

Essence: Sweet children, wake up early in the morning and say to Baba with a lot of love from the depths of your heart: Baba, *good morning*. Then think about knowledge and the mercury of your happiness will then remain high.

Question: What three things are necessary for *accurate* remembrance? If remembrance is accurate, what are its signs?

Answer: For *accurate* remembrance, you need 1) Patience, 2) Maturity, 3) Understanding. These three things are needed. Those whose remembrance is accurate receive a greater *current* because remembrance begets remembrance. Only through remembrance does the soul become satopradhan and your lifespan increase. You also experience a *searchlight* from Baba.

Om shanti. The Father says: Sweet children. The same applies to you, that is, your souls are also embodiments of knowledge. The original religion of all of you souls is peace. You come here from the land of peace and then come into 'talkie'. You receive those physical organs to play your *part*. The soul doesn't become larger or smaller. It is the body that becomes larger or smaller. The Father says: I am not a bodily being. I have to come to meet you children personally, face to face. For instance, children created by a father would not say that they have come from the supreme abode, taken birth and have come to meet the mother and father. Even though new souls enter someone else's body, or an older soul enters someone's body, it would not be said that that soul has come to meet the mother and father. The soul *automatically* receives a mother and father. Here, this is something new. The Father says: I come from the supreme abode and am now personally in front of you children. I give you children *knowledge* once again because I am *knowledge-full*. I, the Ocean of Knowledge, come to teach you children Raja Yoga. It is only God who teaches Raja Yoga. This Godly *part* is not that of the Krishna soul. Each one's *part* is their own; God's *part* is His own. Only now do you understand how *wonderfully* this *drama* has been created. If you just remember that this is the confluence-age it becomes firm that you are going to go to the golden age. You are now at the confluence age and you are going to go to your home and you therefore definitely have to become pure. Internally, you should have a lot of happiness. Oho! The unlimited Father says: Sweetest children, remember Me and you will become satopradhan; you will become the masters of the world. The Father gives so much love to you children. It is not that He simply teaches you in the form of the *Teacher* and then goes back home. He is the Father and also the *Teacher*. He is also teaching you; He is teaching you the pilgrimage of remembrance. You should have a lot of love for the Father who purifies you and makes you, from being impure, into the masters of the world. When you wake up early in the morning, you should first of all say "*Good morning*" to Shiv Baba. The more you remember Him with love, the happier you will remain. You children have to ask your heart: How much do I remember the unlimited Father after waking up in the morning? People perform devotion in the morning. They worship with so much love. However, Baba knows that some children don't remember the Father from deep within their heart with that much love. If you wake up early in the morning and say "*Good morning*" to Baba and churn knowledge, the mercury of your happiness can rise. If you don't say "*Good morning*" to the Father, how would the burden of sin be removed? The main thing is remembrance. Through this, you earn a very important income for the future; this income will be useful to you for cycle after cycle. You have to have remembrance with a lot of patience, maturity and understanding. In general terms, although you say that you remember Baba a great deal, it requires effort to have *accurate* remembrance. Those who remember the Father more receive more *current* because remembrance begets remembrance. There are the two things: yoga and knowledge. The *subject* of yoga is separate. It is a very important *subject*. It is with yoga that the soul becomes satopradhan. Without remembrance, it is impossible to become satopradhan. If you remember the Father very well with a lot of love, you will *automatically* receive a *current* and become *healthy*. Your lifespan also increases through that *current*. When children remember Baba, He gives them a *searchlight*. The Father gives you children such a great treasure. Sweet children, remember firmly that Shiv Baba is teaching you. Shiv Baba is the Purifier and also the Bestower of Salvation. Salvation means He gives you the kingdom of heaven. Baba is so sweet. He sits and teaches you children with so much love. The Father is teaching us through Dada.

Baba is so sweet and He gives us so much love. He doesn't give us any difficulty. He simply says: Remember Me and remember the cycle. Your heart should become fixed in remembrance of the Father. You should be harassed by remembrance of only the one Father because you receive such a huge inheritance from the Father. You should check yourself: How much *love* do I have for the Father? To what extent do I have the divine virtues in me? You children are now changing from thorns into flowers. To the extent that you stay in yoga, accordingly, you will continue to become flowers from thorns and satopradhan. Once you have become flowers you will not be able to stay here. The garden of flowers is heaven. Those who change many thorns into flowers are said to be the truly fragrant flowers. They never prick anyone. Anger is also a big thorn. It causes sorrow for many. You children have now stepped away from the world of thorns and are now at the confluence age. Just as a gardener puts flowers in separate containers, in the same way you flowers of the confluence age have been placed separately. Then, you flowers will go to heaven and the iron-aged thorns will be burnt. You sweet children know that you are receiving an imperishable inheritance from the parlokik Father. Those who are true children, who have complete *love* for BapDada, will have a lot of happiness: We are becoming the masters of the world. Yes, it is with effort that you become a master of the world, not just by saying it. Those who are special, beloved children will always remember that they are once again establishing those same sun and moon dynasty kingdoms for themselves. The Father says: Sweet children, the more you benefit many others, the more return you will receive. If you show the path to many others, you will receive blessings from many. You have to fill your aprons with the jewels of knowledge and then donate them. The Ocean of Knowledge is giving you platefuls of jewels. Those who donate those jewels are loved by everyone. Children should have so much happiness in themselves. *Sensible* children will say: We will claim the full inheritance from Baba. They cling to the Father completely. They have a lot of *love* for the Father because they know that they have found the Father who gives them life. He gives such a blessing of *knowledge* that you completely change from what you were. You become *solvent* from *insolvent*. He fills your treasure-store to this extent. To the extent that you remember the Father, accordingly, there will be a pull. When a needle is clean, it is pulled towards the magnet. The rust will continue to be removed through remembrance of the Father. Remember no one except the one Father. Just as a wife has so much *love* for her husband so you too are now engaged. Does the happiness of being engaged ever become any less? Shiv Baba says: Sweet children, you are engaged to Me, not to Brahma. Once your engagement has become firm, you should be harassed by remembrance of Him. The Father explains: Sweet children, do not become careless and make mistakes. Be a spinner of the discus of self-realisation and become a *lighthouse*. By becoming a spinner of the discus of self-realisation, you will develop very good *practice*, and it will then be as though you have become an ocean of knowledge. Just as *students* study and become *teachers* so this is also your business. Make everyone into a spinner of the discus of self-realisation for only then will you become a king and queen who are rulers of the globe. This is why Baba always asks you children: Children, are you sitting here as the spinners of the discus of self-realisation? The Father is also the Spinner of the discus of self-realisation. The Father has come to take you sweet children back home. Without you sweet children, even I feel restless. When the time comes, I get restless: I should now go! Children are calling out a lot and are very unhappy. Baba has mercy. You children now have to return home. Then, from there, you will go to the land of happiness by yourself. I will not be your Companion there. You souls will go back according to your own stage. You children should have the intoxication that you are studying in this spiritual *university*. We are *Godly students*. We are studying in order to change from human beings into deities, that is, to become the masters of the world. Through this, we receive all *degrees* of health, of education; we study this knowledge to reform our *character*. *Health Ministry, Food Ministry, Land Ministry and Building Ministry* are all included in this. You are also great *treasurers*. No one else can have the invaluable treasures that you have. You children should churn the ocean of knowledge in this way and have spiritual intoxication. The Father sits and explains to the sweetest children: When you are giving a lecture or explaining to someone in the gathering, then repeatedly say: Consider yourself to be a soul and remember the Supreme Father, the Supreme Soul. Only through this remembrance will your sins be absolved and you will become pure. You have to remember

