Morning Murli

Om Shanti

BapDada

Madhuban

Essence: Sweet children, Baba's task is to destroy the forest of thorns and create the garden of flowers. The number one family planning takes place through this.

Question: Which is the first-class scripture to bring about family planning, and in what way?

Answer: The Gita is the first-class scripture to bring about family planning, because it is through the Gita that Baba destroys irreligiousness and creates one religion. The great version spoken by God in the Gita is: Lust is the greatest enemy. By conquering lust, your greatest enemy, family planning takes place automatically. This is only the task of Baba, not of any human being.

Om shanti. God Shiva speaks. Baba sits here and explains to you spiritual children that this world is definitely a devilish world. The new world is called the divine world. Very few human beings live in the divine world. You have to tell people the significance of this. You should explain to the Family Planning Minister that, according to the words mentioned in the Gita, only Baba has the duty of family planning. Everyone believes in the Gita. The Gita is the scripture for family planning. Baba creates the new world through the Gita. This part is automatically fixed for Baba to play in the drama. Only Baba comes and creates the original eternal deity religion. Only He creates a pure nationality. You say that you belong to the deity religion. In the Gita God clearly says: I come to create one religion and to destroy all the present innumerable religions. So through this destruction, the number one family planning takes place. There will be cries of victory throughout the whole world and then the one original eternal deity religion will be created. Because there are too many human beings now, there is a great deal of rubbish. There, the animals and birds etc. will be so first-class that the heart will become happy on seeing them. There will be no question of fear. Baba sits here and explains: You called out for Me to come and create family planning, that is, to come and take back home the impure families and create the pure families. All of you used to tell Baba: Come and destroy the old world and create the new world. This is Baba's planning. Your heart becomes happy on seeing this. Your heart becomes happy on seeing Lakshmi and Narayan. There, the king, the queen and the subjects, all are first-class. This yukti of bringing about family planning is fixed in the drama. Children, you have to explain that the parlokik Father (Father from beyond) creates first-class planning for the golden age. He totally destroys the forest of thorns and sets ablaze the whole of this haystack. This is only Baba's business. You cannot do anything on your own. No matter how much effort you make to do this, none of you can be successful. Baba says: This vice of lust that you consider to be your friend is in fact your greatest enemy. Many of you become its friend. Baba issues an ordinance: Conquer vice! Explain to others that Baba says: lust is the greatest enemy. Poor people do not understand how this family planning takes place. According to the drama, Baba does this kalpa after kalpa and this will definitely happen once again. There are very few human beings in the golden age. There is nothing to worry about this. Those people are trying so hard to bring about family planning, Baba is accomplishing this task in a practical way. Explain to the Education Minister also how the character of people now is very bad and how the character of the deities was very good. You must be absolutely fearless when you speak this knowledge. Tell them: This is not actually the work of a minister. This is only the task of the Highest-on-high Father. During the rule of the deities there was only one religion, one kingdom and one language. There were very few human beings there.

