

Essence: Sweet children, put into practice the teachings given to you by Baba. Never go back on the promise you have made to Baba and never disobey Baba's instructions.

Question: What is the essence of your study? What must you definitely practise?

Answer: You are studying to go into retirement. The essence of this study is to go beyond sound. Only Baba takes everyone back home. Children, you have to become satopradhan before you can return home. For this, seek solitude and practise being soul conscious. It is only by practising becoming bodiless that you souls can make yourselves satopradhan.

Om shanti. By considering yourselves to be souls and remembering Baba, you will change from tamopradhan to satopradhan, and you will then become the masters of the world. Cycle after cycle, you change from tamopradhan to satopradhan. Then, when you have taken eighty-four births and become tamopradhan again, then Baba comes and gives you the teachings to consider yourself a soul and remember Him. You also used to remember Him on the path of bhakti, but the knowledge your intellect had at that time was gross. Now, your intellect understands subtle knowledge. You have to remember Baba in a *practical* way. You also have to explain to others that souls are like a *star* and that Baba is also like a *star*. It's just that He doesn't take rebirth, whereas you do. This is why you have to become tamopradhan. Therefore, you now have to make effort to become satopradhan. Maya repeatedly makes you forget this. You must now become those who don't make mistakes. You must not make any mistakes. It is by making this mistake that you became tamopradhan. If you continue to make further mistakes you will become tamopradhan. You have received *directions* to think of yourself as a soul and remember Baba. By doing this your *battery* will be recharged and you will then become the satopradhan masters of the world. A *teacher* teaches everyone, but the *students* pass numberwise. Then they also earn an income numberwise! You too *pass* numberwise and then claim a numberwise status. There is such a vast difference between the status of a master of the world and that of maids and servants! *Students* who are good, worthy, obedient and trustworthy will definitely follow their *teacher's* instructions. The better your *register*, the more *marks* you claim. Children, this is why Baba also repeatedly tells you: Stop being careless! Don't think that you *failed* a cycle ago as well. Many feel in their heart that because they haven't done any *service* they must have *failed* before. Baba keeps cautioning you. You changed into those satopradhan ones who belong to the golden age. You have now become the tamopradhan ones who belong to the iron age. The *history* of the world is to *repeat*. Baba shows you a very easy way to become satopradhan. He says: Remember Me and your sins will be destroyed. As your stage ascends you become satopradhan. Your stage ascends gradually. Therefore, do not forget Me! However, Maya makes you forget Me. She makes you disobedient. Some accept the *directions* given by Baba; they make a promise to Him, but don't fulfil it. Therefore, Baba says: You are those who disobey instructions and go back on your word. A promise made to Baba must be fulfilled. No one else can give the teachings that the unlimited Father gives. *Change* will definitely take place. This picture is also very good. You now belong to the dynasty of Brahma and then you will belong to the dynasty of Vishnu. This language of God is new. You have to understand this too. No one else can give you this spiritual *knowledge*. There are some other organisations who call themselves "spiritual organisation". However, there is no spiritual organisation but yours. There are many *imitations*. This is a new matter. There are very few of you. No one else would understand these matters. The whole tree is now standing but the trunk no longer exists. Then, when the trunk starts to grow again, none of these branches and twigs will remain; they will all have been destroyed. Only the unlimited Father can give you this unlimited explanation. Ravan's kingdom is now over the whole world. This is Lanka (Ravan's land). That Lanka is across the ocean. The unlimited world is also surrounded by the ocean. There is water everywhere around. Those matters are limited whereas the matters Baba explains are unlimited. Only one Baba explains. This is the study. Other students keep themselves busy studying until they have their results. Then they find a job. Their intellect only works for that. The job of you *students* is to pay *attention* to your study. As you walk and as you move, you must remember Baba. *Students* keep their study in their intellect. As their examination days come closer, they make a lot of effort to make sure that they don't fail. Because of the noisy and dirty *vibrations* of the house, especially in the

