

**Essence:** Sweet children, for your own *safety*, always protect yourself from the vices that are the claws of Maya. Never become body conscious!

**Question:** What main teachings does the Father give all of you children so that you can become charitable souls?

**Answer:** Baba says: Children, in order to become charitable souls: 1) Constantly continue to follow shrimat. Never become careless about the pilgrimage of remembrance. 2) Make full effort to become soul conscious and defeat lust, the greatest enemy. This is the time to become a charitable soul and leave this land of sorrow and go across to the land of happiness.

Om shanti. It is the Father who questions you children every day. You wouldn't say that Shiv Baba has small children. Souls exist eternally. The Father also exists eternally. It is only at this time, when both Bap and Dada exist, that the children have to be looked after. There are so many children who have to be looked after. He has to keep the account of each one. Just as a physical father is concerned, so He too feels it would be good if his children also become part of this Brahmin clan. My children should also become pure and go to the pure world. He doesn't want His children to be swept away down Maya's gutter. The unlimited Father is concerned about the children. There are so many *centres*! He knows which children He has to send where for their *safety*. Nowadays it is very difficult to remain *safe*. There isn't any *safety* in the world. In heaven everyone is *safe*. Here no one is *safe*. They become trapped in the vices that are the claws of Maya somewhere or another. You souls are now being given these teachings. It is here that you have the company of the Truth. You have to leave this land of sorrow and go across to the land of happiness. You children now understand what the land of sorrow is and what the land of happiness is. At this time it is truly the land of sorrow. We have committed a lot of sins here, whereas when we are there we will be charitable souls. We now have to become charitable souls. Each of you now knows the *history* and *geography* of your 84 births. No one in the world knows the *history* and *geography* of 84 births. The Father has now explained to you your whole life-story. You now understand that you have to become completely charitable souls by staying on the pilgrimage of remembrance. It is by making mistakes in this that you are deceived a great deal. The Father says: It is not good to make mistakes at this time. You have to follow shrimat. The main thing Baba says is: First, stay on the pilgrimage of remembrance. And, second, conquer lust, the greatest enemy! Everyone calls out to the Father because souls receive their inheritance of peace and happiness from Him. Previously, when you were body conscious, you didn't know anything. Now you children are being made soul conscious. New ones have to be given the introduction of their limited father and the unlimited Father. From the unlimited Father you receive heaven as your fortune. From your limited father you receive hell as your fortune. When a child grows up he has a right to the *property*. When he develops understanding he becomes influenced by Maya. All of those customs and systems belong to Ravan's kingdom. You children now know that this world is changing. This old world is now to be destroyed. The Mahabharat War, the great war, is only mentioned in the Gita and in no other scripture. This is the most elevated confluence age of the Gita. The age of the Gita means the establishment of the original eternal deity religion. The Gita is the scripture of the deity religion. So this is the age of the Gita when the new world is being established. Human beings have to change; they have to change from ordinary human beings into deities. Human beings with divine virtues are definitely needed for the new world. No one in the world knows these things. They have made the duration of the cycle very long. The Father is now explaining to you and you understand that truly Baba is teaching you. Krishna is never called the Father, *Teacher* or Guru. If Krishna were the *Teacher*, whom did he learn from? He cannot be the Ocean of Knowledge. You children now have to explain to eminent people. Get together and discuss how *service* can grow. How can *service* become fast? Then they will understand that the Brahma Kumaris, for whom they create so much chaos are in fact right. The rest of the world is false, and this is why they continue to rock the boat of truth. Storms do come, do they not? You are the boats that go across. You understand that you have to go across from this world of Maya. The first storm is body consciousness. That is the worst storm of all. It is this vice that has made everyone impure. This is why the Father says: Lust is the greatest enemy. This is a very