However, very few of you know how to speak this accurately in a clever way. You do not have that spiritual intoxication. Show them this picture of Lakshmi and Narayan and explain how Baba carried out this family planning and how He is doing this once again. Their kingdom is now being created. Baba has told you to always keep the picture of Lakshmi and Narayan at the front and let it be well lit. When you go on your morning march, keep this trance-light with you so that everyone can see it very clearly. Tell them: the planning we are carrying out is where the king, the queen and the subjects are all the same. The deity dynasty is now being created. All other dynasties are to be destroyed. You say: Oh Purifier! Come and purify us! Only Baba can do this. The deity religion is the only pure religion. All other religions are to be destroyed. Tell them that this planning is only in the hands of Shiv Baba. This planning only takes place in the golden age. There, there is the deity clan, there are no shudras. This is very first-class planning. All other religions are going to be destroyed. Come and understand Baba's family planning. Many will sacrifice themselves when they hear you speak on this aspect. How can these ministers etc. create viceless planning? Baba, the One who is the Highest-on-high has come in order to create planning and destroy all the numerous religions. Everything is in the hands of the unlimited Father. He changes everything old and makes it new. Baba creates the new world and destroys the old one. This is fixed in the drama. You should say: Brothers and sisters, you do not know the beginning, the middle or the end of this world. Baba can tell you this. At the beginning of the golden age, there are neither so many human beings nor do they speak of family planning. First of all come and understand the beginning, the middle and the end of the world. Baba is the only One who can grant salvation. Salvation means the time of the human beings of satyug. To begin with there were very few of those deities. It was the first-class religion. Baba creates the first-class planning of flowers. Lust is the greatest enemy. Nowadays, people sacrifice their whole lives to lust. If a couple fall in love but their parents won't allow them to marry, the house becomes chaotic. This world is so dirty!. They all keep pricking one another like thorns. In the golden age they shower one another with flowers. Churn the ocean of knowledge in this way. Baba continues to signal you on how you should refine everything. A variety of pictures has to be created. According to the drama, whatever happens is accurate. It is very easy to explain this knowledge to anyone. Draw everyone's attention to the Father and how this is only Baba's task. Baba couldn't carry out this task whilst sitting up there. It is also said: Whenever there is defamation of religion and the kingdom becomes devilish, it is then that I come and destroy everything and create the one deity religion. The devilish community is sleeping in the sleep of ignorance. All of this is to be destroyed. The families who now become viceless will come and rule. It has also been remembered that creation took place through Brahma; but creation of what? The creation of this family. This planning is now taking place. The Brahma Kumars and Kumaris become pure. Therefore, a pure new world is definitely needed for them. The present auspicious confluence age is very short. Very good planning takes place in 60 to 70 years. Baba first inspires all of you to settle your karmic accounts and then He takes you back to His home. He will not take any of this rubbish there. Dirty souls cannot go back there. This is why Baba comes, makes you beautiful and then takes you back home with Him. You should churn the ocean of knowledge about these things and continue to realise everything. Baba says: I make you have rehearsals in order to establish the one religion. Who carried out this family planning? Baba says: I am carrying out My task as I did in the previous kalpa. They call out: Change the impure family and make it pure. At this time, everything is impure. They spend hundreds

of thousands on wedding ceremonies. They celebrate with so much splendour. In fact, from being pure they become impure. You children must now carry out God's business and explain to everyone. All are sleeping in the devilish sleep. They have to be woken up. By becoming beautiful and inspiring others to become beautiful, you will draw Baba's love. What would you receive if you don't do service? If someone becomes an emperor it must be because he performed good actions. Anyone can understand who the king and queen are and who the maids and servants are. They must have performed good actions in their previous birth. By performing bad actions souls receive a bad birth. The philosophy of karma continues. Baba is now teaching you to perform good actions. On the path of devotion, they too understand that they have taken their present birth because of the good actions they performed in their previous birth. However, they don't know what actions they performed. Karma is praised. The better the karma, the higher the status they claim. Souls become elevated by performing elevated actions. If a soul doesn't perform good actions, he has to sweep the floor, he has to carry a burden. That is known as the fruit of action. The theory of karma carries on. You perform good actions on the basis of shrimat. There is such a vast difference between the maids and servants and the kings and queens. Baba says: Now follow the Father! If you follow My shrimat you claim a high status. Baba also gives you visions. This Mama, Baba and the children become very elevated. This is also according to how they now act. Many children do not understand the depth of karma. At the end, everyone will have visions of what they have done. If you study well you become the rulers. Otherwise you become ruined and cry. This happens in that study as well. God speaks: At this time, the whole world is burning to death on the pyre of lust. Some say that when they see their wife, their stage is spoiled. Your stage will not spoil there in that way. Baba says: Do not see the name and form. Just see everyone as a brother. The destination is high. You have to become the masters of the world. It isn't in anyone's intellect how Lakshmi and Narayan became the masters of the world. Baba says: I am making you into the masters of heaven. Lakshmi and Narayan were completely full of all the divine virtues. Nowadays, those whom you consider to be the new blood do all sorts of things. Is this what Gandhiji taught? There has to be a clever way to create the kingdom of Rama. This is only the Father's task. Baba is ever-pure. You remain pure for twenty-one births and then become impure for sixty-three births. You must remain intoxicated whilst explaining to others. Children, Baba keeps telling you: Become pure! Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for Dharna:

