

Essence: Sweet children, Baba now makes your heart so happy that for twenty-one births you have no need to go to any fairs etc. for entertainment.

Question: What *guarantee* are the children, who become Baba's helpers now, given?

Answer: The children who help Baba to create the kingdom, by following shrimat, are *guaranteed* that death will never come to them. Untimely death never takes place in that kingdom of satyug. You children who help Baba, receive such a *prize* from Him that you become immortal for twenty-one births.

Om shanti. God Shiva speaks according to the predestined drama, as He did in the previous cycle. Children, you have received your own introduction. You have also received Baba's introduction. You recognise the unlimited Father and you also know the beginning, the middle and the end of the unlimited world drama. Those who understand this very clearly, numberwise, according to the effort they make, are also able to explain it clearly to others. The explanations of some are incomplete and some even more so. In other armies, there is the *Commander-in-Chief*, *Captain* and then the other ranks. In the rosary of this kingdom too, there are rich and poor subjects. All are numberwise. Children, you understand that you are yourselves creating your own elevated kingdom of the world, on the basis of shrimat. The more effort you make, the greater the *prize* you receive from Baba. Nowadays, people who give advice for peace receive a *prize*. Children, you also receive a *prize* but those people cannot receive the prize you do. Everything they receive is just for a temporary period. You are creating your own kingdom by following Baba's shrimat. You are *guaranteed* that for twenty-one births and twenty-one generations. There, death will not come to any of you during your childhood or adolescence. You know that you are now somewhere that you never even thought of. You are sitting at the place where there are also your memorials, the place where you did *service* five thousand years ago as well. There are the Dilwala Temples, Guru Shikhar and Achalghar. You have also found the highest-on-high Satguru whose memorial has also been created. You now understand the significance of Achalghar. That is the praise of your physical home. You claim the highest status on the basis of the effort you make. That *wonderful* non-living memorial is of you who are sitting here in the living form. All of this spiritual activity also took place a cycle ago. The memorial of it here is accurate; it is the *number one* memorial. When students *pass* an important examination they become very happy. You will have such beautiful *furniture* and costumes! You are becoming such masters of the world that no one can be compared to you. This is a *school*. You have also recognised the One who is teaching you. It is God who speaks. People know nothing about those whom they worship on the path of bhakti. Baba comes here in person and explains everything to you. All of those memorials are of your final stage. Your *results* have not yet been published. It is the memorials of your complete stage that is created on the path of bhakti. There is the memorial of Raksha Bandhan. When you have tied a firm rakhi (kept your promise of purity) and received your fortune of the kingdom, you will not celebrate the memorial of it. The significance of all the mantras is also explained to you at this time. The meaning of 'Om' is explained to you as well. It doesn't have a long and complicated explanation. 'Om' means I am a soul and this is my body. When you had no spiritual knowledge and you used to consider yourself to be a body, you were in a state of body consciousness. Day by day, the path of bhakti becomes more degraded; it becomes tamopradhan. Everything is satopradhan to begin with. Bhakti also used to be satopradhan. At that time, when there were very few of you, you only used to remember the one true Shiv Baba. Day by day, the population increases. Abroad, if a couple give birth to many children, they are given a prize. Baba says: Lust is your greatest enemy. The world population has grown enough! Now become pure! Children, it is through Baba that you now know the beginning, the middle and the end of the world drama. There is no trace of bhakti in the golden age. There is so much pomp and splendour now. So many melas etc. take place where people go for entertainment. Baba has come to make your heart happy for twenty-one births; you remain happy for all that time. You never have any thoughts of going to a mela then. When people go to them, they go in order to experience happiness. You have no need to go up the mountains. Just look how people die here! People don't know about the golden age and the iron age and about heaven and hell. You children have all of this

