

Essence: Sweet children, people continue to make effort for *peace* but you know that only when the bodies of everyone have been crushed like mustard seeds and the souls have gone home will there be *peace*.

Question: Which one aspect proves that a soul never merges with the light?

Answer: It is said: That which is predestined is taking place. Therefore, a soul surely *repeats* his *part*. If you say that the light merges with the light, then the *part* also comes to an end. Then it is wrong to say that the *drama* is eternal. A soul sheds an old costume and takes a new one, he does not merge with anything.

Song: Oh Traveller of the faraway land...

Om shanti. The children who are yogi and gyani and are able to understand the meaning of this song accurately explain it to others. All human beings are buried in the graveyard. Those whose light has become extinguished and who are tamopradhan are said to be buried in the graveyard. Those who carried out establishment and who were instruments for sustenance for birth after birth have now completed all their births. You can calculate from the beginning to the end which religions have been established. In limited plays, there is regard for the *creator*, *director* and the principal *actor* of the play. They receive so many *prizes*. They show their splendour. Your splendour is of knowledge and yoga. People don't know that death is just ahead of them or how many births they take in this *drama* or where they come from. You and I can't know the *details* of all the births. However, at this time, we are making effort for the future. You will become deities but what status will you claim? You have to make effort for that. You know that Lakshmi and Narayan have taken 84 births. They will definitely become the King and Queen. Baba gives you visions in a *practical* way. Even on the path of devotion people have visions. They have visions of whomsoever they have meditation with. If they see a picture of the bluish Krishna and they meditate on that, the vision they have will be of that one. However, Krishna isn't like that. People don't have any knowledge of these things. You are now here in the *practical* form. You see him in the subtle region and also in Paradise. You have knowledge of the soul and God. People have only visions of the soul. You have *knowledge* of everything you have a vision of. Although people outside have visions of a soul, they don't have *knowledge* of it. They say that the soul is the Supreme Soul. The soul is truly a *star*. Many of those are visible. There are as many souls as there are human beings. The body of a person is visible with these eyes but the soul can be seen with divine vision. People have different features, but souls are not different. All are the same. It is just that the *part* of every soul is different. Human beings are big or small whereas souls are not bigger or smaller. The *size* of souls is the same. If a soul were to merge with the light, how would he *repeat* his *part*? It is remembered that that which was destined is taking place. This eternal *world drama* continues to rotate. You children know this. Souls return home like mosquitoes. Mosquitoes can be seen with these eyes. Souls cannot be seen except through divine vision. In the golden age there is no need to have a vision of souls. There, you understand that you, the soul, have to shed an old body and take another new one. They don't know God at all. If they were to know God, they would also know the world cycle. In the song, it says: Also take me with You. At the end they repent a great deal. Everyone receives an invitation. So many methods are invented to give them an invitation. Everyone speaks of *peace*, but no one understands the meaning of *peace*. You know how peace can be achieved. Just as mustard seeds are crushed in a pestle and mortar in the same way, everyone's body will be destroyed in destruction. Souls will not be crushed. They will return home. It is written that souls run away like mosquitoes. It isn't that all Gods will run. People don't understand anything. They don't know what the difference is between souls and the Supreme Soul. They say that they are all brothers, and so they should live like brothers. They don't know that in the golden age, all brothers or all brothers and sisters live together like milk and sugar. There is no question of salt water there. Here, one moment they are like milk and sugar and the next moment they become like salt water. On the one hand, they say that the Chinese and Hindus are brothers and then they make effigies and continue to burn them. Look at the condition of even physical brothers. They don't know about spiritual relationships at all. The Father explains to you: You have to consider yourself to be a soul. You mustn't become trapped in body consciousness. Some people become trapped in body consciousness.

