

**Essence:** Sweet children, this is the real company of the Truth that enables you to ascend. You have now come into the company of the true Father. Therefore, you must never go into false company.

**Question:** On what basis can the intellect of you children stabilise in the unlimited?

**Answer:** Turn the discus of self-realisation in the intellect and realise that whatever happens is fixed in the drama; not a single second can be different. The history and geography of the world have to repeat. When your intellect understand this very clearly, you can stabilise in the unlimited. In order to stabilise yourself in the unlimited, realise that destruction now has to take place, that you have to return home, and that you will only be able to return home after you have become pure.

**Om shanti.** Sweetest, spiritual children, the spiritual Father explains to you. He explains to those who have become senseless. A teacher teaches children in a school because they are senseless. The children then begin to understand by studying. You children also understand through your study. You must never forget who it is that is teaching you. It is the Teacher, the Supreme Father, who teaches you and so you must follow His instructions. You have to become elevated. Those who belong to the sun dynasty are the most elevated. Those who belong to the moon dynasty are also elevated but those of the sun dynasty are the most elevated of all. You have come here to become the most elevated of all. Children, you understand that this is what you must become. This school only opens every five thousand years. You have now come to understand that this truly is the company of the Truth. The One who is the Truth is the highest of all and you are in His company. He sits here and makes you into the most elevated deities of satyug. He makes you into flowers. You are changed from thorns into flowers. Some are changed instantly, whereas others take some time. Children, you understand that this is the confluence age. Only you children understand this. You have the faith that this is the age to become the most elevated of humans. Which elevated beings have you come here to become? You have come here to become great kings and queens of the highest original eternal deity religion. You understand that you have come here to the unlimited Father to receive unlimited happiness in satyug. Everything limited is now to be destroyed. All that you have attachment for - your limited father, brother, maternal uncle, paternal uncle, wealth and property - are going to finish. Baba explains that all this property is limited. You now have to go into the unlimited. You have come here to claim unlimited property. All other things are limited. The body is also limited: it becomes ill and gets destroyed; untimely death also takes place. Look how all sorts of things have been invented; how miracles are now performed through science. There is so much pomp of Maya. Scientists have a great deal of courage. Those who have many palaces etc. believe that this is now the golden age for them. They are unable to realise that there is only one religion in satyug. That is the new world. Baba says: They are completely senseless! You are becoming so sensible! You climb up but then come down the ladder. When you were in satyug, you were sensible but, having taken eighty-four births you became senseless. Baba has come once again to make you into those sensible ones who have a divine intellect. You understand that your intellect was divine and very sensible. There is a song about this. "Baba, the inheritance You give us makes us the masters of the whole

earth and sky". This cannot be snatched away by anyone; no one can interfere in this. Baba gives you so much! No one else can fill your apron as much as He does. You have now found the Father whom you have been remembering for half a kalpa. All of you remember Him when you are unhappy. When you receive happiness, you have no need to remember Him. Everyone remembers Him at the time of sorrow. They do this in many different ways: Oh Rama! etc. There are no such words in satyug. Children, you have come here to study with Baba in person. You come to hear Baba's direct versions. Baba does not give this knowledge indirectly. You are given this knowledge directly. Baba has to come here to do this. He says: Sweetest children, I have come to you. You call out to Me: Oh BapDada! Baba responds and says: Oh children! Now remember Me well! Do not forget Me. Maya will obstruct in many ways. She will try to stop you from studying and try to make you body conscious. Therefore, be cautious. This company is of the Truth, the one that enables you to ascend. All those gatherings (satsangs) etc. make you descend. Only once at this time, do you have the company of the Truth. You have been in gatherings of falsehood many times for many births. Children, Baba says: This is now your final birth where you prepare to return to the land where nothing is unattainable. You are now making effort to go there. You now listen to what Baba tells you. When you are there, you will no longer know any of this. Where are you to go to now? To your land of happiness. The land of happiness used to belong to you. You were in the land of happiness and you are now in the land of sorrow. Baba has shown you a very, very easy path. Just remember that. Your home is the land of peace. You will first go there and then to heaven. No one but you goes to heaven. So only you remember heaven. You first have happiness and then sorrow. The land of happiness cannot exist in kaliyug, where there is no happiness. This is why sannyasis say that happiness is like the droppings of a crow. Children, you now understand that Baba has come to take us home. He will purify us impure ones and take us home. You become pure by staying on the pilgrimage of remembrance. There is a great deal of fluctuation on a pilgrimage. Some fall ill and return home. The same happens here. This pilgrimage is the spiritual one in which your final thoughts lead you to your destination. You are now going back to your abode of peace. It is very easy, but Maya makes you forget. Your battle is with Maya. Baba explains in a very easy way: You are now returning to your abode of peace. You must only remember Baba and imbibe the divine virtues. You must become pure. Your intellect must remember three or four main things. Destruction has to take place. You went back home five thousand years ago as well. You will be the ones who come first. It has been remembered that when the community of Rama left, so did Ravan's. Everyone has to return to the land of peace. The status you claim is according to how much you study. Your aim and objective is in front of you. Some say that they would like a vision. What is this image of Lakshmi and Narayan, if not a vision? Who else do you want to have a vision of? The unlimited Father? Other visions are of no use. You want to have a vision of Baba. There is no one sweeter than Baba. Baba says: Sweet children, have you first had a vision of yourself? You souls say that you want a vision of Baba. But, have you already had a vision of yourself? Children, you have now understood all of this. You now understand that each of you is a soul and that you souls came from your home, the abode of peace, to play your part. According to the drama-plan, you come first, at the beginning of satyug. This is the most auspicious age of the confluence of the beginning and the end. There are only Brahmins in this age. In kaliyug there are many religions and clans etc. In