knowledge. Baba does not tell you to stay here with Him. You must take care of your household. Children normally leave home when there is some sort of conflict. Nevertheless, you still can't stay here with Baba. Not everyone is able to become satopradhan; some remain in the sato stage, some in the rajo stage and some in the tamo stage. Not everyone is able to live together. A kingdom is being created! The status you claim in the kingdom is according to the amount of remembrance you have. The main thing is to remember Baba. Baba Himself teaches you this *drill*. This is *dead silence*. Whilst seeing everything here, you must not see anything. You must renounce everything and that includes your own body. What do you see? First, you see your home and second, you know the status of the golden-aged kingdom you will receive, according to how much you have studied. The silver age doesn't exist when it is golden age and the copper age doesn't exist when it is silver age. When it is copper age, the iron age doesn't exist. Now, it is the iron age as well as the confluence age. You may be sitting in the old world, but your intellect understands that you belong to the confluence age. You also understand what is meant by the confluence age. The auspicious year, the auspicious month and the auspicious day are all at this auspicious confluence age. This most auspicious age is the time to become the most elevated of humans. This is a very short *leap* age. You people play the game of the somersault. This is a question of developing the power of yoga with which you go to heaven. Baba has seen how some sages go on pilgrimage whilst somersaulting along. That seems very difficult. There is no question of anything difficult here. Children, do some of you find the pilgrimage of remembrance difficult? The expression is very easy, so you should not become afraid as you hear this. You say: Baba, I'm unable to stay in yoga. Baba then lightens it for you by telling you that this is just remembering the Father. Anything can be remembered. Baba says: Consider yourself to be a soul. You are His children. This is your Father as well as your Beloved. All of His lovers remember Him. Just the one word 'Father' is sufficient. On the path of bhakti, you used to remember your friends and relatives. However, although you still definitely used to say 'Hey Prabhu! Hey Ishwar!', you didn't know who He was. The Father of all the souls is the Supreme Soul. The father of your body is a bodily being. The Father of the souls is bodiless. He never takes rebirth. Everyone else takes rebirth. Everyone remembers the Father. Therefore, He must have given everyone happiness at some time. Everyone calls Him the Remover of Sorrow and the Bestower of Happiness, but no one knows His name, form, land, or time when He comes. There are as many different ideas as there are human beings. There are so many different opinions. Baba teaches you with so much love. He is God, the Bestower of Peace. You receive so much happiness from Him. He teaches you the one Gita and purifies you. The family path is also needed. People say that the duration of the kalpa is hundreds of thousands of years. If that were so, there would be countless human beings. That is such a huge mistake! The *knowledge* you are receiving now will later disappear. The images of those who used to exist are worshipped, but the people who worship them do not think of themselves as belonging to the deity religion. The image people worship would indicate which religion they belong to. However, those people are not able to understand that they belong to the original deity religion, that they belong to the dynasty of the deities. Only Baba explains this. Baba says: You were pure, and have now become tamopradhan. You now have to become pure and satopradhan. Will you become this by bathing in the Ganges? Baba is the Purifier. It is only when He comes and shows you the way that you can become pure. They keep calling out, but they don't understand anything. Souls are calling out through their sense organs: Oh Baba! Oh Purifier! Come and purify us! Everyone is now impure. They continue to burn on the pyre of lust. This drama is played out in this way. Then, Baba comes and purifies everyone. It is only at the confluence age that Baba explains this. In satyug, there is only one religion; all the others return home. You now know this *drama*. No one else knows this drama. Only you know the *duration* of the beginning, the middle and the end of creation. Although all others are shudras and you are Brahmins, you only understand these things numberwise according to the effort you make. When school children are careless, it is seen from the *register* that they haven't been studying very much. The *register* also records their *character*. There should also be a *register* here. No one knows about your pilgrimage of remembrance. The pilgrimage of remembrance is the principal *subject*. Think of yourselves as a soul and remember Baba. A soul says through his lips: I am going to

renounce this body and take another. It isn't Brahma Baba explaining all of this. It is the Supreme Father, the Supreme Soul, the Ocean of Knowledge who speaks. There is the memorial of Gaumukh (mouth of the cow). There is also a temple here, where all of you are staying. Just as you have the ladder, so they have those steps. You do not get tired in climbing back up. You just come here to study with Baba and be *refreshed*. Outside, there is a great deal of mundane business. You are not able to listen peacefully. Your mind keeps racing, hoping that no one sees you and thinking you should go home quickly. There you have so many worries! Here, you have no household worries; it is like staying in a *hostel*. This is the family of God! When you reside in the land of peace you are all brothers. Here, you are brothers and sisters. Because you all have to play your *parts* you need to be brothers and sisters. You are also the ones who are the brothers and sisters in satyug. That is called the undivided kingdom. There is no fighting or quarrelling etc. there. Children, you now have the full *knowledge* of your eighty-four births. Baba has also told you the account of those who do a great deal of bhakti. You are the ones who start the unadulterated worship of Shiva. All of that increases later on, but all of it is still worship. There is only one knowledge. You understand that Shiv Baba is teaching you. This Brahma didn't know anything. This one is known as the last child in the world. The one who was the *great-great-grandfather* has now become this. He is once again becoming a master. Tattwam! (The same applies to you). There won't be only one master; you are also making effort to become this. This *school* is unlimited; it will have many *branches*. There will be one in every street and every home. Some of you say: We have put the pictures up at home so that when friends and relatives come, we can explain to them. Those who are the leaves of this tree will come. You do everything for their benefit. It is very easy to explain with the pictures. You have to forget all the countless scriptures you have been studying. Baba is the One who teaches you and He is the One who gives you the true knowledge. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to do the *drill of dead silence*, don't see anything that you see here. Remove everything from your intellect including your own body and just remain in the awareness of your home and your kingdom.
2. Keep a *register* of your *character*. Don't be careless about studying. This is now the most auspicious confluence age when you have to become the most elevated of humans and inspire others to become the same.

Blessing: May you be a special soul who has left the world of forgetfulness and is playing a *hero part* as an embodiment of remembrance. The confluence age is the age of awareness and the iron age is the age of forgetfulness. All of you are the special souls who have left the world of forgetfulness and are playing a *hero part* as embodiments of remembrance. At this time, you are *double-heroes*. Firstly, you are as *valuable* as a diamond (*hira*) and secondly, you are playing a *hero part*. Constantly sing this song in your heart: How wonderful and elevated my fortune is! Just as you remember your worldly *occupation*, similarly, remember you are an elevated soul who has an imperishable *occupation*. Then, you can be called a special soul.

Slogan: Those who have the sun of happiness constantly shining in their heart remain constantly happy.

*** OM SHANTI ***
