

Essence: Sweet children, make full effort at this most auspicious confluence age to become the most elevated human beings. Pay as much *attention* as possible to remembrance and the study.

Question: You children are very big businessmen. Therefore, what should you always pay attention to and think about?

Answer: Always think about profit and loss. If you don't think about this, you will have to become maids and servants. You will then lose your inheritance of the kingdom for 21 births that the Father gives you. Therefore, make a good deal with the Father. The Father is the Bestower and you children give a handful of rice, as Sudama did, and claim the sovereignty of the world.

Om shanti. Children are sitting here. This is a *school*. This is not a spiritual gathering. It isn't a head of an ashram or a sannyasi who is sitting in front of you. There is no question of fear of the swami becoming upset with you. On the path of devotion, when they invite a sage or sannyasi to their home, they wash his feet and drink that water. This One is the Father. Are children at home ever afraid of their father? You eat, drink and play with your Father. Do you do that with sannyasis or gurus etc? There, throughout the whole day you say, "Guruji, guruji!" Here, you don't have to do that. This One is the Father. You receive the teacher's inheritance from the Teacher and the Guru's inheritance from the Guru. From the Father, you receive *property*. As soon as a child is born, he becomes an heir. Here too, you become a child of the Father when you recognise Him and you then become a master of heaven. The Father is the Creator of heaven. No one knows how and from whom this Lakshmi and Narayan claimed the kingdom of heaven. You understand that you were that and are once again becoming that. People don't think at all about who that One is or who it is they are worshipping. They go to the Shiva Temple and simply pour water over the Shivalingam and return home. They don't know anything at all. You now have the *feeling* that you will shed that body of the land of death and go to the land of immortality. The attainment is very big. On the path of devotion there is no attainment at all. Baba himself says: I adopted 12 gurus. He now understands that that was a *waste of time* and that, in fact, he continued to come down even more. However, that too is fixed in the drama. We don't have any enmity for anyone. We have love for only the one Father. When you come into the *classroom*, you should become very happy seeing these pictures, because that is what you are studying and becoming. You know how this kingdom is being established. The Father says: Children, don't be confused. The Father explains so clearly, and yet some become those who are amazed by the knowledge when they hear it, relate it to others and then run away. They then belong to Maya. They are called *traitors* who have their kingdom and go and belong to another kingdom. The Father inspires you so well to make effort. On the path of devotion people stumble around so much. They make many donations, perform a lot of charity, go on pilgrimages and also observe fasts. OK, so what if someone has a vision? They didn't go into the ascending stage. In fact, they came even further down into the descending stage. For you, each day is the ascending stage. For all the rest, it is the descending stage. Gurus say that knowledge is the day of Brahma and devotion is the night of Brahma. There is the difference of day and night between knowledge and devotion. You receive happiness through knowledge. The Father tells you such easy knowledge: You were the masters of the world and then you continued to come down. The Father now says: Simply consider yourself to be a soul. The soul is imperishable. The soul says: O imperishable Father, come and purify us. Liberation and liberation-in-life are both included in that. You now understand that you didn't know anything at all on the path of devotion. You were still searching. You used to sing: Oh God, have mercy! It isn't very *tasteful* and you don't remember your inheritance when you say "God". As soon as you say "Highest on high Shiv Baba", you instantly remember your inheritance. You now understand that this is the kingdom of Ravan. The kingdom of Rama exists in the golden age. It is now the iron age. There were very few human beings in the golden age. There was just the one original eternal deity religion. There was peace and happiness. Here, people continue to wander around searching for peace. They spend so much money on *conferences* etc. You can write to them: That One is the Ocean of Peace, the Ocean of Purity and also the Ocean of Prosperity. Everything is received from that One. You now know that you were very wealthy in the golden age. There was peace in the world there. However, souls experience peace in their home, the supreme abode. When we were alone in the world, there was