satyug there will only be one dynasty. It is easy to understand that at this time, you belong to God's family of the confluence age. At present you neither belong to satyug nor do you belong to kaliyug. You also understand that Baba comes at the end of each kalpa to teach this study. You should be remembering these things whilst you are sitting here. There is the abode of peace, the abode of happiness and this abode of sorrow. You find this abode of sorrow distasteful and so your intellect renounces it. Those people do not renounce anything with their intellect. They renounce only their home and business. Baba never tells you to leave your home and business. Nevertheless, you do have to serve Bharat and yourself. You can do service whilst living at home. It is necessary for you to come here to study and when you become clever, you must also make others the same as you. There is very little time left. It has been said that a lot of time has passed and that only a short time remains. People of the world are in immense darkness. They think that there are still forty thousand years left. Children, Baba says: there is very little time now left. You have to stabilise yourself in the unlimited. Everything that happens throughout the whole world is fixed. The drama continues to move as slowly as a louse. The history and geography of the world will repeat. Those who are going to satyug are the ones who will come here and study. You have studied many times before. You created heaven for yourselves by following shrimat. You understand that God, the Highest-on-High only comes in Bharat. He also came a kalpa ago. You say that this Father comes at the end of each kalpa. He says: I have brought about creation in this way kalpa after kalpa. You will see how destruction takes place as well. Everything is now gradually entering your intellect. You understand how the tasks of creation, destruction and sustenance are carried out. So, you now have to explain all of this to others and make them understand. Previously, you did not understand but now, by coming to know Baba, you understand everything. You are able to understand the history and geography of the world accurately. Baba explains to you how people change from tamopradhan to satopradhan. You then have to explain this to others. Your intellects are now becoming divine. All of those in satyug have a divine intellect. This is the most auspicious confluence age. This is known as the time in the episode of the Gita, the time when your intellects change from stone to divine. God Himself speaks this Gita; it is not a human being speaking. You souls listen and then tell others. This is known as spiritual knowledge which you relate to your spiritual brothers. This is how your number continues to grow. You understand that Baba comes and creates the sun dynasty and the moon dynasty. Through whom does He create this? Through you mouth-born children of Brahma, you jewels of the Brahmin clan. Baba gives you shrimat. This is something that has to be understood. You have to note it in your heart. It is very easy to do that. This is the land of sorrow. We now have to return home. After this iron age is over the golden age will come. This is a very small and easy matter to understand. Even if you are uneducated, you can listen to those who know how to read. Shiv Baba is the Father of all souls. You must now claim your inheritance from Him. If you have faith in the Father, you can claim your inheritance of heaven from Him. Let there be a soundless chant going on inside you. You are to receive your inheritance of the unlimited happiness of heaven. This is why you must definitely remember Shiv Baba. All of you have the right to claim your inheritance from the unlimited Father. Just as you have a limited birthright, so, this is your unlimited birthright. You receive your kingdom of the whole world from Shiv Baba. You should explain this to little children as well. Every soul has a birthright of claiming an inheritance from the Father. They definitely claim this every

kalpa. You claim an inheritance of jeevanmukti (liberation-in-life). Those who claim their inheritance of mukti (liberation) also have jeevanmukti; their first birth is of happiness. This is your eighty-fourth birth. You should keep all of this knowledge in your intellect. Do not forget that it is the unlimited Father who is teaching you. Bodily beings could never give this spiritual knowledge. They do not have the knowledge of the spirit. You are told to consider yourselves to be brothers. No other human beings receive these teachings. It is also mentioned in the Gita that God says: Lust is the greatest enemy. By overcoming this you will gain the world. However, they do not understand the meaning of that. God is the Truth. The deities learnt the truth from God. How did Krishna claim his status? How were Lakshmi and Narayan created? What sort of actions did they perform? Is anyone able to answer these questions? Only you now understand that it was the Incorporeal Father who taught them these actions through Father Brahma. This is creation! You are now the Prajapita Brahma Kumars and Kumaris. You have the knowledge of the spiritual Father. You now understand that you have recognised God. He is the Incorporeal One, the Highest on High; He does not have a corporeal form. Everyone that you see is corporeal. The lingums you see in the temples also indicate that He does not have a body. However, this doesn't mean that He is beyond name and form. Yes, all other bodily beings are given names. They have a horoscope. Shiv Baba is incorporeal; He does not have a horoscope. Krishna's horoscope is the first one. People also celebrate Shiv Jayanti. Shiv Baba is the Incorporeal Benefactor. Baba does come, and so when He comes He must definitely give the inheritance. His name is Shiva. That One is the Father, the Teacher, the Satguru, all three. He teaches everything so clearly. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for Dharna:**

1. Remove this land of sorrow from your intellect and remember your abode of peace and your abode of happiness. Do the true service of Bharat and yourself by giving this spiritual knowledge to everyone.
2. In order to claim your right to the kingdom of satyug, have firm faith in the one Father. Let there be the soundless chant inside you. Study every day.

**Blessing:** *May you be full of determination and attain success in passing the most difficult test-paper by having the speciality of contentment.*

Contentment is the special qualification of Brahmins. To remain content with whatever role you have been given means to move forward. Even if you have ups and downs or someone insults you, you children of the Bestower must never be discontent about anything. You children must remain content with yourselves and content with others. To become like this, have full determination to remain content no matter how difficult a test-paper that comes in front of you is. Through this, you will always continue to be successful.

**Slogan:** *True tapaswi children are those who are constantly merged in the Ocean of Love, the Ocean of Happiness, the Ocean of Peace and the Ocean of Bliss.*
