

Essence: Sweet children, you have now become God's children, therefore there should be no devilish traits within you. Make progress, not mistakes.

Question: What faith and intoxication do you Brahmin children of the confluence age have?

Answer: We children have the faith and intoxication that we now belong to God's community. We are becoming residents of heaven, the masters of the world. We are being *transferred* at the confluence age. From being devilish children, we have become Godly children and are to become residents of heaven for 21 births. There is nothing greater than this.

Om shanti. The Father sits here and explains to the children. Human beings generally like peace. When the children in a family are in conflict or upheaval, there is peacelessness. When there is peacelessness, sorrow is experienced. When there is peace, happiness is experienced. You children sitting here have true peace. You have been told: Remember the Father. Consider yourself to be a soul. The peacelessness that has been within you souls for half the cycle will be removed by your remembering the Father, the Ocean of Peace. You are receiving your inheritance of peace. You know that the world of peace is completely separate from the world of peacelessness. Human beings do not understand what the devil's world is or what God's world is, what the golden age is or what the iron age is. No matter how great a *position* you had you too say that you didn't know this. Those who have money are said to have *position*. You can understand who the poor are and who the wealthy are. In the same way, you can also understand that there are God's children and the devil's children. You sweet children now understand that you are God's children. You have this firm faith, do you not? You Brahmins, who belong to God's community, understand that you are becoming the residents of heaven and the masters of the world. There should be this happiness all the time. Very few of you understand this accurately. In the golden age, there is God's community whereas in the iron age, there is the devil's community. The devil's community changes at the most auspicious confluence age. We have now become the children of Shiv Baba. We forgot this in the middle period. We understand at this time that we have become the children of Shiv Baba. There, in the golden age, no one would call himself a child of God. There, they are children of the deities. Before now, we were devilish children. We have now become God's children. We Brahmins are Brahma Kumars and Kumaris. We are the creation of the one Father. All of you are brothers and sisters and you are the children of God. You know that you are receiving your kingdom from Baba. In the future, we will attain our divine self-sovereignty and will be happy. The golden age really is the land of happiness and the iron age really is the land of sorrow. Only you Brahmins of the confluence age know this. Souls are the children of God. You know that Baba is creating heaven. He is the Creator. He is not the *creator* of hell. Who would remember him? You sweetest children know that the Father is establishing heaven. He is our very sweet Father. He is making us into the residents of heaven for 21 births. There is nothing greater than this. You should have the understanding that you are the children of God, therefore you should not have any devilish traits within you. You have to make progress. Very little time remains. Therefore, make no mistakes. Do not forget this. You can see that the Father, whose children you are, is sitting in front of you, face to face. We are studying with God, the Father, in order to become the children of deities. Therefore, there should be so much happiness. Baba simply says: Just remember Me and your sins will be absolved. The Father has come to take everyone back home. The more you remember Him, the more your sins will be absolved. On the path of ignorance, when a girl gets engaged, that remembrance is firmly imprinted within her. As soon as a baby is born, that remembrance is imprinted. That remembrance is imprinted in heaven and also in hell. A child would say, "This is my father." However, this One is your unlimited Father from whom you are to receive your inheritance of heaven. Therefore, it is remembrance of Him that should now be imprinted within you. We are once again receiving our inheritance from the Father for our future 21 births. Only that inheritance should be in your intellect. You know that everyone has to die. Not a single one will remain here. Even your *dearest of dearest* have to return. Only you Brahmins know that this old world is now about to end. Before it ends, make full effort. Since you are the children of God, you should have limitless happiness. The Father continually says: Children, make your life like a diamond. That is the *deity world* and this is the *devil world*. There is limitless happiness in the golden age. Only the Father can give that

