

Essence: Sweet children, you are creating your fortune for the future new world. This Raja Yoga of yours is for the new world.

Question: What are the main signs of fortunate children?

Answer: 1. Fortunate children follow shrimat according to the law. They do not perform actions against the law and then deceive themselves or the Father. 2. They take full interest in their study and in explaining to others. 3. They make effort to *pass with honours* and claim a *scholarship*. 4. They never cause anyone sorrow. They never perform wrong actions.

Song: I have come with my fortune awakened ...

Om shanti. Sweetest, spiritual children heard the song. The new ones heard it and the old ones also heard it; the kumaris also heard it. This is a place of study. People go to a place of study in order to create one kind or fortune or another. There are many types of fortune there. Some create the fortune of becoming a *surgeon* and others create the fortune of becoming a *barrister*. Fortune is also called the *aim* and *objective*. Why would you study at school unless it was for creating your fortune? Here, you children know that you have come having awakened your fortune to claim your fortune of the kingdom of the new world. This is Raja Yoga for the new world. Those people become *barristers*, *engineers* or *surgeons* for the old world. There is now very little *time* left in the old world for becoming that. It will soon end. That fortune is for this land of death, for this birth. Your study is for the new world. You have come having created your fortune for the new world. You will receive your fortune of the kingdom in the new world. Who is teaching you? The unlimited Father from whom you claim your inheritance. *Doctors* receive their inheritance of the knowledge of a *doctor* through their study. Then, when they become old they go to their guru. What do they want? They ask: Give us guidance on how to go to the land of peace. Grant us salvation! Take us away from here to the land of peace! You receive your inheritance from your father for this birth, but you don't receive anything from a guru. You receive some sort of inheritance from your *teacher* because you need a livelihood. Even though you receive an inheritance from your father, you still study to earn your own income. There is no income earned from a guru. Yes, some study the Gita very well and then give lectures on the Gita. All of that is for temporary happiness. It is now the end of this land of death. You know that you have come here to create your fortune for the new world. This old world has to end. Your own property and the property you receive from your father will all be burnt. You will then go back empty-handed. You now need an income for the new world. People of the old world will not be able to do this. It is Shiv Baba who inspires you to earn an income for the new world. You have come here to create your fortune for the new world. That Father is your Father, *Teacher* and Guru. He comes at the confluence age in order to teach you to earn an income for the future. There are now only a few more days left in this old world. People of the world don't know this. You children know that He is our Father, *Teacher* and Satguru for the new world. The Father comes to take you to the land of peace and the land of happiness. Some don't make their fortune, that is, they don't understand anything. In the same family, the wife would be studying this, whereas the husband would not. Or, the children would be studying this and the parents would not. This continues to happen all the time. In the beginning, whole families came but when there were storms of Maya, those who were amazed by the knowledge who then related it to others, left the Father and went away. It is remembered that those who were amazed on hearing this knowledge, related it to others, belonged to the Father, taught it to others and then, wonderful destiny of the *drama*! Therefore, it is just a question of the *drama*. The Father Himself says: Oh *Drama*! Oh *Maya*! Whom did you divorce? Husband and wife *divorce* each other. Children divorce their father. It isn't like that here. Here, you cannot get a *divorce*. The Father has come to make you children earn a true income. The Father does not make anyone fall into a pit. The Father is the Purifier, the Merciful One. The Father comes and *liberates* you from sorrow. He becomes your *Guide* and takes you back home. A worldly guru does not say that he will take you back with Him. In the scriptures it says: God speaks: I will take all of you back with Me. Everyone will return like a swarm of mosquitoes. You children know very well that you now have to return home. You have to renounce your body. When you die, the world is dead for you. Simply consider yourself to be a soul and remember the Father. This is a dirty old costume. Even this world is old. When they are sitting in an old home and a new house is being built, the father and the children all understand that

