

Essence: Sweet children, you Brahmins are protectors of the sacrificial fire. It is this sacrificial fire that will give you the fruit you desire.

Question: On the basis of what two aspects can you be liberated from all sorrow for 21 births?

Answer: Serve the sacrificial fire with love and remember the Father and you will not be unhappy for 21 births. You will not shed tears of sorrow. You children have received the Father's shrimat: Children, only remember the Father; don't remember any of your friends or relatives. Become free from bondage and look after the sacrificial fire with love and you will receive whatever fruit you desire.

Song: Do not forget the days of your childhood...

Om shanti. Sweetest children heard the song and also understood its meaning that this is our Godly birth. In this birth, by following the directions of the One whom we call the Mother and Father, we will become the masters of the world because He is the Creator of the new world. You are sitting here with this faith and are claiming your inheritance of being a master. This old world is going to be destroyed. There is no happiness in it. All are choking in the ocean of poison. Everyone has to experience sorrow in the chains of sorrow and die. The Father has now come to give you an inheritance. You children know that you are to receive an inheritance from the One to whom you now belong. He is teaching us Raja Yoga. A barrister would say that he will make you into barristers. The Father says: I will make you double-crowned in heaven. I have come to give you the inheritance of Shri Lakshmi and Narayan and their dynasty. You are studying Raja Yoga for that. Don't forget these things. Maya will make you forget them and make you turn away from the Supreme Father, the Supreme Soul. That is her business. You have turned away from Him since it was her kingdom. You are now of no use. Although your face is that of a human being, the character is totally like that of a monkey. Now your face is that of a human being and you are making your character like that of a deity. This is why Baba says: Don't forget the days of your childhood. There is a difficulty in this. It would be said to be great fortune for those who are free from bondage. Physical parents push you into vice, whereas this Mother and Father will take you to heaven. He is making you bathe in knowledge. You are sitting here comfortably. Yes, you do have to make your body work. You are receiving an inheritance from the unlimited Father and so the remembrance of anyone else should not harass you. If there is any bondage then that remembrance harasses you. If you remember any relatives or friends or the films then.... The Father says to you: Don't remember anyone else. Serve the sacrificial fire and remember the Father and you will not experience sorrow for 21 births. You will then not shed tears of sorrow. You should not leave such an unlimited Mother and Father. You should serve the sacrificial fire. You are protectors of the sacrificial fire. Serve the sacrificial fire in every way. This sacrificial fire will give you the fruit that you desire, that is, it gives you liberation-in-life and the kingdom of heaven. So you should look after such a sacrificial fire so much. There should be so much peace that anyone who comes would feel that there is peace and happiness here. You don't like to make a noise here. You have come having been liberated from the kingdom of Ravan. We are now going to the kingdom of Rama. For those who are free from bondage, this is great fortune. They are even more fortunate than those who are millionaires because they claim their inheritance from the unlimited Father. It would be said to be great fortune even for those whose bondages have broken. The fortune of those who become free from bondage and claim their inheritance from Baba opens so much. Outside, there is the extreme depths of hell in which there is no happiness without sorrow. The Father now says: Let go of all other worries and serve the sacrificial fire with love. Imbibe this knowledge. First of all make your life like a diamond. That will only happen by following shrimat. Here, all children are free from bondage. Make your nature very good; you have to become satpradhan otherwise you won't be able to claim a high status in the satopradhan kingdom. Accept whatever you receive from the sacrificial fire. Baba is experienced. No matter how great a jeweller-merchant he was, whenever he went to an ashram, he would always follow all the disciplines of the ashram. There, he would not ask for anything or say: Give me this or that! You should eat with great royalty whatever food everyone else also receives. There has to be great peace in this Godly ashram. (Song) Those who are with the Beloved... Both Bap and Dada are sitting here. You are personally sitting in front of them and listening to them. If you don't become worthy to do service now, your status will become degraded for