everything, including peace and happiness. Therefore, you children should be very happy. Look at what they have written in the scriptures for such a heaven! The Father now says: I explain to you so much that there is no need for you to ask any questions etc. First of all, constantly remember Me alone. You call out: Come and purify the impure ones, that is, come and make the old world new. However, you don't understand the meaning of that at all. The thread is all tangled up, and it now has to be sorted out. In devotion, they have created so many images. They have given the discus to Krishna and shown that he killed Akasur, Bakasur (devils) etc. with that. Was he violent? Then they say that he abducted So-and-so. They have made him *doubly* violent. It is a *wonder*. It is a wonder of the intellect of those who have written the scriptures. Then they call that one God Vyas. The Father now says: Remember Me and imbibe divine virtues. There is nothing else to do. You are made to sit in yoga because there are many who don't remember Baba. They remain engaged in their own business. They don't have any time at all. However, here, you have to remember Baba with your intellect even whilst doing your work. You are lovers of Me, the Beloved. I now tell you: Break away from everyone else and connect yourself to Me alone. Whilst eating and drinking, simply instil the habit: I am a soul, and remember the Father. The Father is making you so elevated. You don't accept these things worth a few pennies (of remembrance being so simple) and you don't remember Me! You remember your children etc., but you cannot remember Me. In fact, it is *wrong* to say: Make someone conduct meditation for me specially. Baba *directly* comes and says: Constantly remember Me alone. The Father also personally explained to you in the previous cycle. He now says: Sweetest beloved children, who have met Me again after a cycle, your 84 births are now coming to an end. You now definitely have to become pure in order to go back home. It is because of indulging in vice that you have become very impure. If you don't become pure, you will receive a low status. Consider yourself to be a soul and remember the Father and also remember the cycle of 84 births. This is the discus of self-realisation. No one understands the meaning of this. You have to blow the conch-shell. These are aspects of knowledge. This is your unlimited Father, the Creator of heaven. Remember the Father and you will go into the ascending stage. This is such an easy thing. You children now understand that this drama is predestined. The Father comes here every 5000 years. You now have to make effort very well. Why do you chase after wealth? Achcha, even if you earn 100,000 or 200,000 a month, all of that is to end. Even your children won't remain to use that. There is the greed that your sons, grandsons and great-grandsons to eat from that. It isn't that all of them would take rebirth in the same family. You can't tell where they will take rebirth. You receive an inheritance for 21 births. If you make less effort, you will become maids and servants of the subjects and you will incur so much loss. So, you also have to think about profit and loss. Businessmen commit a lot of sin and so they definitely put something aside for charity. This is the business of the imperishable jewels of knowledge which scarcely any people do. You have to make this deal *directly* with the Father. The Father gives you jewels of knowledge. He is the Bestower. You children give a handful of rice whereas the Father gives you an unlimited sovereignty. In comparison to that, this is a handful of rice. All of you are Sudama. What do you give and what do you receive? You claim the sovereignty of the world and become the masters of the world. Your intellect says that there will only be the one land of Bharat. The elements will also be new. Souls will be satopradhan. When you were deities in the golden age, you were *pure* gold. Then, in the silver age, there was a little alloy of silver mixed into souls, and that was called the *silver age*. You continued to come down the ladder. At this time, you are very elevated. There is also the image of the variety-form, but people don't understand the meaning of that. There are so many images. Some keep a picture of Christ and others keep a picture of Sai Baba. Some even make those of Islam their gurus. They go there and have a party where they drink a lot of alcohol. The Father says: There is so much darkness of ignorance. All of that is the darkness of devotion. You have to be very cautious about the company you keep. It is said: Good company takes you across and bad company drowns you. Bad company is the five vices of Maya. You have now found the company of the true Father with which you are going across. The Father alone speaks the truth. You receive the company of the Truth every cycle. Then, after half the cycle, you receive the company of Ravan. You also understand that the kingdom will definitely be established as it was in the previous cycle. You will definitely become the

masters of the world. Here, because *partition* took place, there is so much fighting. There, there is just the one religion. There was peace in the world when there was the one kingdom of undivided deities. There was just the one religion. Where could peacelessness come from there? That was God's kingdom. God established that kingdom with spiritual knowledge and so there would definitely have been happiness there. Baba loves you children. The Father says: I know how much you have had to stumble around. People understand that God will definitely come in one form or another. Sometimes they show Him riding a bull. Could anyone ride a bull? There is so much darkness. So you children should now tell everyone: The Father has come to give everyone an inheritance. The new world is being established through Brahma. Baba always gives the example of the banyan tree. In fact, its *foundation* is being established once again. No other religion will remain. Bharat is the imperishable land and the imperishable pilgrimage place. It is the Father's *birthplace*. Baba explains to you sweetest children with so much love. In the form of the *Teacher*, He teaches you. You children study and go ahead of Me. I do not claim the kingdom. Have you ever invited Me to heaven, saying, "Come here." I send you to heaven. This is such a wonderful play. The Father says: Achcha, children, may you have a long life! I will go and stay in the stage of retirement. The Father says: There are now calamities over your head. This is why you have to make full effort to become the most elevated human beings at this most auspicious confluence age. Continue to make effort to remember the Father and your sins will be absolved. To the extent that you study, accordingly, you will go into an elevated clan. The Father says: Grind your own ingredients and your intoxication will rise. Children always receive an inheritance from the Father. In the world outside, only sons receive it, and daughters are donated (married off). Here, all souls receive an inheritance and that too is an unlimited one. So you have to pay full attention to this. God is teaching you and so you mustn't *miss* a single day. Some say to Baba: I don't have time. Oh really? Aren't you ashamed to say that you, the soul, don't have time to study with Me? Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Be very cautious about the company you keep. Keep the company of the one true Father. Remain very distant from the company of Maya, the five vices.
2. Pay full attention to your study. Remain lost in your own intoxication. It is said: Grind your own ingredients and you will feel intoxicated. Don't *miss* the study for even one day.

Blessing: May you be a world server and sow the seeds of love of God's family through out the world. You world server children are sowing the seeds of love of God's family throughout the world. No matter whether someone is an atheist or a theist, to give everyone the experience of alokik love, God's love and altruistic love is to sow the seeds. These seeds make the tree of co-operation grow automatically so that you are able to see the fruit of others becoming easy yogis at the right time. It is just that some fruit emerges earlier and other fruit emerges at its own time.

Slogan: To know, recognise and become the *direct* children of the Bestower of Fortune is the greatest fortune.