powerful storm. Some have even conquered this. Some who live at home with their family are still trying to protect themselves from it. This is very easy for kumars and kumaris. This is why the name "Kanhaiya" (Lord of the Kumaris) is remembered. So many kumaris must definitely belong to Shiv Baba. Krishna was a bodily being; He couldn't have had so many kumaris. You are now being made into queens through this study. Purity is the principal thing required for this. Look at yourself and check that your *chart* of remembrance is good. Baba receives the *charts* of the children. Some have two to three hours of remembrance and some have five hours. Some don't write it at all; they remember Him very little. Not everyone's pilgrimage can be the same. There will still be many more children to come. Each one of you has to check your *chart* and see to what extent you will be able to claim a status. To what extent do you have the happiness of that? Why should you not be constantly happy since you now belong to the highest-on-high Father? According to the *drama*, you have done a lot of bhakti. The Father has now come to give the devotees their fruit. Sinful actions continue to be performed in Ravan's kingdom. You are making effort to go to the satopradhan world. Those who don't make full effort will go into the sato stage. Not everyone will take as much knowledge. Everyone definitely has to receive the message wherever they are. This is why you have to go to every corner. This *mission* must also go abroad. There are *missions* of the Buddhists and Christians who come to convert people of other religions into their religion. Tell them that we originally belonged to the deity religion and that we now belong to the Hindu religion. Generally, it will be those of the Hindu religion who come to you. Amongst them, it will be the worshippers of Shiva and the deities who come. Baba told you to serve the kings. Mostly they are worshippers of the deities. They have temples in their homes. You have to bring them benefit also. Consider yourselves to have come here with the Father from the far-away land. The Father has come to establish the new world. You are also doing that. Those who establish it will also sustain it. You should have the intoxication inside you that you have come here with Shiv Baba to establish the deity kingdom and to make the whole world into heaven. One is amazed at what people continue to do in this world! Look how they worship! During the nine-nights festival of the goddesses they worship the goddesses. Since there is the night, there must also be the day. You have a song, "What wonder did you see"? They make clay images, decorate them and worship them. Their heart becomes so attached to those images that when they sink them, they cry. When someone has died, they take the body to the river and drown the body whilst chanting God's name. Many go there. Those rivers exist eternally. You know that that dancing etc. used to take place on the banks of the River Jamuna. There will be huge palaces there. You will go and build them there. When someone is to *pass* an important examination, his intellect plans how he will have a home built etc. after he *passes* his examination. You children also have to remain aware that you are becoming deities, that you are now to go to your home. You should be happy remembering your home. When someone is returning from his travels, he becomes very happy that he is now going home to where he took birth. The home of us souls is the incorporeal world. There is so much happiness! Human beings do so much bhakti in order to attain liberation. However, no one has such a *part* in the *drama* that he can return home yet. You know that they definitely have to play their *part* for half the cycle. Our 84 births are now coming to an end. We now have to return home and then we will come into our kingdom. Simply remember your home and kingdom! Whilst sitting here, some people remember their factories. For instance, look at Birla! He has so many factories! He will be concerned about all of them throughout the day. If you were to tell him to remember the Father he would have so many obstructions. He would repeatedly remember his business. It is easier for the mothers, and even more easy for the kumaris. Die a living death and forget the whole world! When you consider yourself to be a soul and belong to Shiv Baba, it is called dying alive. Renounce the body and all bodily relations! Consider yourself to be a soul and belong to Shiv Baba! Continue to remember Shiv Baba because there is a huge burden of sin on your head. Everyone has the desire to die alive and belong to Shiv Baba. There should be no consciousness of the body. We came bodiless and we have to return bodiless. We now belong to the Father. Therefore we must not remember anyone but the Father. If that were to happen soon the war would also take place soon. Shiv Baba tells us so much that we belong to Him. We are residents of that place. Here there is so much sorrow! This is now the final birth. The Father has told you that when you

were satopradhan there were no others. You were so wealthy! Money at this time is like shells. It is worth nothing, just shells. All of this is for temporary happiness. The Father has told you that when you donated a lot in the *past* and performed a lot of charity, you received a lot of wealth, and you donated that too. However, that was only for one birth. Here you become wealthy for many births. Here, the more important one is, the more sorrow there is. Those who have a lot of wealth are very much trapped. They can never come and stay here. Only ordinary poor ones *surrender* themselves. Wealthy ones never do this. The money they earn is for their grandchildren in order to keep their clan going. They themselves will not come into that same home. Those who have performed good actions previously, will come as their grandchildren, just as those who make many donations become kings. However, they are not *ever-healthy*. So what if they rule a kingdom! They still don't have imperishable happiness. Here there are many types of sorrow at every step. There all of this sorrow will have been removed. People call out to the Father: "Remove our sorrow!" You understand that all your sorrow is to be removed. Simply continue to remember the Father. You can't receive this inheritance from anyone but the one Father. The Father removes all sorrow from the whole world. At this time even animals are experiencing so much sorrow! This is the world of sorrow. Sorrow is continually increasing and souls are continuing to become tamopradhan. We are now at the confluence age, whereas everyone else is in the iron age. This is the most elevated confluence age. Baba is making us into the most elevated human beings. Even by remembering this much, you can remain happy. God is teaching us and making us into the masters of the world. At least remember this much! By studying His teachings, His children should become gods and goddesses, should they not? God is the Bestower of Happiness. So how do you receive sorrow? The Father sits here and explains this. Why are God's children experiencing sorrow? God is the Remover of Sorrow and the Bestower of Happiness. People definitely must be experiencing sorrow and that is why they sing this praise. You know that the Father is teaching you Raja Yoga. You are making effort. There cannot be any doubts in this. You Brahma Kumars and Kumaris are learning Raja Yoga. You are not going to tell lies. When someone has doubts, explain to him that this is a study. Destruction is in front of you. We are the top-knot of the confluence age. Prajapita Brahma is here. Therefore there will definitely also be Brahmins here. This has also been explained to you, and that is why you have faith. However, the main thing is the pilgrimage of remembrance, and it is in this that there are obstacles. Continue to look at your *chart* and see to what extent you remember Baba and to what extent your mercury of happiness rises. You should be happy inside that you are now holding the hand of the Master of the Garden, the Purifier. You *shake hands* with Shiv Baba through Brahma Baba. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### Essence for dharna:

1. Remember your home and kingdom and maintain infinite happiness. Always remember that your journey is now coming to an end. We are now to go home and will then return to our kingdom.
2. You *shake hands* with Shiv Baba through Brahma Baba. That Master of the Garden is making you pure from impure. Through this study you are becoming queens of heaven. Maintain this internal happiness!

**Blessing:** May you be a happy and fortunate soul who remains constantly happy by *using* all your treasures at the right time.

As soon as you take your Brahmin birth from BapDada, you daily receive a great deal of elevated happiness and many treasures. This is why many devotees experience temporary happiness even from your name. Seeing your non-living images, they begin to dance in happiness. You are all happy and fortunate in this way. You have received many treasures, but you must simply *use* them at the right time. Constantly keep the key to them in front of you. Constantly keep this in your awareness and put that awareness into practical form and you will thereby continue to experience constant happiness.

**Slogan:** Obedient souls are worthy of receiving blessings. The result of those blessings is that their heart is constantly contented.
