

Essence: Sweet children, you are all business people. Therefore, check your account to see how much income you earned by remembering Baba throughout the day, and whether you made any loss by making mistakes.

Question: What effort should you continue to make in a state of introversion, so that you experience limitless happiness?

Answer: In order to become satopradhan, remove your intellect's yoga from everything you have been doing during your many previous births. Forget all those things that keep appearing, and make effort to remember Baba. Remove your intellect from everywhere else. Become introverted and remember Baba. By bringing proof of the service you have done you will experience limitless happiness.

Om shanti. Baba sits here and explains to you children. Children, you understand that it is the spiritual Father who is explaining to you spiritual children. The spiritual Father is the unlimited Father and you spiritual children are the unlimited children. Baba has to grant salvation to all children. Through whom? Through you children! Through you He has to grant salvation to the whole world. Not all the children in the world come and study here. This is called the Godly University. Everyone has to be given liberation. You can call it mukti (liberation) or jeevanmukti (liberation-in-life) because after receiving mukti everyone has to receive jeevanmukti. So you can say that everyone has jeevanmukti via the abode of mukti. Each one has to come down here, one after another, in order to play their part. Until then they have to stay in the abode of mukti. Children, you now know about the Creator and creation. The whole of creation is eternal. Only our one Baba is the Creator. All souls here are the children of the unlimited Father. When children understand this, they come here and study yoga. This yoga is for Bharat. Baba only comes in Bharat. He teaches the pilgrimage of remembrance only to the people of Bharat and purifies them in this way. He also gives them the knowledge of how the world cycle turns. Children, you also understand that it is the rosary of Rudra that is praised and worshipped as well as remembered. There is also the rosary of the bhagats (devotees). There is the rosary of the most elevated bhagats. After the rosary of bhagats there has to be the rosary of the knowledgeable ones. There is bhakti and there is knowledge. There is the rosary of bhagats as well as the rosary of Rudra. Afterwards, there is the rosary of Runda (Vishnu) because Vishnu is the most elevated human being in the world. He is portrayed in the subtle region. This one is Prajapita Brahma. He also has a rosary. At the end, when this rosary of his is created, then that rosary of Rudra and the rosary of Vishnu (rosary of victory) will be created. Shiv Baba is the Highest on High. Then the kingdom of Vishnu is the highest of all. In bhakti, so many pictures have been created for the sake of beauty. However, they contain no knowledge. The pictures that you create have to be explained so that people are able to understand this knowledge. Otherwise, they confuse Shiva with Shankar. Baba has explained that visions are shown in the subtle region. There are no flesh and bones there. It is there that you have visions. The perfect Brahma is there as well. He is complete and subtle.

This corporeal Brahma now has to become avyakt (the subtle one). The avyakt one is also known as an angel. The corporeal one has to become that. His image is shown in the subtle region. When souls return from trance in the subtle region, they say that Baba gave them nectar to drink. However, there are no trees etc. there. Although those trees exist in heaven, it doesn't mean that Baba brings juice from heaven and gives it to you to drink. All those aspects are just visions in the subtle region. Children, you now understand that in order to return home you have to become soul conscious. I, the soul, am eternal and this body is perishable. Children, you have the knowledge of the soul whereas others don't even know what the soul is. Those people do not even know how the part of eighty-four births is contained within the soul. Only Baba gives this knowledge. Only He gives the knowledge of Himself. Only He is able to change you from tamopradhan to satopradhan. Just continue to make this effort. I am a soul. I now have to have yoga with the Supreme Soul. Only Baba is called the Almighty Authority and the Purifier. Sannyasis say: Oh Purifier, come! They also refer to the brahm element as the Purifier. Children, you have received the knowledge of how long bhakti lasts and how long knowledge lasts. Baba sits here and explains this. Previously, you didn't know anything. When you became ordinary human beings, you developed an impure intellect. In satyug, you had an absolutely clean and pure intellect. The deities had so many divine virtues. You children must also imbibe those divine virtues. It is said: This one is like a deity. Even though people believe in the sages and holy men, none of those great souls has a divine intellect. Their intellect is rajoguni. No one in the world knows how this kingdom of the king, the queen and the subjects is created. The things you listen to here are new. The secrets of the rosary have also been explained to you. Baba is the highest of all. His rosary is up above. He is Rudra, the Incorporeal One. Then there is the corporeal rosary of Lakshmi and Narayan. No rosary of Brahmins can be created at this time. The rosary of you Brahmins will be created at the end. (That then becomes the rosary of Rudra and the rosary of Runda). There is no need to ask too many questions about these matters. The main thing is to consider yourself to be a soul and to remember the Supreme Father, the Supreme Soul. You should make your faith in this firm. The main thing is of purifying the impure. The whole world is impure and has to be made pure again. Everyone in the supreme region is pure, and those in the land of happiness are also pure. When you become pure you go to the pure world. The pure world is now being created. All of this is fixed in the drama. Baba says: Check your account of the whole day. Did you make any mistake? Businessmen check their income. This too is an income. Each one of you is a businessman. You do business with Baba. You must check yourself as to how many divine virtues you have, how much you remember Baba and to what extent you stay bodiless. You came bodiless and you have to return bodiless. Even now, some souls are still coming down. In between, no souls can go up. You all have to return together. Although the world does not become empty, it has been remembered that when Rama leaves so does Ravan. However, a few from both communities remain. Once the community of Ravan leaves, it does not return; just a few remain. As you progress, you will have visions of all of that. You have to understand how the new world is created and what is to happen at the end. All that will remain

