Have a loving intellect and you will remain full with incognito happiness.

Song: Having found You, we have found the whole world.

Om shanti. Sweetest spiritual children heard the song. At the moment there are few children, but there will be many children later. Everyone has to know Prajapita Brahma. Those of all religions will believe in him. Baba has explained that the physical fathers are also limited Brahmas. Their genealogical tree is based on their *surname*. This here is unlimited. His name is Prajapita Brahma. A limited Brahma creates the people to a *limited* extent: some create two to four children whereas others don't create any. You cannot say of this one that he doesn't have any children. The people of the whole world are His children. Both the unlimited Bap and Dada have a lot of spiritual *love* for the sweetest children. They teach the children with so much *love* and make them so elevated from what they were. So, the mercury of happiness should remain high in you children. The mercury of happiness will rise when you constantly continue to remember the Father. Every cycle, the Father does the service of making you children pure with a lot of love. He makes everyone, including the elements, pure. He changes you from shells into diamonds. This is such unlimited service. The Father gives teachings to you children with a lot of love because it is the duty of a father and a teacher to reform children. You become elevated with the elevated directions from the Father. You children should check your *chart* to see whether you are following shrimat or your own directions. You will become *accurate* by following shrimat. The more love you have for the Father in your intellect, the more you will remain full of incognito happiness. You have to ask your heart: Do I have the happiness that reaches the very top of my brain? Do I have unadulterated remembrance? I do not have any desires, do I? Do I remember the one Father? The soul should leave the body when spinning the discus of self-realisation. One Shiv Baba and none other: this is the final mantra.

The Father asks you spiritual children: Sweet children, when you see BapDada in front of you, it enters your intellects that your Baba is the Father, the Teacher and also the Satguru. The Father is taking us from this old world to the new world. This old world is now about to be finished. It is now of no use. The Father makes it new every cycle. We change from ordinary human beings into Narayan every cycle. You children should churn this and maintain so much enthusiasm. Children, there is very little time. What are you today and what will you be tomorrow? It is a game of today and tomorrow and, therefore, you children should not make any mistakes. The activity of you children should be very *royal*. Look at yourself: Is my activity like that of the deities? Is my brain like that of the deities? Am I becoming like my aim is, or is it just talk? You have to remain intoxicated with the *knowledge* that you receive. The more you churn these things while introverted, the more happiness you will have. You children know that there is little time left to go from this world to that world. Since you have left that world, why should you look behind? Why does the yoga of your intellect go in that direction? You have to use your intellect in this. Why should your intellect go there once you have gone beyond it? Do not think about the things that have passed. Do not have any hopes for this old world. You just have to have one elevated desire now: we are going to go to our land of happiness. We mustn't stop anywhere. We mustn't look anywhere else. Simply continue to move ahead. Continue to look in one direction because only then will your stage remain unshakeable, immovable and stable. Times are becoming very delicate and the conditions of this old world are getting worse. You don't have any *connection* with it. Your *connection* is with the new world which is being established now. The Father has explained that the cycle of 84 has now ended. This world now definitely has to end. It is in a very *serious* condition. At this time, the elements are the most angry of all and this is why they are destroying everything. You know that the elements will show their anger with force and will drown the whole of the old world. There will be *floods* and there will be fire. People will starve. Buildings will fall; everything will fall in the *earthquakes*. All of these conditions are going to come in the whole world. Death will take place in many ways. There will be such *gas bombs* that people will die through their smell. All of this *drama-plan* has been created. It is no one's fault. Destruction is definitely going to take place. Therefore, you have to remove your intellect's yoga from this old world. You now say, "Wah Satguru!", because He has shown you the path. Our true Guru is the one Baba whose name has continued on the path

of devotion and whose praise is sung. You children say: Wah Satguru! Wah! Wah fortune! Wah! Wah drama! Wah! We are receiving salvation through the Father's knowledge.

You children have become instruments to establish peace in the world. Give everyone the good news that the new Bharat, the new world in which there was the kingdom of Lakshmi and Narayan, is now being established once again. This land of sorrow is changing to the land of happiness. Internally, you should have the happiness that you are becoming the masters of the land of happiness. There, no one will ask you: Are you happy and content? Is your health OK? These questions are asked here because this is the world of sorrow. No one can ask you children this question either. You would reply: We are the children of God. How can you ask us about our welfare? We are always happy and content. We have greater happiness here than in heaven because we have found the One who establishes heaven. Having found the Father, we have found everything. We were concerned to meet the Father who lived beyond, in the element of brahm, and now that we have found Him, what else should we be concerned about? You should always have this intoxication. Become very *royal* and very sweet. Now is the time to make your fortune very elevated. The main method to become multimillionaires is to be cautious at every step. Become introverted. Always pay attention to this: Whatever actions I perform, others who see me will do the same. We have been sowing seeds of ego of the body and of the vices for half the cycle. These seeds are sown in the whole world. Now, all of that has to be *merged*. Do not sow seeds of body consciousness. Sow seeds of soul consciousness. It is now your stage of retirement. You have found the *most beloved* Father and so remember only Him. It is a mistake to remember your body or bodily beings instead of the Father. You have to make a lot of effort to become soul conscious and to become cool.

