows that He is the Father of an unlimited number of souls. You souls also understand that you are brothers of one another and that that One is your Father. You become pure by having yoga with Baba. They are bhogis, and you are yogis. Baba introduces Himself to you. You also understand that this is the most auspicious confluence age. No one, except you, knows this. This is called the most auspicious confluence age. You must not forget the word "auspicious". This is the age to become the most elevated humans. Lakshmi and Narayan are elevated and pure and it is those elevated and pure humans who are called the most elevated. You now know what time this is. After five thousand years, when this world becomes old, Baba comes to make it new again. You now belong to the confluence-aged Brahmin clan. Brahma is said to be the highest of all, but, Brahma is a corporeal being, whereas Shiv Baba is Incorporeal. Children, you have been told that this is the meeting between the Incorporeal One and you corporeal beings. You call Him Baba; His role is so *wonderful*! This one is also praised and temples are built to him as well. People decorate the chariot in different ways. Baba has told you that He enters the body of this one at the time of the final birth of his many births. Baba explains everything very *clearly*. Children, first of all, say: God speaks. After that, say that I only explain all the secrets of the cycle to you children at the time of the last of your many births. No one else would understand this. Children you too also forget sometimes. If you use the word "auspicious" people can understand how only this auspicious age can be the beneficial age. If you remember the age you can understand that you are changing in order to go to the new world. Only deities exist in the new world. You have been told about the ages. Baba says: Sweet children, never forget that this is the confluence age. When you forget this, you forget all the knowledge. Children you do understand that you are now changing; that the old world is now going to change and become new. Children, Baba has come to change the world as well as you. He calls everyone "Child, child". All the souls of the entire world are His children. Everyone has a *part* to play in this *drama*. You also have to prove how each religious founder establishes his own religion in this cycle. No one, but Baba, can establish the deity religion. This religion is not established by Brahma. In the new world there is the deity religion, and in the old world there are only human beings. Deities are in the new world. The deities are pure. No kingdom of Ravan exists there. Baba enables you children to conquer Ravan. As soon as you have conquered Ravan, your kingdom of Rama begins. The new world is the kingdom of Rama and the old world is called the kingdom of Ravan. Children, no one, but you, knows how the kingdom of Rama is created. Baba the Creator, sits here and explains to you children the significance of His creation. Baba is the Creator, the Seed. He is also called the Father of the Tree. Those trees are physical, so it cannot be said for that seed. You understand that the whole tree is latent within the Seed. All the people of the world are in this huge tree. Those seeds are not conscious, whereas this One is conscious. He is the Truth, the Conscious Being and the Embodiment of Bliss, He is the Seed of the Human World Tree. This is a huge tree. This huge tree represents the entire

world. A small *model* is made but the human world tree is the largest of all. Baba, the Highest on High, is *knowledgeful*. Many others can give you *knowledge* of those trees, but only this one Baba can give you the *knowledge* of this tree. Baba has changed your intellect from limited to unlimited. You have understood that this tree is unlimited and occupies a great deal of space. Children, Baba takes you into the unlimited. The whole world is now impure. Everyone in this world is violent; they all use violence on one another. Children, you now know that only the deity religion of the golden age is non-violent. The golden age is called a *viceless world*. You gain the world through the power of yoga that age can be the kingdom of Rama. To begin with, the new tree is very small. The trunk represents one religion. Then three branches emerge from that foundation. The foundation is the deity religion. Sub branches and twigs grow from the big branches. The trunk of this tree no longer exists. There is no other tree like this one. It can be compared to a banyan tree. The whole banyan tree is standing without a trunk. The trunk no longer exists but yet the tree doesn't dry up. Similarly, the foundation, the trunk of the deity religion no longer exists, and yet the whole tree is still green. The trunk represents the kingdom of Rama, the deity religion. Baba says: I establish three religions. Only you Brahmins of the confluence age understand these things. The clan of you Brahmins is vast. Small paths and cults are still emerging, such as the Aurobindo Ashram; that has grown very quickly because no one there is told not to indulge in vice. Here, Baba says: Lust is the greatest enemy. You have to conquer this. However, does anyone else say this? Otherwise, chaos would be created there as well. Here, it is a matter of human beings changing from impure to pure. This is what people do not like to hear. They ask: How can children be born without vice? Those poor people can't be blamed. Those who study the Gita tell you that the versions of God say that lust is the greatest enemy. By gaining victory over lust you can gain the world. However, they don't understand what this means. When they quote these words, you should explain what it means. Baba has told you that just as Hanuman used to sit near the shoes, so you should go and sit just outside and listen. When they speak these words, ask them what the real meaning is of that. Then, tell them that the deities gained the world. You can also tell them that they renounced vice in order to become deities. Only you know that the kingdom of Rama is now being created. You are brave warriors and have nothing to be afraid of. Just ask them, with a lot of love, what the meaning is. These deities were the conquerors of the world; they were the masters of the world. Say, "Swamiji, you said that by conquering this, one can become the master of the world, but you didn't say how one can become pure". You children are the mahavirs who stay pure. It is you mahavirs who become threaded in the rosary of victory. However, all the things that those people speak are wrong. People are used to hearing those wrong things. You no longer like listening to those wrong things. Your ears prefer hearing right things. Hear no evil! You definitely have to awaken human beings and tell them that God says: Become pure! In satyug, they are all pure deities. Now, in this age, all are impure devils. Explain to them in this way. Tell them that in our satsang we explain that lust is the greatest enemy. If you want to become pure, you can do so by using this method. Make your vision firm of seeing souls as brothers. There is a story that Ravan could not shake Mahavir, but no one understands the meaning of it. People study the Ramayana a great deal. There are so many things of defamation in that, such as that the Sita of Rama was abducted and that Krishna chased after women to make them his queens. These things are defamatory. This is why Baba says: I come whenever there is defamation of religion. Bharat used to be a very prosperous land. Now that it is barren and is called Hindusthan. Previously, Bharat overflowed with wealth, purity, happiness, peace and everything else. Now, it overflows with sorrow. This is why they pray to the Remover of Sorrow and Bestower of Happiness. You study with Baba with so much happiness. Who could there be who would not want to be given an unlimited inheritance of happiness from the unlimited Father? First of all, understand Alpha. If you do not understand who Alpha is, none of the other secrets can enter your intellect. You can make progress when you have faith instilled that the unlimited Father is giving you your unlimited inheritance. Children, you don't need to ask Baba any questions. Baba is the Purifier, so all you have to do is to remember Him. Only by having remembrance will you become pure. This is why you prayed to Me. Liberation-in-life only takes a second but the pilgrimage of remembrance does take time. Obstacles are mostly caused in the pilgrimage of remembrance. You have been body conscious for half a kalpa. In this one birth you must make the effort to be soul conscious. It is very easy for this Brahma. You