1. In order to make your stage unshakeable and immovable, don't see anyone's name or form. See everyone as your brother. Purify your vision. Have intoxication whilst explaining.
2. In order to receive Baba's love, do business like Baba. Awaken those who are sleeping in the devilish sleep. Become beautiful and inspire others to become the same.

Avyakt BapDada meeting a group personally:

The aim of all of you is to become like the Father is it not? Are you yet to become like the Father, or have you become that already? Say with intoxication: We became this, we are

this and we will become this. The slogan of all of you is: Follow the Father! What would you call those who follow the Father? You are the same, are you not? Whatever steps the Father takes, they are also your steps. Only then would you be said to be following the Father. BapDada constantly sees all the children in a worthy form. Who would be called a worthy child? Those who are worthy in everything they do and give the proof of this to the Father. To be worthy means to be those who are given the fruit of what they do. You are eating the instant fruit, are you not? Or, are you just accumulating for the future and have nothing for the present? Do you experience that when you take a step of service or stay in remembrance, you receive power and happiness? To eat instant fruit means to be constantly healthy, wealthy and happy. So, all of you are also wealthy. How many treasures do you have? Are you overflowing or a little empty? The more you remain overflowing with all the treasures, the less you shake. Because anything that is full never shakes and secondly, you cannot put anything extra in something that is full. To be a worthy child means to constantly experience the hand of Baba's shrimat and company. Therefore, constantly continue to experience Baba's hand of shrimat over yourself. Wherever there is the Father's hand, success is guaranteed. Baba's hand of shrimat means the hand of blessings. Whenever you carry out a task, first of all have the awareness that the hand of Baba's shrimat, the hand of Baba's blessings is over you. You do experience this do you not? Baba too experiences happiness in giving blessings to His worthy children. This hand of blessings can never be removed. Can anyone remove it? Does anyone have the strength to do this? Does Maya sometimes have this courage? Have you bidden farewell to Maya or do you sometimes recall her? To be weak means to recall Maya. Can those who are master almighty authorities be weak? Is it possible to have darkness where there is light? So too, is it possible to be a master almighty authority and also weak? So why do you call Maya? Is it that you don't call her but that she forces her way in? Maya loves you; you do not love Maya. Constantly give yourself the tilak of victory at amrit vela and repeatedly refresh it. You have been victorious many times. This is firm, is it not? Since you have maintained so much courage and now belong to Baba, then once you belong to Baba, you receive multimillion-fold help for your courage. Just take one step of courage and you receive the help of multimillion steps. You have experienced this, have you not? To experience multimillion-fold help means that you are as constantly victorious as the Father. After all, you have to become like the Father. All your love is for the Father, is it not? So you have to become like the One you love. The return of love is to become equal. Achcha. May all of you continue to experience yourselves to be close to the Father and most loved by the Father and continue to fly.

Blessing: *May you be a selfless server and experience supersensous joy by receiving instant fruit.*

You will receive the fruit of the actions you perform at the confluence age in the golden age. At this time however, you receive the instant fruit of your inheritance of belonging to the Father. When you do service, you receive the instant fruit of that service in the form of happiness. It is those who do service altruistically whilst remaining in remembrance of Baba that receive instant fruit.

Slogan: *Those who are full of all attainments constantly have the fortune of happiness and thus remain cheerful.*