Sweet children, you must never be distressed with this *life* of yours. This life is remembered as an invaluable life. You have to look after it. Together with that, you must also earn an income. For however many days you are here, remember the Father and continue to earn your limitless income. Your karmic accounts will continue to be settled. Therefore, never become distressed. Children ask: Baba, when will the golden age come? Baba says: Children, first of all make your stage karmateet. However much time you have, make effort to become karmateet. Children also need a lot of courage to become the destroyers of attachment. In order to claim your full inheritance from the unlimited Father, you have to become a destroyer of attachment. You have to make your stage very elevated. You now belong to the Father and so engage yourself in His alokik service. Your nature has to become very sweet. It is people's nature that harasses them a lot. Continue to check yourself with the third eye of knowledge that you have received. Remove whatever *defects* you have and become a *pure diamond*. If there is the slightest defect, your *value* will be reduced. Therefore, make effort and make yourself into a *valuable* diamond.

You children are receiving unlimited nourishment. It is said: There is no nourishment like that of happiness. If you have any thoughts or concern about any situation, then that has an *effect* on your body too. You children do not have any concern. In order for you to remain in happiness and pleasure for 21 births, the Father is giving you spiritual nourishment. Continue to feed one other this nourishment. This is *first-class* nourishment of knowledge and yoga. Manmanabhav! Madhyajibhav! This nourishment is just these two *versions*. You children are now becoming free from the bondages of this old world and your relationship is now with the new world. Bondages are always of sorrow and this relationship is one of constant happiness. The Father is now inspiring you to make effort for the relationships of the new world. Sweet children, now have a relationship with the unlimited Father and the inheritance of unlimited happiness. It is only the one unlimited Father who liberates you from bondage and forges an alokik relationship with you. Always have the awareness that we are in a Godly relationship. This Godly relationship gives constant happiness. Achcha.

To the sweetest, beloved, long-lost and now-found extremely loving children, love, remembrance and good morning from the depths of the heart with deep love from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Elevated Avyakt Versions – Specialities of the group that uplifts others:

BapDada wants a *group* of *all-round* actors who uplift others, who do the same at the end as it was at the beginning. You create *groups* for every special task, do you not? So, at this time, a *group* of those who

uplift others, who are bestowers and donate to others, is needed. Similarly, a king is a bestower. The kings nowadays are not that. Kings who are full are those who always give to their subjects. If they take from the subjects, then the subjects have become kings and this is why kings who are full never take anything from anyone; they are those who give. The hands of a king who is full are never hands that take; they will be hands that give. Would the world emperor of heaven take from his subjects? The subjects themselves will be full, so what would the world emperor be? As you have to play the part of a bestower in the future, you have to create the sanskars of a bestower now. There should not even be the thought of taking any *salvation* (facilities) from anyone and then giving *salvation* (facilities) to others. This is known as a *beggar to a prince*. Do not be one who has a desire to take for the self. Be a *beggar* in terms of limited desires. Be a *beggar* in terms of accepting limited facilities. Only such *beggars* will become idols that are full. On the one hand be a *beggar* and on the other hand, be full. Those who play the *part* of a *beggar to a prince practically* at this time are called constant renunciates and ones who are constantly fortunate. Through renunciation, you automatically create your fortune for all time. As soon as you renounce something, you create the line of your fortune. There should be a group of those who uplift others and who are themselves ignorant of the knowledge of desire and are unending donors. You saw the father: he even gave his own time for service. He himself remained humble and gave respect to the children. He always put the children first. It was the children's name first and then his own work: renunciation of earning a name for the work. He became one who uplifted others even in terms of having a name for himself: he renounced his own name and gave the name to others. He always kept himself a server: this is uplifting others. He kept the children as the masters and kept himself as a server. So, he even gave away the respect of being a master; he gave away that honour and also that name. He never glorified his own name: my children. Just as the father renounced his name, respect and honour, so he uplifted others and considered his own happiness to lie in the happiness of the children. He considered the children's sorrow, when they forgot the Father, to be his own sorrow. By considering the children's mistakes to be his own mistakes, he made the children constantly *righteous*. This is known as uplifting others. Nowadays, there is a need for such groups to finish the weaknesses of others and to give them power. What would happen if all of you were to become like that? Your time would be saved and *cases* and situations would finish and then there would always be spiritual *sneh-milans* (meetings of love). There would be a fast speed in the task of world benevolence. You now have to make so many *plans*. Some *plans*, that is, ammunition finishes before the task is accomplished. Some fireworks don't ignite but just fizzle out. However, you had the thought of bringing about world benefit at a fast speed, that this should happen at this time. You do that everywhere as instruments and the sound spreads. You saw sakar Baba: Together with being an *authority* on *knowledge*, he was also an *authority* as an image of experience through that *knowledge*. Because of this *authority*, together with *knowledge* in his words, there was also experience: he had *double authority*. If every child were to speak words with *double authority* in this way, then the arrow of experience and the arrow of the *authority* of *knowledge* would create an impact in a *second*. When they have both *authorities* of their form and their words, there will then be success easily. Otherwise, they say that this *knowledge* is very good, that it is elevated, but it is difficult to imbibe. So, being an image of dharna and an embodiment of dharna should be *visible* practically. It becomes easy to follow a practical example. Therefore, such a *group* who has *double authority* is needed: those who have no desires at all, the ones who are intoxicated beggars. Achcha. Om shanti.

Blessing: May you experience the ascending stage by being *honest* and very clear in front of the Father. To reveal the self in front of the Father as you are and what you are is the greatest method of all for the ascending stage. This is an easy method to finish all the different types of burden that there are on the intellect. Be *honest* and keep the self clear in front of the Father, that is, make the path of effort clear. When you make clever *plans* from your own dictates or the dictates of others and then put them in front of the Father or the instrument souls, that is not *honesty*. *Honesty* means that, just as the Father is clear in front of the children as to who He is and how He is, so children should reveal themselves to the Father in the same way.

Slogan: A true tapaswi soul is one who stays constantly in the *position* of a complete renunciate.