it is for them. Their intellect would be drawn to the new home: Do this here and do that there. The intellect is connected to the new home and they then demolish the old one. All attachment to the old home is finished and forged with the new home. This is a matter of the unlimited world. Finish your attachment to the old world and connect your intellect to the new world. You know that this old world is to be destroyed. The new world is heaven and we are claiming our royal status for that. The more yoga we have, the more we imbibe knowledge and explain to others, the more our mercury of happiness will rise. Since we are claiming our inheritance for 21 births, the examination is very important. It is good to become wealthy, is it not? It is good if you have a long life, is it not? The more you spin the discus of self-realisation, the more you make others similar to yourselves, the more you will benefit. If you want to become a king you also have to create subjects. So many come to the exhibitions and subjects are being created through that because this imperishable knowledge is never destroyed. It will enter their intellect that they have to become pure and become a master of the pure world. The kingdom of Rama is being established and the kingdom of Ravan will be destroyed. In the golden age, there will just be deities. Baba has explained that the picture you create of Lakshmi and Narayan should have this writing on it: In their previous birth they were in the tamopradhan world. Then, by making this effort, from being in the tamopradhan world, they become the masters of the satopradhan world. The kings and the subjects are all masters. Even the subjects would say that their Bharat is the most elevated of all. Truly Bharat was the most elevated of all. It is not that now, but it definitely was that. It has now become very poor. Ancient Bharat was the wealthiest of all. We people of Bharat belonged to the highest deity clan. Others cannot be called deities. You daughters are studying and you also explain to others. Baba has given you *directions* about how to write and send telegrams for holding exhibitions. You have the pictures and you can prove to them and show them how they claimed their status. They are now once again claiming that status from Shiv Baba. Their images also exist. Shiva is the Supreme Father, the Supreme Soul. There are also the images of Brahma, Vishnu and Shankar. The Supreme Father, the Supreme Soul, is carrying out establishment through Brahma. The land of Vishnu is just ahead. The new world is sustained by Vishnu. Vishnu is the dual-form of Radhe and Krishna. Who is the God of the Gita? First of all, write down that the God of the Gita is incorporeal Shiva and not Krishna. How does Brahma become Vishnu and Vishnu become Brahma? It takes so much *time* to explain just the one picture because it has to sit in their intellect. You should first explain this and then write: The Father says: With the power of yoga you claim all rights for 21 births through Brahma. Shiv Baba is giving you your inheritance through Brahma. It is this one's soul who hears everything first. It is the soul that imbibes everything. This is the main thing. They show images of Shiva. This is the Supreme Father, the Supreme Soul, Shiva, and then Prajapita Brahma is definitely needed. Here, there are so many Brahma Kumars and Kumaris of Prajapita Brahma. Unless you become Brahmins, the children of Brahma, how can you claim your inheritance from Shiv Baba? They cannot be a physical creation. "Mouth-born creation" is remembered. You would say that you are the mouth-born creation of Prajapita Brahma. Those people are the disciples or *followers* of the gurus. Here, you call that One the Father, *Teacher* and Satguru. That is the One who is Incorporeal Shiv Baba, the Ocean of Knowledge, the One who is *knowledge-full*. He gives us the knowledge of the beginning, the middle and the end of the world. He is also the *Teacher*. The Incorporeal comes and speaks to you through the corporeal. It is the soul that speaks. The soul says: Don't give trouble to my body. It is the soul that becomes unhappy. At this time, souls are impure. It is the Supreme Father, the Supreme Soul, who purifies impure souls. Souls call out: Oh Purifier! Oh *God, the Father!* They have a *father* sitting there. So whom are they remembering? The soul says: This is the *Father* of me, the soul, whereas that one is the *father* of my body. It is explained whether it is the incorporeal Father of the soul who is greater or the corporeal father, the creator of the body, who is greater. The corporeal one also remembers the incorporeal One. Since destruction is just ahead of you, everyone has to be given the explanation. The parlokik Father comes at the end in order to take everyone back home. Everything else is to be destroyed. This is called the land of death. When someone dies, people say that he has gone to the world beyond, the land of peace. People don't know whether the world beyond (parlok) is the golden age or the land of peace. The golden age exists here. The world beyond is the land of peace. In order to explain, the right method is needed. You should go and explain at the temples: This is the

memorial of Shiv Baba who is teaching us. In fact, Shiva is just a point, but how can a point be worshipped? How can flowers and fruit be offered to Him? This is why they have given Him a big form. He doesn't have such a big form. It is remembered that a wonderful star sparkles in the centre of the forehead. If the soul were a big thing, scientists would be able to catch it. Baba says that they haven't received the full introduction of the Supreme Father, the Supreme Soul. They cannot receive it until their fortune opens. As yet their fortune hasn't opened. Until they know the Father they cannot understand that their soul is also like a point. Shiv Baba is a point and we are remembering a point. Only when you remember Him in this awareness can your sins be absolved. However, when you say, "I can see this" or, "I can see that!" in visions, those are obstacles of Maya. You have the happiness that you have now found God, but knowledge is also needed. When someone has a vision of Krishna he becomes happy. Baba says: They have a vision of Krishna and *dance* in happiness a great deal, but they don't attain salvation through that. Those visions are granted just by chance. If you don't study well you become part of the subjects. If someone hears just a little knowledge, he becomes part of the ordinary subjects in the land of Krishna. You children know that Shiv Baba is now speaking the *knowledge* to you. He is *knowledge-full*. Baba's orders are: Definitely remain pure! However, some are unable to remain pure. Sometimes, even impure ones come and sit here secretly. They cause themselves a loss. They are only cheating themselves. There is no question of cheating the Father. Are you going to obtain money by cheating the Father? What will your condition be if you don't follow Shiv Baba's shrimat accurately? There will be a lot of punishment and your status will also be destroyed. Don't perform actions against the law. The Father explains that your behaviour isn't right. The Father shows you the way to earn an income. Then it is your fortune whether you do that or not. Everyone has to return to the land of peace after experiencing punishment. If your status is destroyed you receive nothing. Many come here, but it is a question of claiming your inheritance from the Father. Children say: I will claim the royal status of the sun dynasty of heaven from the Father. This is Raja Yoga. *Students* win a *scholarship*. Those who *pass* receive a *scholarship*. That rosary is created to represent those who won a *scholarship*. Each of you will receive a *scholarship* according to the extent you *pass*. The number of you will grow and there will then be thousands. The royal status is the *scholarship*. Those who study well cannot remain incognito. Many new ones will be able to go ahead of the older ones. They will make their lives like diamonds. They will earn their true income and claim their inheritance for 21 births. They have so much happiness. You know that if you don't claim this inheritance now, you will never be able to claim it again. There has to be an interest in the study. Some don't have the slightest interest in explaining to anyone. If, according to the *drama*, they don't have it in their fortune, what can God do? Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Don't perform any action against shrimat. Study well and create an elevated fortune. Don't cause anyone sorrow.
2. Finish your attachment to the old world. Connect your intellect's yoga to the new world. In order to remain happy, imbibe knowledge and also inspire others to imbibe it.

Blessing: May you receive the blessing of being a karma yogi from the instrument souls and become a *master* bestower of blessings.

When you have seen something being done practically, you can easily imbibe that. Therefore, whatever inspiration you receive on seeing the service, renunciation, love and practical actions of the elevated instrument souls co-operating with everyone, that becomes a blessing for you. When you see the instrument souls performing actions with the imbibing of these virtues, it is as though you receive a blessing to become an easy karma yogi. Those who continue to receive such blessings become master bestowers of blessings themselves.

Slogan: To do service just for earning a name means to put your name back in earning a high status.