happiness. You have come here to the Father. You cannot just stay here. You cannot all stay here together because you children are unlimited. You come here feeling a lot of enthusiasm that you have come to the unlimited Father. We are the children of God. We are the children of *God*, the *Father*. So, why are we not in heaven? *God*, the *Father*, creates heaven, does He not? The *history* and *geography* of the whole world is in your intellect. You know that *Heavenly God*, the *Father*, is making you worthy of *heaven*. He makes you that every cycle. Not a single human being knows that he is an *actor*. We are the children of *God*, the *Father*, and so why should we be unhappy? Why do we fight among ourselves? All of us souls are *brothers*. Look how *brothers* fight among themselves. They will fight and destroy one another. Here, we are claiming our inheritance from the Father. *Brothers* should never be like salt water with each other. Even here, some become like salt water with the Father. Even very good children become like salt water. Maya is so powerful. The Father definitely remembers very good children. The Father has so much *love* for the children. The Father has no one but His children to remember. You have many to remember. Your intellect goes here and there. Your intellect also goes to your business. I don't have any business etc. All of you children have many businesses. I just have the one business. I have come to make you children into the heirs of heaven. The only *property* that the unlimited Father has is you children. He is *God*, the *Father*. All souls are His *property*. Maya has made you dirty. The Father now makes you beautiful. The Father says: I only have you. I have attachment to you. When you don't write a letter, the Father becomes concerned. Even some very good children don't send a letter. Maya completely finishes off good children. There must definitely be body consciousness. The Father tells you always to write to Him about how you are. Baba asks: Children, Maya isn't troubling you, is she? You remain courageous and are conquering Maya, are you not? You are on the battlefield, are you not? You should be controlling your physical organs in such a way that they don't cause any mischief. In the golden age, all your physical senses are under control. Your physical organs play no mischief there. There is no question of any type of mischief of your mouth, hands or ears. There is nothing dirty there. Here, you gain victory over your physical organs with the power of yoga. The Father says: There is nothing dirty there. You have to control your physical organs. Make effort very well; very little *time* remains. It is remembered that a lot of time has passed and that only a little time remains. Now even less time remains. When a new house is being built, it remains in your intellect that very little time is left (before it is completed), that it will soon be ready, that only a little work has to be done. That aspect is limited whereas this aspect is unlimited. It has been explained to you children that theirs is the power of *science* whereas yours is the power of *silence*. Their power is of the intellect and your power too is of the intellect. So many *inventions* have been created through *science*. They say that they have now invented such *bombs* that wherever they may be, they can have those bombs dropped and wipe out a whole city. Then, none of the armies and *aeroplanes* etc. will be of any use. Therefore, that intellect is of *science*. Your intellect is of *silence*. They are instruments for destruction. You have become instruments for claiming an imperishable status. Even to understand this, you need an intellect. You children can understand how easy the path that the Father is showing you is. No matter how stone-headed or hunch-backed you are, simply remember two words: The Father and the inheritance. Then, everything depends on how much you remember. Break away from everyone else and remember the one Father. The Father says: On the path of *bhakti*, you called out to Me when I was in my home in the supreme abode: Baba, when You come, I will surrender everything to You. That was like the special brahmin priest who takes all the old things of someone who has died. What will you give to the Father? You do not give everything to this one (Brahma), do you? This one also gave away everything he had. This one is not going to sit here and build a palace for himself. All of this is for Shiv Baba. We are doing everything according to His *directions*. He is Karankaravanhar. He continues to give *directions*. Children say: Baba, You are the only One for me, but You have many children. Baba then says: I only have you children, whereas you have so many others. You remember so many bodily relatives. The Father says to His sweetest children: Remember the Father as much as possible and continue to forget everyone else. You receive the butter of sovereignty of heaven. Just think about how this play has been created. Simply by remembering the Father and spinning the discus of self-realisation, you become rulers of the globe. You children now experience

this in a *practical* way. Human beings believe that bhakti has continued from time immemorial and that the vices have also continued from time immemorial. Lakshmi and Narayan, who were Radhe and Krishna, also had children, did they not? Yes, why would they not have had children? They are called completely viceless. Here, everyone is completely vicious. They continue to insult one another. You children are now receiving shrimat from the Shri Shri (doubly elevated) Father. He is making you elevated. You can't become this if you don't obey the Father. It is up to you whether or not you obey. Obedient children will instantly obey Him. When you don't help fully, you cause yourself a loss. The Father says: I come every cycle. I inspire you so much to make effort. I bring you so much happiness. While you are claiming your full inheritance from the Father, Maya inspires you to make mistakes. However, you mustn't get caught in that trap. Your only war is with Maya. Many very big storms will come. In those too, Maya will attack the heirs the most. She becomes powerful and fights with the powerful ones. When a herbalist gives someone medicine, all his internal illness erupts. Here too, when you belong to Me, you will begin to remember everyone else. Storms will come, but you must keep your *line clear*. For the first half cycle, we were pure. Then, for the second half, we became impure. We now have to return home. The Father says: Remember Me and your sins will be absolved with this fire of yoga! The more you remember Me, the higher the status you will claim. While remembering Me, you will return home. You need to be completely introverted in this. *Knowledge* is imbibed by the soul. It is the soul that studies. It is the Father, the Supreme Soul, who comes and gives knowledge of the soul. You are receiving such important knowledge in order to become the masters of the world. You call Me the Purifier, the Ocean of Knowledge and the Ocean of Peace. I give you everything I have. The only thing I don't give you is the key to divine vision. Instead of that, I make you into the masters of the world. There is nothing to gain by having visions. The main thing is this study. You receive happiness for 21 births through this study. Compare the happiness you have against the happiness that Meera had. She was in the iron age; she had visions, but then what? The rosary of bhakti is separate from the rosary of the path of knowledge. Ravan's kingdom is separate from your kingdom. That is called the night whereas this is called the day. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Control your physical organs in such a way with the power of yoga that no mischief remains. There is very little *time* left. Therefore, make effort very well and become a conqueror of Maya.
2. Imbibe the knowledge that the Father gives by remaining introverted. Never become like salt water with each other. Definitely send the Father news of your welfare.

Blessing:

May you be constantly unshakeable and immovable and always have zeal and enthusiasm by remaining aware of the Father and the attainment.

Always keep in front of you a *list* of all the attainments you have received from the Father from birth. When the attainment is unshakeable and immovable, then your zeal and enthusiasm should also be unshakeable and immovable. If, instead of being unshakeable your mind sometimes becomes mischievous, or if your stage causes mischief, the reason for that is that you don't always keep the Father and the attainment in front of you. If the experience of all attainments always stays in front of you and in your awareness, all obstacles will end. You will then always have new zeal and enthusiasm. Your stage will remain unshakeable and immovable.

Slogan:

To remain constantly content in any type of service means to claim good *marks*.