this again and again. However, you can only tell others this when you yourself are in remembrance. Children are very weak in this aspect. If you stay in remembrance, what you explain to others will then have an impact. You should not speak too much. If you explain even a little in a state of soul consciousness, the arrow will strike the target. The Father says: Children, the past is the past. First of all reform yourself. If you yourself do not have remembrance and continue to tell others, this cheating cannot continue. Internally, your heart will definitely bite you. If you don't have full *love* for the Father, you don't follow *shrimat*. No one else can give the teachings that the unlimited Father gives. The Father says: Sweet children, now forget this old world. At the end, you have to forget all of these things. Your intellect is then connected to your land of peace and land of happiness. By remembering the Father, you have to go to the Father. Impure souls cannot go back because that is the home of pure souls. This body is made up of the five elements. So, the five elements pull you to stay here because it is as though the soul has taken that *property* and this is why there is attachment to the body. You now have to remove that attachment and return home. These five elements do not exist there. In the golden age, bodies are created with the power of yoga and matter is *satopradhan*, and this is why there is no pull or any sorrow. These are very refined things to understand. Here, the power of the five elements pull the soul and this is why it doesn't have the heart to leave the body. Otherwise, there should be even greater happiness. Having become pure, you will leave your body just as a hair is pulled out of butter. So, you have to finish your attachment to the body and everything else completely as though you have no *connection* with any of it. Simply: I am now going to Baba. You have prepared your *bags and baggage* in advance to send on. They cannot go with you, because souls have to return home and the bodies have to be shed here. Baba has already given you a vision of the new body. You will receive palaces studded with diamonds and jewels. You should make so much effort to go to such a land of happiness. You must never become tired. Day and night, earn a lot of income. This is why Baba says: Children who are conquerors of sleep, constantly remember Me alone and churn the ocean of knowledge. By keeping the secrets of the *drama* in your intellect, it becomes completely cool and serene. Maharathi children will never fluctuate. If you remember Shiv Baba, He will look after you. The Father liberates you children from sorrow and gives you the donation of peace. You too have to give the donation of peace. This unlimited peace of yours, that is, the power of yoga will completely silence others. You will instantly know whether someone belongs to your home or not. The soul will quickly be pulled: This is our Baba. You also have to feel the pulse. Stay in remembrance of the Father and then see whether that soul belongs to your clan or not. If he does, the soul will become completely quiet. Only those who belong to this clan will experience the sweetness of these things. When you children remember the Father, He loves you. It is for the soul that there is love. You also know that only those who have done a lot of devotion will study the maximum. From their face, you will continue to see how much *love* they have for the Father. Souls see the Father and the Father is teaching us souls. The Father too understands: I am teaching such tiny souls, points. As you progress further, your stage will become like that. You will understand that you are teaching your brothers. Even though the face may be that of a sister, your vision should go to the soul. For your vision not to go to the body at all requires a lot of effort. These are very refined things and the study is very elevated. If you weigh it, the side of this study would be very heavy. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Become truly fragrant flowers and give happiness to everyone. Never prick anyone as a thorn does. Remove the thorn of anger.
2. *Practise* becoming a spinner of the discus of self-realisation, become a master ocean of knowledge and a *lighthouse* and make others the same. Do not become careless and make mistakes.

Blessing: May you become a victorious jewel who gains victory over all limits and experiences the form of being karmateet.

The main essence of all four *subjects* of this study is 'unlimited'. To stabilise yourself in the form of the word 'unlimited' is the *first* and *last* effort. First of all, you go beyond the limit of the body and remain stable in the unlimited form of the bodiless soul and die alive, and at the end you become angels who are beyond all limited relationships. Those who gain victory over all limits and become stable in the unlimited form and who become unlimited servers become victorious jewels; they can experience the form of the final karmateet stage.

Slogan: When you have the intention of transforming yourself, you will continue to achieve success in the gathering.