cycle after cycle. Become a stick for the blind and give everyone this great mantra. This is the life-giving herb. Maya makes some children completely unconscious. On this battlefield you are told to remember the Father and your inheritance. This is the life-giving herb. You are Hanuman, you become brave warriors (mahavirs) numberwise. There are many who have become unconscious. You have to make them conscious so that they can create their lives. Don't have any attachment to your body. There should be attachment only to the Father and the imperishable jewels of knowledge. The more you imbibe, the more you will be able to inspire others to imbibe. The Father says: I love knowledgeable souls. Baba looks for enlightened children to serve at the exhibitions. It is very easy to explain. When great important people hear it they become happy. They feel that life can be made worthwhile through this organisation. However, only a handful out of multimillions understand this. This is unlimited renunciation. Everything you see in this old world is going to be destroyed. You now have to claim your inheritance from the Father and return home. We will go into the sun-dynasty clan once again and rule the kingdom there. We used to rule the kingdom and then Maya snatched it from us. This is such an easy thing! Remember the sweetest Father. Your heart should be attached to the Father. However, you have to perform actions through the physical senses. You also have to follow shrimat. Sweetest, beloved children, the Father says: Let only jewels of knowledge and not stones constantly emerge from your mouth. Don't talk about worldly news otherwise your mouth will become bitter. Continue to give one another jewels of knowledge. You have aprons full of jewels. People donate perishable wealth. Bharat is said to be a great donor. At this time the Father donates to you children. Children, donate to the Father. Baba, everything, including this body, is all Yours. The Father then says: This world sovereignty is yours. Everything of this old world is to be destroyed. Why should we not make a deal with Baba? Baba, all of this is Yours. Give us a kingdom in the future. This is all we want, we don't need anything else. No one should think that by giving their body, mind or wealth to Baba they will starve. No, this is Shiv Baba's treasure-store from which everyone's livelihood for the body is provided and will continue. There is the example of Draupadi. That part is now being enacted in a practical way. Shiv Baba's treasure-store is always full. That too was a test. Those who were afraid left. Those who wanted to stay with Baba then came to Baba. There is no question of starving. Palaces are now being built for you children. If you want to live well, then make effort and claim a high status. This is a deal of every cycle. If you fail the exams this time, you will continue to fail every cycle. Pass in such a way that you sit on Mama and Baba's throne. For 21 births you will sit on one throne after another. Don't remember anyone except the one Father. To write the murli is very good service. Everyone will be happy and give you blessings. Baba, this handwriting is very good. Otherwise, some write and their writing is no good at all. Some write saying: Baba, they send us the murli with some things edited. Our jewels are being stolen! Baba, we have a right to them. We should have all the jewels that emerge from Your mouth. Only the specially beloved ones would say this. You should do service of the murli very well. You should learn all languages; Marā-ḥi, Gujarati, etc. Just as Baba is merciful, you children also have to become merciful. Make effort to make your life like a diamond and become a helper. The life of that world is completely tasteless. They continue to bite one another. They are so impure. Why should we not follow Baba's shrimat now? Baba, I belong to You. You can engage me in whatever service You want. Then Baba would be responsible. Baba would free from all bondages those who come to the asylum. There is a lot of dirt outside in this world. They say that God is omnipresent and turn everyone away from God. If He is omnipresent and sitting close to you, then what is the need to say, "O Prābhū!," and call out to Him? When you explain to them, they just make noises. O! but God Himself says: I never said that I am omnipresent. People on the path of devotion have written that. I myself used to read that but, at that time, I didn't think it was defamation. Devotees don't know anything. They accept whatever they are told to be the truth. Baba explains to you so clearly, and yet they go outside and create chaos. Later, when they go there, they will become maids and servants. Baba has told you that, at the final moments, everything will be known. You will continue to have visions and tell others: This one will become this and that one will become this. Then, at that time, you will have to lower your head for there won't be the happiness that those who receive the kingdom will have. Your heart will be pricked as though by a thorn and you will wonder what happened. However, it would be *too late* then and there will be repentance. Nothing can happen then. The Father

would say: So much was explained to you and you still continued to do that! Therefore, look at your state! There will be repentance every cycle. He will take the brides back numberwise. Everyone from number one to the end will understand that because they didn't study well, they are sitting at the end. During the examination days you can tell with how many *marks* you will *pass*. You would understand what status you would claim. If you don't do *service*, you will receive nothing. Pay attention to the study and *service*. You are the children of the sweetest of all Baba and so you must become very sweet. Shiv Baba is so sweet and lovely! He makes us like that once again. This is such a big *university*. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Remove your attachment from everyone including your own body, and have attachment to the Father and the imperishable jewels of knowledge. Donate the jewels of knowledge.
2. Pay full attention to the study and *service*. Become as sweet as the Father. Neither listen to worldly news nor make your mouth bitter by relating it to others.

Blessing: May you be unshakeable and immovable and apply the tilak of three dots at amrit vela and remain free from the upheaval of "Why?" and "What?"
BapDada always says: Every day at amrit vela apply the tilak of the three dots. You are a dot, the Father is a dot and whatever has happened and whatever is happening is *nothing new*, and so a *full-stop* is also a dot. To apply a tilak of the three dots means to maintain your awareness of the self. Then you will remain unshakeable and immovable throughout the day. The upheaval of "Why?" and "What?" will end. Whenever something happens, apply a *full stop* at that time. *Nothing new!* It had to happen, and it is happening. Observe it as a detached observer and continue to move forward.

Slogan: With the power of transformation, end the force of the flow of wasteful thoughts and you will become powerful.