also call us BapDada because you understand that Baba is sitting in me. I praise Him a great deal. I love Him a great deal. Baba, You are so sweet! You come kalpa after kalpa and teach me so much. Then, we don't even remember You for half a kalpa! However, I do remember You a great deal now. Yesterday, I had no knowledge. I didn't know that I was going to become the one whom I had been worshipping. Now I am amazed! By becoming yogis, you will become deities. All of you also are My children. I look after you with a lot of love. I sustain you. This one and you too change from an ordinary human into Narayan. This is why you have come here. I explain so much to you. Children, remember Baba and imbibe the divine virtues. Be cautious about what you eat and drink. If you are not cautious about this and think that there is still some time left, you will make one or another mistake. I tell all the young and the old children with love: Children, don't make mistakes. Don't make anyone unhappy. If you make a mistake, you cause sorrow. Baba never makes anyone unhappy. He just orders you to remember Him alone so that your sins will be destroyed and you will become very sweet. You have to become very sweet and imbibe divine virtues. You must become pure. Impure ones are not allowed to come here. Sometimes, they are allowed to come, but just for a while. When we have grown a lot more, they will be told that this is the tower of purity, the tower of peace, the highest-of all places. To consider yourself a soul and remember Baba is the highest power. There is a great deal of peace. For half a kalpa there is no quarrelling, etc. Here, there is so much quarrelling, that there cannot be peace. The supreme region is the abode of peace. Then you come and adopt a body to play your part. There is peace at that time. The original religion of the soul is peace. Ravana causes peacelessness. You are given instructions to become peaceful. When someone is becoming angry, he makes everyone else peaceless. All of your rubbish is removed through this. Your rubbish is not removed by knowledge. All your rubbish is incinerated, and by having remembrance your rust is removed. Baba says: Yesterday, I taught you; have you forgotten this? It is a question of five thousand years. They speak of hundreds of thousands of years. You now understand the contrast between falsehood and truth. Only Baba comes and tells you the difference between falsehood and truth, the difference between bhakti and gyan, the difference between the state of corruption and the state of elevation. Impure ones are born through vice. There, there is no vice. You say that they are completely viceless, that there is no kingdom of Ravan there. This is very easy to understand. So then, what should you do? Firstly, remember Baba and then you will definitely become pure. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

### Essence for dharna

1. In order to become pure, become brave warriors (mahavirs). Remove all the rubbish that is inside you with the pilgrimage of remembrance. Stabilise in your original religion of the self. Don't spread peacelessness.
2. Only listen to the right things that Baba tells you. Hear no evil! Don't listen to wrong things. Caution everyone. Become elevated during this auspicious age and inspire others to become the same.

**Blessing:** May you be a jewel of contentment and use all treasures of your Brahmin life in a worthwhile way to become full of attainments.

The greatest treasure of Brahmin life is contentment. When you have attained everything, you remain content. When you are content, you are satisfied with everything you have. You jewels of contentment are embodiments of all attainment. The song you sing is "I have attained whatever I wanted". The method to become completely full of all attainments is to use the treasures you have received because the more you use them in a worthwhile way, the more they will increase.