The Father says: You have to renounce all relationships of the body, including your own body. Forget this building etc. Originally, you are residents of the supreme abode. You now have to return from where you came to play your *part*. Then I will send you into happiness. So the Father says: You have to become worthy. *God* is establishing a *kingdom*. Christ did not have a *kingdom*. It was later when there were hundreds of thousands of Christians that they would have created their *kingdom*. Here, the golden age is created instantly. It is such an easy matter. Truly, God came and carried out establishment. By inserting Krishna's name, they have confused everything. Ancient Raja Yoga and knowledge are mentioned in the Gita. They disappear. The English words are good. You would say that Baba doesn't know English. Baba says: To what extent would I sit and speak in all the languages? The main language is Hindi. So, I speak the murli in Hindi. The one whose body I have adopted also speaks Hindi. Therefore, I also speak the same language that he speaks. I would not teach you in any other language. If I were to speak *French*, how would this one understand? The main question is of this one (Brahma). He has to understand first. I would not take the body of anyone else. It also says in the song: "Take me with You", for no one knows about the Father or His home. They continue to tell lies. There are innumerable opinions of all the people and this is why the thread has become tangled up. Look how the Father is sitting here! Whose feet are these? (Shiv Baba's.) They are my feet; I have given them on *loan*. Shiv Baba only uses them *temporarily*, but otherwise they are my feet. They don't show feet in the Shiva Temple. They show Krishna's feet. Shiva is the Highest on High, and so where could His feet come from? Yes, Shiv Baba has taken them on *loan*, but they are Brahma's feet. They have shown a bull in the temples. How could He ride a bull? How would Shankar sit on a bull? The saligram soul rides the human body. The Father says: The knowledge that I spoke to you has disappeared. It remains like only a pinch of salt in a sackful of flour. No one can understand it. I Myself come and speak the essence of it to you. I gave you *shrimat* and explained the secrets of the world cycle to you, and they then gave the discus of self-realisation to the deities. They don't have any knowledge. All of these things are matters of knowledge. The soul receives *knowledge* of the world cycle with which Maya's head is cut off. They have then shown the discus of self-realisation being thrown at devils. You gain victory over Maya with this discus of self-realisation. They have taken the things of one time period into another. Amongst you too, scarcely a few are able to imbibe these things and then relate them to others. The *knowledge* is elevated and it takes time. At the end, there will just be the powers of knowledge and yoga in you. This is fixed in the *drama*. Their intellect is continuing to become soft. You are purifying the atmosphere. This knowledge is so incognito. It is written that sinners like Ajamil were also uplifted, but no one understands the meaning of that. They believe that souls merge with the light, or that they merged with the ocean, that the five Pandavas melted on the mountains and annihilation took place. On the one hand, they have shown that they studied Raja Yoga, then they have shown annihilation. Then they have shown Krishna coming floating on a pipal leaf sucking his thumb. They don't understand the meaning of that either. That was the palace of the womb. A baby would be sucking his thumb. They have taken the things of one place somewhere else. People continue to say "It's true, it's true" to whatever is said. No one knows the golden age. Anything that doesn't exist is said to be false. For instance, they say that God doesn't have a name or form, but they continue to worship Him. So, God is extremely subtle. There isn't anything as subtle as He is. He is an absolutely tiny point. It is because He is subtle that no one knows Him. Although the sky is also said to be subtle, it is called space. There are the five elements. He comes and enters a body of the five elements. He is so subtle. He is an absolutely tiny point. A *star* is so tiny. Only when God, the *Star*, comes and sits next to this one can He speak. These are such subtle matters. Those with a gross intellect cannot understand anything. The Father explains such good things. According to the *drama*, whatever *part* He played in the previous cycle, He is playing that part now. You children understand that Baba comes every day and tells us new points. Therefore, that would be new knowledge, would it not? So, you have to study every day. When a student doesn't go to class every day, he asks his *friend* what happened in *class* that day. Here, some stop studying completely. That's it. They simply say that they don't want their inheritance of the imperishable jewels of knowledge. Oh, but what will become of you if you stop studying? What inheritance will you receive from

the Father? That's it! It isn't in their fortune. Here, it is not a question of physical property. You receive the treasures of knowledge from the Father. All of that property is going to be destroyed. No one can have intoxication about that. Only from the Father will you receive your inheritance. Although you have property worth millions, all of it is also going to turn to dust. All of that refers to the present time. It is also written: Some people's wealth will remain buried underground, some people's wealth will be burnt... The things of the present time then continue to happen until at the end. Destruction now has to take place. After destruction there will be establishment. Establishment is now taking place. That is our kingdom. You are not doing anything for anyone else. Whatever you do, you are doing that for yourself. Those who follow shrimat will become the masters. You become the masters of the new Bharat in the new world. You were the masters in the new world, that is, in the golden age. This is now the old age and you are inspired to make effort for the new world. These are such good things to understand. This is knowledge of the soul and the Supreme Soul: *self-realisation*. Who is the *Father* of the *self*? The Father says: I come to teach you souls. You have now *realised* the *Father* through the *Father*. The Father explains: You are My long-lost and now-found children. You have come and met Me again after a cycle in order to claim your inheritance. So you should make effort, should you not? Otherwise, you will have to repent a great deal and there will have to be a lot of punishment. Don't even ask about those who become children and then perform wrong actions! Look how much *part* Baba has in the *drama*! He gave away everything. Baba then says: I will give you the *return* in the future for 21 births. Previously, you would give *indirectly* and so I used to give you the return for that in the future for one birth only. You are now giving *directly* and so I *insure* it for you for 21 births. There is so much difference between *direct* and *indirect*. Those people *insure* with God for the copper and iron ages. You *insure* everything for the golden and silver ages. Because it is *direct*, you receive the return for 21 births. Achcha.

To the sweetest, beloved, long-lost and now-found children, numberwise, according to the effort you make, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Take the treasure of the imperishable jewels of knowledge from the eternal Father and become fortunate. Study the new knowledge and the new study every day. Do the service of making the atmosphere pure.
2. *Insure* everything of yours for your future 21 births. After belonging to the Father, don't perform any wrong actions.

Blessing: May you have a right to practical and instant fruit by following elevated directions at the confluence age and thereby attain elevated salvation.

At the confluence age, on the basis of following elevated directions, you now receive practical fruit, that is, the success of whatever elevated actions you perform. This is why it is said: As the directions, so the salvation you receive. Those people think that salvation will be received after they die, but you children receive in this final life of dying alive, the blessing of the fruit of success in every action, that is, of attaining salvation. You don't wait in anticipation for the future. You do something now and you instantly receive a right to the attainment. This is called true love of the Creator for the creation.

Slogan: Those who *follow* the Father in every action with determination are the ones who become complete.

*** OM SHANTI ***
