

**Essence:** Sweet children, have an unlimited intellect. Seek the *opinion* of eminent people and benefit all souls. Ask them for their *halls* to hold lots of exhibitions.

**Question:** What awareness that will never make you unhappy, are you now reminded of?

**Answer:** You have now become aware that you were worthy-of-worship kings and then became beggars. Baba has come and is once again making you into kings. Baba is now telling you the news of the whole world. You now know the *history* and *geography* of the *world*. Continue to maintain this awareness and you will never feel unhappy. You will remain constantly happy.

**Song:** Show the path to the blind, dear God...

Om shanti. Sweetest, long lost and now found, spiritual children heard the song. You children understand that it is very easy to meet the Father and receive your inheritance from Him. It is remembered that you receive the inheritance of liberation-in-life from the Father in a *second*. Liberation-in-life means the inheritance of happiness, peace, prosperity, etc. There are the two terms: Liberation-in-life and bondage-in-life. You children know that, at this time, because of the path of devotion and the kingdom of Ravan, everyone has a life of bondage. The Father comes and liberates you from bondage and gives you an inheritance. As soon as a child is born, his parents, friends and relatives all understand that an heir has been born. It is just as easy to understand this as it is to understand that. Children say: Baba, You have come and met us exactly as You did in the previous cycle. We have found the path to receive an inheritance easily from You. Everyone knows that the Creator of the new world is God. He is liberating us from stumbling and wandering around. Yesterday we were doing devotion, whereas today we have found the path of easy knowledge and Raja Yoga. Children relate their experiences that they heard through the Brahma Kumaris of having two fathers. No one, apart from you, could say that he has two fathers. Every aspect of yours is *wonderful*. You are now aware that those who belong here will very quickly be able to remember all these things. Yes, sometimes Maya even slaps those who have remembered everything and makes them forget everything. You children have to remain very cautious in this. The Father has reminded you of everything. You have to tie the bracelet of purity very tightly. You now understand the significance of Raksha Bandhan. Who made you make this promise? Lust is the greatest enemy. The Father says: Promise Me that you will never become impure, and continue to remember Me and the sins of half the cycle will be absolved. The Father *guarantees* this. You children also understand that since it is the Father who is giving a *guarantee*, it must be fine! What *guarantee* do goldsmiths give? They say that they will make old jewellery new. That is their work. By putting it into fire it will definitely become pure gold. Therefore, the Father explains: There is alloy in the soul. How you go through the stages of sato, rajo and tamo is very easy to explain. The pictures have been made so that by using them it is also easy to explain. They have many types of map in *universities* and *colleges*. These are your maps. You can explain to someone very well. The Ocean of Knowledge, the Purifier Father, comes and shows you this path. No one else can make an impure person pure. Human beings are without sight and are unhappy. You children know that in the first two ages, there is neither any sorrow nor is there any devotion. That is heaven. There is a *contrast* between the people of Bharat of this time and the ancient people of Bharat. However, no one else understands this. They do so much worshipping etc. The wealthier people are, the more beautiful the ornaments they put on the idols of the gods and goddesses. Baba is experienced. A *trustee* of the Lakshmi and Narayan Temple in Bombay had a diamond necklace made for Lakshmi and Narayan. Baba even remembers the name of that *trustee*. He first built a temple to Shiv Baba and decorated it very beautifully and then he built a temple to the deities and decorated Lakshmi, Narayan etc. so well. How much wealth would there be at that time! Mahammad Guznavi came and looted camel-loads of it. There was so much wealth in Bharat! You now understand accurately what your Bharat was. There were plenty of treasures in our Bharat. They used to build temples of diamonds and jewels. Those things don't exist any more. Everyone has *looted* everything. Look what the condition has now become! You were worthy-of-worship kings and now, having completed your 84 births, you have become beggars. You should constantly churn these things and you would never consider yourself to be unhappy. You should continue to churn in your heart what you are receiving from Baba. The Father comes and tells us the news of the whole world. No