afterwards will be your religion. Kaliyug will have been destroyed and you will rule your kingdom in satyug. Satyug is now coming again. At this time, there is the community of Ravan as well as the community of Rama. All of this happens at the confluence age. You now understand everything. Baba says: All the other secrets that are yet left to be explained will all gradually be explained in good time. Everything that is fixed in the recording will be played. You will continue to be given knowledge. You will not be told anything in advance. This too is planned in the drama. As the record continues to be played, Baba continues to speak. The knowledge in your intellect is increasing. As the record continues to play, Baba also continues to play His murli. The secrets of the drama are also recorded. It isn't possible to lift the needle and place it in the middle of the record so that it repeats from that point. No, the same knowledge will be given again at the same time; it is not anything new. Baba will repeat everything that is new. You will continue to listen and tell others. Everything else is incognito. It is a kingdom that is being created. A whole rosary is being created. You will go and take birth in different kingdoms. The king, the queen and the subjects are all needed. You have to use your intellect for all of this. We will see about whatever happens in a practical way. Those who leave here will go and take birth in good wealthy homes. Even now, you are being looked after very well. Others have things embedded with jewels even now but they don't have as much power as you. You have power. Wherever you go, you will reveal yourself. You are becoming elevated, and so wherever you go your divine character will be revealed. Devilish children start to cry as soon as they are born, and they are also very dirty. You will be sustained accurately according to the system there. There will be no question of dirt. Children nowadays get dirty. This does not happen in satyug; after all, it is heaven! There will be no bad odours there that you would have to light an incense stick. The flowers in the gardens will be very fragrant. The flowers here do not have nearly as much fragrance. There, everything will have 100% fragrance. Here, there isn't even 1% fragrance. The flowers there will be first-class. No matter how wealthy people here are, they are not really that wealthy. There will be a variety of things there. Pots etc. will be of gold. Here, everything is of stone, but there, there will be nothing but gold. Even the sand will have gold in it. Just think about how much gold would be used to build houses! The weather there will be neither cold nor hot. There will be no discomfort of heat so that fans would have to be turned on. It is called heaven! There, the happiness is unlimited. No one becomes as multimillion-times fortunate as you. So much praise is sung of Lakshmi and Narayan, so there should at least be as much praise of the One who makes them like that! First of all, there is unadulterated bhakti, and then the bhakti of the deities begins. That is also called the worship of evil spirits. It is the worshipping of the five elements, not of bodies. You would not say this for Shiv Baba, but for the sake of worship they create images and things of gold. The soul is not called gold. What is the soul made of? People are very quickly able to tell you what an image of Shiva is made of, but no one can tell you what a soul and the Supreme Soul are made of. In satyug, the five elements are pure. Here, they are impure. The children who make effort will keep thinking about these things. Baba says: Forget about all of this as well. Whatever is going to happen will happen!

First of all, remember Baba! When you remove your intellect from all other directions and remember Me alone, your sins will be destroyed. Forget everything else you have heard and just underline one thing: You have to become satopradhan. Then, whatever happened a kalpa ago in satyug, will happen again. There cannot be any change in that. The main thing is to remember Baba. It is this that takes effort. Make this effort accurately. Many storms will come. All the things that you have been doing for many births will keep appearing in front of you. Therefore, turn your intellect away from all those directions and make the effort to become introverted and remember Baba. Children, your memory is now returning, but numberwise according to the effort you make. This can also be understood from the service you do. Those who do service experience happiness from doing that service. They also prove their service. They guide others here. It is understood very quickly whether you are maharathis, cavalry or infantry. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for Dharna:

1. Forget everything else you have studied and move your intellect away from everywhere else and practise becoming bodiless in order to become satopradhan. Imbibe the divine virtues.
2. Make your intellect think good thoughts. Think about the things that will be in your kingdom and make yourself worthy and virtuous. Remove your intellect from here.

Blessing: *May you have the fortune of happiness and constantly have and distribute the nourishment of happiness of Brahmin life.*

No one else in this world can have the fortune of happiness that you have. It is only in this life that you receive BapDada's heart-throne. You constantly have the nourishment of happiness and also distribute it to others. At this time, you are carefree emperors. You don't have such a carefree life in any other age throughout the rest of the kalpa. In the golden age you will be carefree but you will not have this knowledge there. It is at this time that you have knowledge. Therefore, the sound that emerges from your heart is that no one else has the fortune of happiness that you have.

Slogan: *By becoming full of the treasures of everyone's blessings you will not have to labour in your efforts.*