morning, they go into the garden to study. Baba has told you to practise becoming soul consciousness and then you won't forget this knowledge. There are many places to have solitude. In the beginning, after *class*, you used to go up on the hills. Now, day by day, this *knowledge* is becoming more profound. You *students* must remember your *aim* and *objective*. This study that takes you into the stage of retirement cannot be taught by anyone except the One. The sages and holy men etc. only teach things of worship. Only the one Father shows you the way to go beyond sound. Only the one Father takes everyone back home. It is now the time of your unlimited stage of retirement. No one else knows about this. Baba says: Children, all of you are at your stage of retirement. The whole world is to go into the stage of retirement. Whether they want to study or not, everyone has to return home. All souls will return to the supreme region and stay in their own *sections*. The tree of souls is also *wonderful*. The cycle of this whole *drama* is completely *accurate*. Nothing can be changed. There are two types of clocks, *lever* and *cylinder*. *Lever* clocks are totally *accurate*. Here too, the intellect of some of you are like a *lever* clock and some like a *cylinder* clock. Some of you don't have any yoga at all. It is as though the clock just doesn't work. In order to go into the kingdom you have to become exactly like a *lever* clock. Those whose intellect is like a *cylinder* clock will be part of the subjects. You must make effort to become like the *lever* clock. Only a very few out of multimillions claim a royal status. They are the ones who become part of the rosary of victory. Children, you understand that this definitely takes effort. You say that you keep forgetting Baba. Baba explains: Children, as you become more powerful, Maya will fight you even more strongly. Strong fighters in a boxing match are very cautious of one another. A powerful one recognises another powerful one. The same happens here. There are mahavir children but they are also numberwise. Maya causes many storms for good maharathi children as well. Baba has told you that no matter how much Maya harasses you and causes storms for you, you must remain very cautious. Don't be defeated in any aspect. No matter if storms do enter your mind, do not put them into practise with your physical organs. Storms come to try and make you fall. If you didn't have to battle with Maya, how would you become powerful? Do not worry about the storms of Maya. However, some of you become influenced by your physical organs and fall. Baba tells you everyday not to perform any sinful acts through your physical organs. If you don't stop doing things that are against the law, you claim a status worth pennies. Such souls understand internally that they will fail. Everyone has to return home. Baba says: Remember Me! That remembrance cannot be destroyed. Even by staying in remembrance for a short time, you will go to heaven. You can also understand what status you will claim by having a little remembrance and what status you can claim when you have a great deal of remembrance. No one remains hidden. Each of you can understand for yourself what you will become. You can understand what status you would claim if you were to have *heart-failure* now. You can also ask Baba. As time goes by, you will understand automatically. Destruction is standing ahead. Storms, heavy rainfall and *natural calamities* come without advance warning. Ravan exists anyway. This is a very great examination and those who *pass* it will claim a high status. Rulers definitely have to be sensible so that they are able to take care of their subjects. Very few *pass* the *ICS* examination. Baba teaches you and makes you into the *satopradhan* masters of heaven. You understand that you have changed from *satopradhan* to *tamopradhan* and that you now have to become *satopradhan* again by having remembrance of Baba. You now have to remember Baba, the Purifier. Baba says: Manmanabhav! This is now the time of that same *episode* of the Gita: the Gita that enables you to become those who have a *double* crown. However, it is Baba who makes you this. Your intellect now has all of this *knowledge*. Those who are good and clever also imbibe everything very well. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Night Class - 05/01/69

You children sitting in this *class* know who your *Teacher* is. *Students* are able to remember who their *teacher* is, throughout the day. However, you children sitting here forget this. Children, the *Teacher* knows

that you repeatedly forget Him. You have never before found such a spiritual Father. It is only at the confluence age that you can find Him. In both the golden and iron ages, you have your physical fathers. Children, Baba reminds you of this so that it becomes firm for you that this is the confluence age during which you have to become the most elevated of all human beings. When you remember the Father, you should remember all three. When you remember the *Teacher*, you should remember all three and when you remember the Guru you should remember all three. You definitely have to make effort to remember the three. The main subject is to become pure. Those who are pure are called satopradhan and they live in the golden age. You have now been around the whole cycle. It is now the confluence age. Baba comes every kalpa to teach you. You reside with the Father. You also know that He is the One true Satguru. He truly shows you the way to the abodes of liberation and liberation-in-life. We are making effort according to the *drama-plan* and *following* the Father. We *follow* Him by following the teachings we are being given here. Just as this one is studying, so you children must also make the same effort to study. In order to become deities, the acts you perform must be pure. There should be no dirty rubbish still inside you. The main thing is to remember the Father. It can be understood when you forget the Father, His teachings and also the pilgrimage of remembrance. When you forget the Father, you also forget His knowledge and you forget that you are a *student* as well. You should be remembering all three. When you remember the Father, you should definitely remember the *Teacher* and the Satguru. When you remember Shiv Baba, you should also imbibe the divine virtues. There is magic in Baba's remembrance. Children, no one else can teach you the magic that Baba teaches you. It is in this birth that we are changed from tamopradhan to satopradhan. It has taken us the whole cycle to become tamopradhan, and we now have to become satopradhan in this one birth. This all depends on how much effort each of us makes. Everyone in the world won't make this effort. Those who belong to other religions won't make this effort. Some children have had visions of how the religious founders come. They have played their roles in their different costumes. They come during the tamopradhan period. Reason says that just as we have to become satopradhan, others too will become the same. They will receive the donation of purity from the Father. Everyone is calling out for the Guide to come and liberate them and take them home. According to the *drama-plan*, everyone has to return home; you go back home countless times. Some don't remain at home for the complete five thousand years, whereas others remain in the home for nearly five thousand years. Those who come at the end would say that they have been in the land of silence for 4,999 years. We would say that we have been on this earth for 4,999 years. Children, you have the faith that you have taken eighty-three or eighty-four births. Those who are very clever will definitely have come at the beginning. Achcha.

Sweetest, spiritual children, love, remembrance and good night to you.

Essence for dharna:

1. In order to become satopradhan, have your *battery* recharged on the pilgrimage of remembrance. Become those who never make mistakes. Make sure your *register* is good. Don't be careless!
2. Do not perform any act against the law. Don't worry about the storms of Maya. Conquer your physical organs. Make your efforts as *accurate* as a *lever* clock.

Blessing: May you be a liberated trustee who is also liberated from any bondage of the mind by becoming manmanabhav.

Any type of bondage is a cage. A caged parrot has now become a flying bird and is obstacle-free. Even though your body may be bound, your mind can be like a flying bird because when you become manmanabhav, all bondages of the mind are broken. Even looking after your family would not be a bondage. Those who look after everything as a *trustee* are constantly free from all bondage. To be a householder means to be burdened and such burdened souls are unable to fly. When you are a *trustee*, you are free from bondage and able to fly in the vehicle of your flying stage to your *sweet home* in a *second*.

Slogan: *Lighthouses* are those who spread the *light* of purity and peace in all directions. * Om Shanti *