one knows the *history* and *geography* of this world. You know that at first there was only one religion, one kingdom, one direction and one language and everyone was happy. Afterwards, they began to fight amongst themselves and Bharat began to be divided into pieces. It wasn't like that at first. There was no type of sorrow there. There was no mention of illness. The very name was heaven. You have now remembered everything about yourselves. We truly forget everything every cycle and then we remember everything. The first mistake we made was to forget the Creator and creation. You now know the beginning, the middle and the end. This *knowledge* will not even exist in the golden age so how could it have continued from time immemorial? At that time, the main ones are the kings. There aren't any rishis and munis then. They exist in the copper age. The rishis and munis receive their food etc. from the kings. The kings look after the rishis and munis because they renounced everything. The ancient Raja Yoga of ancient Bharat is remembered. You wouldn't say that the rishis and munis are ancient. They come into existence in the copper age. They are sustained by the kings. They say: We do not know the Creator or creation. The Father says: The kings do not know this either. No one in this world knows this *knowledge*. You children have now become sensible. You can write to those who build temples to Lakshmi and Narayan: You have built temples and spent hundreds of thousands of rupees, but do you know their life story? How did they attain their kingdom and where did they then go? We can tell you all the secrets about where they are now. You can write to them like this. You children now know the biography of everyone and so why shouldn't you write to them? Say: Give us some *time* and we will tell you about the life-story of each one. You can even write to those who build temples to Shiva. The temple to Shiva in Banares is so big! It must have *trustees*. You should try to explain to eminent people. When eminent people understand, their sound will be heard by everyone. The poor quickly listen to them. You should seek the help of eminent people. You should get them to write their *opinions* because their sound helps. In fact, they don't make as much sound as they should. You even explain to the *President*. They even say that this is good. When the *Chief Minister* or the *Governor* performs an *opening*, they write that these Brahma Kumaris show a very good easy path to meet God. However, they don't understand who God is. At that time, they just say that the path you show is very good and that the path to find peace is very good. However, they themselves don't understand anything. Baba tells you to explain to eminent people. Ask for very well-known *halls* with the help of important people. Tell them: We want to keep this exhibition here all the time in order to benefit all human beings. Simply *advertise* this. Take 50 to 100 *halls* like this! Bharat is very big. Take 10 to 12 *halls* in each city. It should be printed in the newspapers that exhibitions are being held in so many *halls*. Those who want to understand should come and do so. How many will be benefited by all this? You children have to have a very broad intellect. You children have to do *service*. Baba says to all you children: Hold exhibitions with great pomp and show. Baba is making preparations. Children have to make effort. All these are matters to be understood. God comes and creates the creation of people through Prajapita Brahma. Therefore, He must definitely have created so many Brahmins. He is now creating them again. There are so many Brahmins! Baba is creating this Brahmin religion at the confluence age. You are seeing this and understanding all these things in a *practical* way. These things are not mentioned in the scriptures. You children understand that Baba comes when the impure world has to be made pure. People also know that the Supreme Soul creates creation through Prajapita Brahma, but they don't know when He does that. They believe that He must create a new creation. They believe Brahma to be in the subtle region. You understand that Prajapita Brahma is now here. You go to the subtle region. You become pure and then become angels. You also have visions. Children come back and relate that everything there is "movie". That is the "movie" world. You saw "movie" films. You now understand everything in a *practical* way. The incorporeal world is the world of *silence* where souls reside. In the subtle region there are subtle bodies. So there must also definitely be a language. It is in the intellect of you children that the place of residence of you souls is the land of silence. Then there is the subtle region where Brahma, Vishnu and Shankar reside. This is the confluence of the iron age and the golden age when the Father comes here. You Brahmins go from here. There is the home of the parents and the home of the in-laws. Here, both are your parents' homes. Both Bap and Dada make effort to make you children beautiful (like flowers). Muslims

speak of the *Garden of Allah*. There was a particular person in Karachi who would stand in front of Baba and fall down to the ground as soon as he saw Baba. When he was asked about it, he would say that he went to God's garden and God gave him a flower. He had no knowledge. You now understand what the garden is. This is the forest of thorns and that is the garden of flowers. You have in your intellect all the secrets of what the iron age is and what the golden age is. You should have a lot of happiness because you have the whole cycle in your intellect. There is a lot of expansion about it. It is in your intellect in *short*. You children have now come to know the Creator and the creation from the Father, the Creator. Brahma is not called the Creator. There is only one Creator and the greatness is also of One. First of all, there is the creation through Brahma and then there is the creation of Krishna. Brahma exists, but Brahmins are also needed. Pandavas are not called Brahmins. Brahmins created through Brahma are required. This is a spiritual sacrificial fire. This is called *spiritual knowledge*. Only the one Father gives knowledge to you spirits. You understand that it is not a human being who is teaching you. The Father is teaching all you souls. It is said that establishment takes place through Brahma. You would not say that it takes place through Krishna. That couldn't be possible. Who inspires establishment through Brahma? Is it Krishna? No, it is the Supreme Father, the Supreme Soul. Sustenance takes place through Vishnu. Brahma and Vishnu also have their *parts*. The mouth-born creation of Brahma then become the deities of the land of Vishnu. Brahma becomes Vishnu and Vishnu becomes Brahma. It has been explained to you children that it takes a *second* for Brahma to become Vishnu and that it then takes 84 births for Vishnu to become Brahma. These are such *wonderful* matters! No one can understand them. These are unlimited matters. You have to study the unlimited study from the unlimited Father and claim the unlimited kingdom. Know the world cycle! The soul knows it through the body. It isn't that the body takes *knowledge* through the body. No, it is the soul that takes *knowledge*. You have so much happiness! You should have internal, incognito happiness. The soul has the sanskars of studying. It is the soul that feels sorrow. It is said: "Don't give sorrow to my soul." You children are now receiving so much enlightenment. You remain happy. You clouds have to become *refreshed* by the ocean and together shower knowledge. Meet together, and help to create these exhibitions. You should be interested in doing this. *Service, service* and more *service!* Achcha.

To the sweetest, beloved, long-lost, and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### Essence for dharna:

1. Churn the *knowledge* you have received from the Father and maintain infinite happiness. Have an unlimited intellect and do *service* with great pomp and show.
2. Don't forget the awareness that Baba has reminded you of. Completely fulfil the promise you have made to the Father to remain pure.

**Blessing:** May you be an image that grants visions and transforms the vision and attitude of many souls through your own totally pure vision.

There is a saying that the world changes through your vision. Your vision should be so totally pure that the vision, attitude and stage of any impure or totally impure soul is changed. From your vision anyone who comes in front of you should become aware of all three worlds and their life story. This is called taking souls beyond with a glance. At the end, when there is no *service* through knowledge, this is the *service* that will take place.

**Slogan:** The *practical* form of purity is truthfulness and divinity.
